Compact and affordable single volume reference format **Soviet Nation-Building in Central Asia** Grigol

Ubiria,2015-09-16 The demise of the Soviet Union in 1991 resulted in new state led nation building projects in Central Asia

The emergence of independent republics spawned a renewed Western scholarly interest in the region s nationality issues

Presenting a detailed study this book examines the state led nation building projects in the Soviet republics of Kazakhstan

and Uzbekistan Exploring the degree forms and ways of the Soviet state involvement in creating Kazakh and Uzbek nations

this book places the discussion within the theoretical literature on nationalism The author argues that both Kazakh and

Uzbek nations are artificial constructs of Moscow based Soviet policy makers of the 1920s and 1930s This book challenges

existing arguments in current scholarship by bringing some new and alternative insights into the role of indigenous Central

Asian and Soviet officials in these nation building projects It goes on to critically examine post Soviet official Kazakh and

Uzbek historiographies according to which Kazakh and Uzbek peoples had developed national collective identities and

loyalties long before the Soviet era This book will be a useful contribution to Central Asian History and Politics as well as

studies of Nationalism and Soviet Politics *Revivals, Nationalism, and Linguistic Discrimination* Kara Fleming,Umberto

Ansaldi,2019-12-06 Is linguistic revival beneficiary to the plight of newly emerging peripheral or even threatened cultures Or

is it a smokescreen that hides the vestiges of ethnocentric ideologies which ultimately create a hegemonic relationship This

book takes a critical look at revival exercises of special historical and geopolitical significance and argues that a critical and

cautious approach to revival movements is necessary The cases of Sinhala Kazakh Mongolian Catalan and even Hong Kong

Cantonese show that it is not through linguistic revival but rather through political representation and economic

development that the peoples in question achieve competitiveness and equality amongst their neighbors On the other hand

linguistic revival in these and other contexts can and has been used to support nationalist or ethnocentric agendas to the

detriment of other groups recreating the same dynamics that generated the argument for revival in the first place This book

argues that respect for linguistic and other diversity multilingualism and multiculturalism is not compatible with linguistic

revival that mirrors nation building and essentializing identity construction
