Modernization and Bureaucratic-authoritarianism Guillermo A. O'Donnell, 1973

The Politics of Aristocratic Empires John H. Kautsky, 2017-09-29 The Politics of Aristocratic Empires is a study of a political order that prevailed throughout much of the world for many centuries without any major social conflict or change and with hardly any government in the modern sense Although previously ignored by political science powerful remnants of this old order still persist in modern politics The historical literature on aristocratic empires typically is descriptive and treats each empire as unique By contrast this work adopts an analytical explanatory and comparative approach and clearly distinguishes aristocratic empires from both primitive and more modern commercialized societies It develops generalizations that are supported and richly illustrated by data from many empires and demonstrates that a pattern of politics prevailed across time space and cultures from ancient Egypt five millennia ago to Saudi Arabia five decades ago from China and Japan to Europe from the Incas and the Aztecs to the Tutsi Kautsky argues that aristocrats because they live off the labor of peasants must perform the primary governmental functions of taxation and warfare Their performance is linked to particular values and beliefs and both functions and ideologies in turn condition the stakes the forms and the arenas of intra aristocratic conflict the politics of the aristocracy The author also analyzes the roles of the peasantry and the townspeople in aristocratic politics and shows that peasant revolts on any large scale occur only after commercial modernization He concludes with chapters on the modernization of aristocratic empires and on the importance in modern politics of institutional and ideological remnants of the old aristocratic order

MODERN COMPARATIVE POLITICS SAMIRENDRA N. RAY, 1998-01-01 Designed primarily as an introductory textbook for graduate and senior undergraduate students offering

comparative politics as a compulsory course this finely integrated text is by far the most comprehensive yet concise and critical analysis of the contending approaches methods and models and the theory building efforts made in the second half of this century The book provides a lucid and up to date presentation of the ramifications of the governmental process and political dynamics issues and problems relating to the structure function process and operation of governmental and political organizations in a genuinely comparative perspective

Transforming Korean Politics Young Whan Kihl, 2015-03-26 Over the past fifteen years South Korea has transformed itself from an authoritarian government into a new democracy with a vibrant capitalist economy Modernization democratization and globalization have played important roles in this transformation and have greatly influenced the programs and policies of Korea's Sixth Republic Covering developments through the 2003 elections this book shows how the South Korean government and society have been shaped not only by the dynamics of these forces but also by their interaction with the cultural norms of a post Confucian society The author provides a conceptual framework and baseline for examining political developments in Korea and offers an analysis of the factors that are transforming Korean institutions society and politics He discusses the forces shaping Korea's political economy and the performance of successive ROK governments and also highlights the challenges faced by the newly elected administration of Roh Moo Huan the North Korean issue and more

Rethinking Development David Apter, 1987-10-01 Development theory is at a crossroads Dominant theories such as modernization and dependency have run their course In Rethinking Development one of the preeminent political and social theorists of our time offers his view of the direction of the discipline Using major themes such as the relation between development and democracy the problem of innovation and marginality Professor Apter offers an innovative comparative study of development Rethinking Development takes a new look at scientific romantic and teleological formulations of development showing how conventional concepts of development prevent us from seeing its negative consequences It argues that development will generate democracy but not e

Politics, Modernisation and Educational Reform in Russia David Johnson, 2010-05-17 The chapters in this volume give an account of the process of modernisation and educational reform in Russia variously considering the cultural and political dilemmas provoked by democratisation the structural and policy challenges associated with the reform of higher and vocational education and the deep divisions exposed as socio cultural activity is brought into alignment with the new discourse of freedom and choice The volume stimulates an important debate about the methods that inform cross national and cross regional work on educational change This is particularly salient in a study of educational reform in Russia and begs the question whose way of thinking of constructing meaning and of experiencing the world is used to judge the weight and the direction of change Each chapter shows that a thorough understanding of the nature of change and the direction of reform is only achieved through the ability to decentre or take on board the other worldview It argues therefore that it is worldview rather than culture or nation state that is the most valid unit of analysis This book pays tribute to K D Ushinsky 1824-70 the Russian pioneer of comparative

education each chapter in it broadly in agreement with his conclusions that Public education does not solve the problems of life by itself it does not lead history rather it follows the historical development It is not the pedagogies or the teachers who create the future but the people themselves and their great men Education only follows this road and in combination with other public social factors helps the individual and the rising generation on its way *Comparative Politics* Howard J. Wiarda, Esther M. Skelley, 2007 Beginning with an introduction to the field of comparative politics this clear and complete text moves on to explore new innovative directions in the field Leading scholar Howard J Wiarda explores its main approaches including political development political culture dependency theory corporatism indigenous theories of change state society relations rational choice and the new institutionalism Wiarda addresses many hot issues in the field Can democracy and human rights be transplanted from one culture to another Is civil society exportable What works in the effort to develop the poorer nations and what doesn't Where are we headed with such frontier research issues as comparative environmental policy women's rights and gay rights The book concludes with a stimulating discussion of whether the great systems debates of the past socialism vs capitalism democracy vs authoritarianism are now over and points to some of the next important study and research frontiers Students professors and general readers will all find *Comparative Politics* current provocative and well written a truly balanced overview

