correspond with people's working lives Across the first decades of the twentieth century trade unionists, statisticians and advocates of social insurance in Australia as well as Britain grappled with the problem of which forms of joblessness should be classified as unemployment and which should not This book traces those debates It also chronicles the emergence and consolidation of a specific idea of unemployment in Australia after the Second World War It then charts the eventual unravelling of that idea and relates that unravelling to the changing ways of ordering employment relationships In doing so *Inventing Unemployment* challenges the preconception that casual work, self employment and the gig economy are recent phenomena Those forms of work confounded earlier attempts to define unemployment and are again unsettling our contemporary understandings of joblessness This thought provoking book shows that the category of unemployment rather than being a taken for granted economic variable has its own history and that history is intimately related to our changing understandings of employment

**Young People and the Shaping of Public Space in Melbourne, 1870-1914** Simon Sleight, 2016-02-11 Baby booms have a long history In 1870 colonial Melbourne was perspiring juvenile humanity with an astonishing 42 per cent of the city's inhabitants aged 14 and under a demographic anomaly resulting from the gold rushes of the 1850s Within this context Simon Sleight enters the heated debate concerning the future prospects of Young Australia and the place of the colonial child within the incipient Australian nation Looking beyond those institutional sites so often assessed by historians of childhood he ranges across the outdoor city to chart the relationship between a discourse about youth, youthful experience and the shaping of new urban spaces Play street, work, consumerism, courtship, gang related activities and public parades are examined using a plethora of historical sources to reveal a hitherto hidden layer of city life Capturing the voices of young people as well as those of their parents Sleight alerts us to the ways in which young people shaped the emergent metropolis by appropriating space and attempting to impress upon the city their own desires Here a dynamic youth culture flourished well before the discovery of the teenager in the mid twentieth century here young people and the city grew up together

**Labour and the politics of Empire** Neville Kirk, 2017-02-01 This is a pathbreaking comparative and transnational study of the neglected influences of nation, empire and race upon the development and electoral fortunes of the Labour Party in Britain and the Australian Labor Party from their formative years of the 1900s to the elections of 2010 Based upon extensive primary and secondary source based research in Britain and Australia over several years it makes a new and original contribution to the fields of labour, imperial and British world history The book offers the challenging conclusion that the forces of nation, empire and race exerted much greater influence upon Labour politics in both countries than suggested by traditionalists and revisionists alike The book will appeal to undergraduates, postgraduates, scholars in history and politics and all those interested in and concerned with the past, present and future of Labour politics in Britain, Australia and more generally

**Sites of Gender** Barbara Lesley Brookes, Annabel Cooper, Robin Law, 2003 This study is the fruit of five years work by a group of Dunedin scholars into the complex ways in which gender operated as a social structure and a shaping force in the lives of the inhabitants of southern Dunedin in the years from 1890 to World War II *Steel Town* Eklund, Erik, 2013-05-24 The sun moves across the narrow coastal plain that borders the range to the north It shows once separate places now merged into one suburban entity a ribbon of residential commercial and industrial development There is a commercial centre whose tall metallic and glass structures reflect the light and celebrate an industrial heritage And to the south an area where a mass of industrial buildings converge around a large harbour This area stands as a telling symbol of the region's golden industrial age To most Australians Port Kembla is a grimy polluted industrial wasteland located down the coast from Sydney Such images were formed over fifty years ago when industrial development in the town was at its height and when the expanse of breathtaking coast had been colonised by the stacks and furnaces of heavy industry Yet the vision of stacks and pollution from furnaces was never the whole story there was always more to Port Kembla Although these ideas persist even today they obscure the real experiences of the people of the port *Steel Town* illuminates our understanding of the processes of industrial and social change Port Kembla was unique in Australian terms an urban environment where industrial society

shaped local life and politics like nowhere else This book explores the advent and implications of industrial society and the impact of economic decline and deindustrialisation In his comprehensive and persuasive account of local life Erik Eklund draws together themes of migration gender class and identity Using archival records oral history interviews and company documents Steel Town charts the relationship between economic change and the human experience of that change The story of Port Kembla is the story of the big issues of Australian history writ small on the lives of three generations of local people The legacy of industrial society is a mixed one its experiences and consequences are full of contradictions And that of course is the beauty of history *Violence, Narrative and Myth in Joyce and Yeats* T. Balinisteanu, 2012-11-14 How can we use art to reconstruct ourselves and the material world Is every individual an art object Is the material world an art text This book answers these questions by examining modernist literature especially James Joyce and W B Yeats in the context of anarchist intellectual thought and Georges Sorel's theory of social myth *Historical Dictionary of Australia* Norman Abjorensen, James C. Docherty, 2014-12-05 Australia's development from the most unpromising of beginnings as a British prison in 1788 to the prosperous liberal democracy of the present is as remarkable as is its success as a country of large scale immigration Since 1942 it has been a loyal ally of the United States and has demonstrated this loyalty by contributing troops to the war in Vietnam and by being part of the coalition of the willing in the U S invasion of Iraq in 2003 and in operations in Afghanistan In recent years it has also been more willing to promote peace and democracy in its Pacific and Asian neighbors This fourth edition of *Historical Dictionary of Australia* covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Australia *Women As Australian Citizens* Patricia Crawford, Philippa Maddern, 2016-06-03 What does it mean to be a woman citizen in Australia today Why have Australian women appeared so rarely in public political life despite gaining the vote in 1901 Why has formal citizenship historically been analysed in primarily male terms And how have women themselves established different practices of citizenship from those of men *Women as Australian Citizens* addresses these questions It examines the long histories of citizenship for Australian women of various ethnic and cultural backgrounds showing how gender far from being irrelevant has been central to constructions of the concept of citizenship Hence citizenship has been masculinised and women's citizenly activities marginalised This challenging and original work problematises the concept of citizenship and the unstated assumptions infusing it The authors argue that from its earliest European origins the word citizen has acted as a term of division denoting both inclusion in and exclusion from civic power and initiating enduring negotiations over the criteria for becoming a citizen Patricia Crawford Philippa Maddern and their associate authors investigate how gender has been used as a marker and justification for inclusion and exclusion They show how women from many different backgrounds from the medieval world

onwards rethought and rewrote their own citizenship and argue that the legacies of these historical debates still underlie community understandings of modern Australian citizenship      Law, history, colonialism Diane Kirkby, Catharine Coleborne, 2017-03-01 Drawing on the latest contemporary research from an internationally acclaimed group of scholars Law history colonialism brings together the disciplines of law history and post colonial studies in a singular exploration of imperialism In fresh innovative essays from a range of disciplinary backgrounds this collection offers exciting new perspectives on the length and breadth of empire As issues of native title truth and reconciliation commissions and access to land and natural resources are contested in courtrooms and legislation of former colonies the disciplines of law and history afford new ways of seeing hearing and creating knowledge Issues explored include the judicial construction of racial categories the gendered definitions of nation states the historical construction of citizenship sovereignty and land rights the limits to legality and the charting of empire constructions of madness among colonised peoples reforming property rights of married women questions of legal and historical evidence and the rule of law This collection will be an indispensable reference work to scholars students and teachers
