Politics Of Identity Liberal Political Theory And The Dilemmas Of Difference:

The Politics of Identity Michael Kenny, 2004-06-18 This book provides a comprehensive and critical assessment of the ways in which Anglo American political theorists have responded to the emergence of a politics of identity in democratic society. It examines the merits and weaknesses of the ideas associated with the major schools and thinkers in contemporary philosophical liberalism. It also provides a critical exploration of the arguments of their pluralist rivals including advocates of multiculturalism, difference and recognition. Kenny illustrates how debates over such concepts as identity, difference, recognition and culture are intertwined with political theorists' characterizations of democracy, citizenship and civil society. In an analysis that juxtaposes normative political theory with the study of social movements and change, the author challenges two widely held ideas about the relationship between liberal democracy and culturally based groups. He questions the assertion that there is no place for identity based political argument in the public life of a democracy. And he challenges the pluralist conviction that the re-emergence of collective identities signals the demise of liberal culture and political thought. Written in a clear and accessible style, *The Politics of Identity* is intended for students, scholars and general readers interested in contemporary political and social thought, political ideologies and political culture. **The Politics of the American**

Dream C. Ghosh, 2012-12-28 *The Politics of the American Dream* analyzes the role of the American Dream in contemporary American political culture. Utilizing analytic political theory, Ghosh creates a unique picture of Dream Politics and shows the effect on the landscape of American politics. *The Politics of English Nationhood* Michael Kenny, 2014-03 Provides an

overview of the evidence, research and major arguments relating to the revival of Englishness and its varied political ramifications and dimensions. **De-Moralizing Gay Rights** Cyril Ghosh, 2018-05-18 This book critically interrogates three sets of distortions that emanate from the messianic core of 21st century public discourse on LGBT rights in the United States. The first relates to the critique of pinkwashing often advanced by scholars who claim to be committed to an emancipatory politics. The second concerns a recent US Supreme Court decision, *Obergefell v Hodges* 2015, a judgment that established marriage equality across the 50 states. The third distortion occurs in Kenji Yoshino's theorization of the concept of gay covering. Each distortion produces its own injunction to assimilate, sometimes into the dominant mainstream and at other times into the fold of what is axiomatically taken to be the category of the radical. Using a queer theoretic analysis, *De-Moralizing Gay Rights* argues for the dismantling of each of these three sets of assimilationist injunctions. **Discourses on**

Identity in 'First' and 'Other' Serbia Ana Omaljev, 2016-01-26 Serbia is still widely thought of as an unfinished state whose people struggle to establish a compelling identity narrative in answer to the question, who are we? While existing literature has over-analyzed Serbian nationalism, the Serbian public sphere remains largely ignored. This engaging and timely book fills this gap by giving context to the persistent and overwhelming dialogue between opposing factions on the identity spectrum in Serbia. Omaljev's focus on elite discourses provides a fresh perspective on this contentious subject. It offers an original

understanding of the competing arguments surrounding First and Other Serbia and of the contested visions of Serbian national identity and broader European identity By closely examining the identity vocabulary of Serbian elites and the opposing ways in which these elites view the use of labels such as anti Serbian patriot and traitor this book provides a vital lesson in post conflict nation building and raises important questions about the symbolic representations of political and cultural identities A much needed and compelling intervention in the Serbian identity discourse Omaljev s work is a must read for any researcher on the Western Balkans

Identity Gerald Izenberg, 2019-03-08 Identity The Necessity of a Modern Idea is the first comprehensive history of identity as the answer to the question who or what am I It covers the century from the end of World War I when identity in this sense first became an issue for writers and philosophers to 2010 when European political leaders declared multiculturalism a failure just as Canada which pioneered it was hailing its success Along the way the book examines Erik Erikson's concepts of psychological identity and identity crisis which made the word famous the turn to collective identity and the rise of identity politics in Europe and America varieties and theories of group identity debates over accommodating collective identities within liberal democracy the relationship between individual and group identity the postmodern critique of identity as a concept and the ways it nonetheless transformed the social sciences and altered our ideas of ethics At the same time the book is an argument for the validity and indispensability of identity properly understood Identity was not a concept before the twentieth century because it was taken for granted The slaughter of World War I undermined the honored identities of prewar Europe and as a result the idea of identity as something objective and stable was thrown into question at the same time that people began to sense that it was psychologically and socially necessary We can't be at home in our bodies act effectively in the world or interact comfortably with others without a stable sense of who we are Gerald Izenberg argues that while it is a mistake to believe that our identities are givens that we passively discover about ourselves decreed by God destiny or nature our most important identities have an objective foundation in our existential situation as bodies social beings and creatures who aspire to meaning and transcendence as well as in the legitimacy of our historical particularity