Rethinking Development Politics Ilan Kapoor, Gavin Fridell, 2024-02-12 In this innovative book Ilan Kapoor and Gavin Fridell rethink development politics psychoanalytically investigating its unconscious Whereas mainstream development politics is organized around stability and rationality psychoanalysis points to disharmony and irrationality helping to explain the development subject's often self-defeating behaviour

The New Development Politics James Petras, 2017-07-05 A critique of current conceptions of international political economy the role of the state and contemporary social movements *The New Development Politics* challenges the dominant paradigms in the field of development studies Raising fundamental theoretical and empirical questions it provides a coherent response to the increasing militarization of inter state relations increasing protectionism and inter state rivalries and the growing age of state intervention in political economic and social life The study presents a critical analysis of US empire building the role of dirty money and political power as opposed to technological change It features a discussion of neo mercantilism as a new mode of empire and examines the role of new movements of unemployed and landless peasants in key Third World countries

The Politics of Modernization in Eastern Europe, 1976

The Reinvention of Politics Ulrich Beck, 2015-10-08 Those who advocate ideas about postmodernity and post industrialism offer radical critiques of existing social and political institutions But they provide very little in place of those institutions It is all very well to criticize the limitations of social democracy the welfare state trade unionism and social classes as agents of change but once these have been thrown into crisis what other institutions do we have to depend on *The Reinvention of Politics* suggests we should think again about forging a new model of politics for our times An active devolved civil society Beck argues can sustain the

claim that modernity is inherently democratic For many issues now for example those involving technology environment protest the family or gender relations belong to the domain of what the author calls subpolitics The postmodern critique of modernity in Beck s view is based on mistaken generalizations about a transitional phase in the evolution of modern society What is needed he argues is the reinvention of politics corresponding to th new demands of a society which remains modern but which has progressed beyond the earlier form of industrial society This book will be essential reading for second year undergraduates and above in the fields of social and political theory sociology and political science

Handbook of Defence Politics Isaiah "Ike" Wilson III,James J.F. Forrest,2011-03-28 Issues of defence politics and policy have long been at the forefront of political agendas and defining of international affairs However the dramatic changes to the global system that have taken place since the end of the Cold War and parrticularly since the terror attacks on the USA on 11 September 2001 have amplified the world s attention toward political and policy issues of national regional and global security The focus of this volume is on examining the fundamental causes of and defence policy responses to this new post 9 11 security environment Edited by Isaiah Ike Wilson III and James J F Forest of the US Military Academy West Point USA this volume is international in scope with pieces written by experts in the field offering a collection of up to date and balanced insights on key contemporary issues of concern to defence policymakers The book will be an invaluable reference tool for academics and students researchers in international relations policymakers media professionals and government officials

Religious Resurgence and Politics in the Contemporary World Emile Sahliyah,1990-08-14 This book examines the highly politicized religious groups and movements that have surfaced since the late 1970s in the United States Central America South Africa the Philippines India and the Middle East Sahliyah and others analyze this trend toward the politicization of religious conservatism and question a number of assumptions central to concepts of modernization For example it has been assumed by development theorists that the interrelated components of modernization would enhance the trend toward secularization of societies This book shows that in many societies today religious revivalism and fundamentalism seem to be direct products of modernization A global comparative approach is utilized to formulate general explanations for religious revivalism and its implications for modernization development and politics

Problems of Communism ,1981 Rethinking Development David Apter,1987-10-01 Development theory is at a crossroads Dominant theories such as modernization and dependency have run their course In Rethinking Development one of the preeminent political and social theorists of our time offers his view of the direction of the discipline Using major themes such as the relation between development and democracy the problem of innovation and marginality Professor Apter offers an innovative comparative study of development Rethinking Development takes a new look at scientific romantic and teleological formulations of development showing how conventional concepts of development prevent us from seeing its negative consequences It argues that development will generate democracy but not e
