Governors, Grants, and Elections Sean Nicholson-Crotty, 2015-10 How partisan politics influence grant related decisions at the state level Each year states receive hundreds of billions of dollars in grants in aid from the federal government Gubernatorial success is often contingent upon the pursuit and allocation of these grants In *Governors Grants and Elections* Sean Nicholson Crotty reveals the truth about how U S governors strategically utilize these funds Far from spending federal money in apolitical ways they usually pursue their own policy interests in the hopes of maximizing their or their party's electoral success Nicholson Crotty analyzes three decades of data on the receipt and expenditure of grants in all fifty states He also draws compelling evidence from governors public speeches and interviews with state officials Ultimately he demonstrates that incumbent governors use of grants to deliver policies desired by core constituents along with their opportunistic funding of public and private goods that appeal to noncore median voters enables them to increase approval legislative success and ultimately vote share for themselves or their parties The inaugural book in the Johns Hopkins Studies in American Public Policy and Management series *Governors Grants and Elections* is a significant and accessible work of public policy scholarship that sits at the nexus of multiple fields within political science

When Federalism Works Paul E. Peterson, Barry G. Rabe, Kenneth K. Wong, 2010-12-01 Twenty years ago cooperative federalism in the form of federal grant

in aid programs administered by state and local governments was applauded almost without reservation as the best means of helping the handicapped the educationally disadvantaged the poor and other groups with special needs More recently these same programs have been criticized for excessive regulations and red tape bureaucratic ineptitude and high cost The criticisms have been used to justify efforts to curb federal domestic spending and terminate many grants in aid In When Federalism Works Paul E Peterson Barry G Rabe and Kenneth K Wong examine the new conventional wisdom about federal grants Through documentary research and hundreds of interviews with local state and federal administrators and elected officials they consider the implementation and operation of federal programs for education health care and housing in four urban areas to learn which programs worked when and why Why did rent subsidy programs encounter seemingly endless difficulties while special education was a notable success Why did compensatory education fare better in Milwaukee than in Baltimore Among the factors the authors find significant are the extent to which a program is directed toward groups in need the political and economic circumstances of the area in which it is implemented and the degree of professionalism among those who administer it at all levels of government When Federalism Works provides a solid introduction to the most important grant in aid programs of the past twenty years and a thoughtful assessment of where they might be going A Survey Report on the Impact of Federal Grants-in-aid on the Structure and Functions of State and Local Governments Governmental Affairs Institute (U.S.),1955 Periodic Congressional Review of Federal Grants-in-aid United States.
