Policy and Politics in Teacher Education John Furlong, Marilyn Cochran-Smith, Marie Brennan, 2013-09-13 During the last 20 years governments around the world have paid increasing attention to the recruitment preparation and retention of teachers Teacher supply and teacher quality have become significant policy issues taken up by policy makers at the highest levels This is because teachers are now seen by many governments as the lynch pin of educational economic and social reform This volume grew out of a recognition by the Editors of the growing significance of teacher education policy and a curiosity about international trends and differences The book brings together nine papers from leading academics around the world from the UK England and Scotland the USA Australia Singapore and Belgium plus a joint paper comparing Namibia and the USA Taken together the papers reveal the complexities and contradictions of international trends On the one hand they demonstrate that there is indeed a common direction of travel along the lines encouraged by international bodies such as the OECD At the same time however the papers also reveal important differences among countries in terms of how they are addressing common aspirations as well as some apparent contradictions within the policies of individual nations This book was based on the special issue of Teachers and Teaching

[Handbook of Research on Teacher Education](#) Marilyn Cochran-Smith, Sharon Feiman-Nemser, John McIntyre, Kelly E. Demers, 2008-02-19 Co Published by Routledge Taylor Francis Group and the Association of Teacher Educators The Handbook of Research on Teacher Education was initiated to ferment change in education based on solid evidence The publication of the First Edition was a signal event in 1990 While the preparation of educators was then and continues to be the topic of substantial

discussion there did not exist a codification of the best that was known at the time about teacher education. Reflecting the needs of educators today, the Third Edition takes a new approach to achieving the same purpose. Beyond simply conceptualizing the broad landscape of teacher education and providing comprehensive reviews of the latest research for major domains of practice, this edition stimulates a broad conversation about foundational issues, brings multiple perspectives to bear, provides new specificity to topics that have been undifferentiated in the past, includes diverse voices in the conversation. The Editors, with an Advisory Board, identified nine foundational issues and translated them into a set of focal questions: What's the Point? The Purposes of Teacher Education; What Should Teachers Know? Teacher Capacities; Knowledge, Beliefs, Skills, and Commitments; Where Should Teachers Be Taught? Settings and Roles in Teacher Education; Who Teaches? Who Should Teach? Teacher Recruitment, Selection, and Retention; Does Difference Make a Difference? Diversity and Teacher Education; How Do People Learn to Teach? Who's in Charge? Authority in Teacher Education; How Do We Know What We Know? Research and Teacher Education; What Good is Teacher Education? The Place of Teacher Education in Teachers' Education. The Association of Teacher Educators (ATE) is an individual membership organization devoted solely to the improvement of teacher education both for school-based and post-secondary teacher educators. Cochran-Smith, 2006-01-13. This powerful text organizes Marilyn Cochran-Smith's influential essays from the *Journal of Teacher Education* into one concise guide to teacher preparation at its best. **Teacher Education Policy in the United States** Penelope M. Earley, David G. Imig, Nicholas M. Michelli, 2011-05-23. What constitutes a high-quality teacher education program and what standards teacher candidates should meet before receiving their teaching credential? This volume advances deep understanding of the nature and sources of policy affecting the preparation of teachers in the U.S. and the conflicts or interconnections of these policies with the broader field of education policy. Contributions from actors in the policy world and experts representing the stakeholders are balanced and based on issues currently facing the field. Policy is viewed as evolving and political. The connection or lack thereof between policy and research is examined. Policy case studies ground the principles developed within specific chapters in practice and illustrate that policy questions and solutions are continually evolving and unsettled. Chapter-end commentaries by the editors relate the focus of each chapter to the overarching themes of the book: policy formation, policy influences, policy paradoxes, and connections to research. This volume is an essential resource for understanding and resolving today's uncertainty and confusion over teacher education policy.