Class, Politics, and the Decline of Deference in England, 1968-2000 Florence Sutcliffe-Braithwaite, 2018 In late twentieth century England inequality was rocketing yet some have suggested that the politics of class was declining in significance while others argue that class identities lost little power Neither interpretation is satisfactory class remained important to ordinary people's narratives about social change and their own identities throughout

the period 1968-2000 but in changing ways. Using self-narratives drawn from a wide range of sources—the raw materials of sociological studies, transcripts from oral history projects, Mass Observation and autobiography—the book examines class identities and narratives of social change between 1968 and 2000, showing that by the end of the period class was often seen as an historical identity related to background and heritage and that many felt strict class boundaries had blurred quite profoundly since 1945. Class snobberies went underground as many people from all backgrounds began to assert that what was important was authenticity, individuality and ordinariness. In fact, Sutcliffe Braithwaite argues that it is more useful to understand the cultural changes of these years through the lens of the decline of deference, which transformed people's attitudes towards class and towards politics. The study also examines the claim that Thatcher and New Labour wrote class out of politics, arguing that this simple and highly political narrative misses important points. Thatcher was driven by political ideology and necessity to try to dismiss the importance of class, while the New Labour project was good at listening to voters, particularly swing voters in marginal seats, and echoing back what they were increasingly saying about the blurring of class lines and the importance of ordinariness. But this did not add up to an abandonment of a majoritarian project, as New Labour reoriented their political project to emphasize using the state to empower the individual.

A Dangerous Passion Haig Patapan, 2021-05-01 *A Dangerous Passion* argues that leadership and honor are mutually constitutive and that this dynamic relationship fundamentally shapes the character of political practice. Haig Patapan shows how our contemporary blindness to this leadership-honor dynamic and neglect of the significance of honor and shame in modern politics have caused us to fundamentally misunderstand the nature of leadership. We have lost sight of how honor shapes the ambitions and aspirations of those who seek political office and the opportunities and limits it imposes on leaders when engaging with their followers. What has been obscured are the two faces of honor: how it is the dangerous passion that fuels the ambitions of the glory seekers to pursue tyranny and empire, as well as being the source of good leadership that is founded on noble ambition and sacrifice for the common good. Patapan examines classical magnanimity, Machiavellian glory and Hobbesian dispersed leadership views that continue to be debated and then offers insights from these debates to illuminate a series of contemporary political challenges for leaders, including the politics of fame, identity and nationalism.

The Limits of Constitutional Democracy Jeffrey K. Tulis, 2010-11-14 Constitutional democracy is at once a flourishing idea filled with optimism and promise and an enterprise fraught with limitations. Uncovering the reasons for this ambivalence, this book looks at the difficulties of constitutional democracy and reexamines fundamental questions: What is constitutional democracy? When does it succeed or fail? Can constitutional democracies conduct war? Can they preserve their values and institutions while addressing new forms of global interdependence? The authors gathered here interrogate constitutional democracy's meaning in order to illuminate its future. The book examines key themes: the issues of constitutional failure, the problem of emergency power and whether constitutions should be suspended when emergencies arise, the dilemmas faced when constitutions

provide and restrict executive power during wartime and whether constitutions can adapt to such globalization challenges as immigration religious resurgence and nuclear arms proliferation In addition to the editors the contributors are Sotirios Barber Joseph Besette Mark Brandon Daniel Deudney Christopher Eisgruber James Fleming William Harris II Ran Hirschl Gary Jacobsohn Benjamin Kleinerman Jan Werner Müller Kim Scheppele Rogers Smith Adrian Vermeule and Mariah Zeisberg
