Institutions.

Mobilisation, and Political Participation Laura Morales Diez de Ulzurrun, 2004 Esta tesis mantiene que no podemos entender completamente el asociacionismo político de los ciudadanos a menos que fijemos nuestra mirada más allá de las características individuales es decir a menos que intentemos comprender qué efecto tiene sobre su comportamiento político el contexto político y social en el que los ciudadanos actúan Los recursos y las características socioeconómicas proporcionan oportunidades para unirse a organizaciones políticas Las actitudes y las orientaciones proveen o por el contrario reducen la motivación para unirse a un grupo con objetivos políticos Sin embargo estos rasgos individuales no son necesariamente factores de desigualdad en todas las sociedades ni tienen siempre las mismas consecuencias El contexto social y político en el que los

ciudadanos toman decisiones sobre su participaci n interact a de manera importante con los rasgos individuales para activar o desactivar su impacto pol tico Adem s el contexto social y pol tico que rodea a los ciudadanos tiene tambi n un impacto independiente sobre su comportamiento pol tico Las instituciones pol ticas y las pautas de movilizaci n pol tica condicionan de manera crucial el asociacionismo pol tico Estos dos conjuntos de factores instituciones y movilizaci n estructuran las oportunidades de participaci n que en realidad tienen los ciudadanos De hecho algunos sistemas democr ticos han desarrollado instituciones pol ticas que facilitan la pertenencia a grupos pol ticos As mientras que en algunos pa ses occidentales los ciudadanos son movilizados con mucha frecuencia a trav s de asociaciones pol ticas en otros lo son en mucha menor medida Esta tesis es por lo tanto un intento de incorporar de una manera sistem tica la pol tica y las instituciones en el an lisis del comportamiento pol tico A lo largo de la misma se demuestra que las enormes diferencias entre los pa ses occidentales en t rminos de la propensi n de sus respectivos ciudadanos a organizarse pol ticamente no pueden explicarse s lo por las distintas caracter sticas socioecon micas de los individuos Sin duda estos aspectos tambi n contribuyen a que sean menos participativos pero no nos ayudan gran cosa a explicar las variaciones que encontramos entre sociedades occidentales Los resultados de esta investigaci n ponen de manifiesto la enorme importancia del contexto sociopol tico para explicar por qu los ciudadanos de algunas democracias occidentales participan en pol tica a trav s de organizaciones y por qu no lo hacen los de otras sociedades similares Determinadas estructuras de oportunidades pol ticas favorecen la participaci n de los ciudadanos de manera muy importante As sistemas pol ticos m s abiertos a la influencia de las organizaciones pol ticas gracias a la existencia de arreglos corporativistas de intermediaci n de intereses y al mayor pluralismo y fragmentaci n de la representaci n parlamentaria contribuyen a que los ciudadanos encuentren mayores incentivos para participar en los asuntos p blicos Del mismo modo el grado en que las propias organizaciones pol ticas act an como agentes efectivos de movilizaci n pol tica influye en el comportamiento participativo de los ciudadanos All donde las organizaciones pol ticas tienen una red organizativa y de infraestructuras m s densas los ciudadanos est n m s expuestos a los est mulos de reclutamiento pol tico y por tanto participan m s Adem s el contexto pol tico no s lo estructura las oportunidades de participaci n de los ciudadanos sino que tambi n interact a con las caracter sticas de los propios ciudadanos contribuyendo as a aumentar o disminuir las desigualdades participativas de los mismos Las estructuras pol ticas m s abiertas y accesibles disminuyen las barreras y los costes a la participaci n de tal manera que los individuos con menores recursos socioecon micos por ejemplo la educaci n no se encuentran tan desfavorecidos en su capacidad de influir en el proceso de toma de decisiones Por el contrario las estructuras pol ticas m s cerradas exacerbaban el efecto de las desigualdades sociales y las transforman en desigualdades pol ticas De esta manera el contexto pol tico tiene un doble efecto sobre el asociacionismo pol tico en las democracias occidentales Por un lado condiciona cu nt a gente participa en los asuntos p blicos a trav s de organizaciones pol ticas y por otro incide en qui nes son los que participan Los sistemas pol ticos m s abiertos extienden e igualan la participaci n

organizada de los ciudadanos los sistemas políticos más cerrados reducen la participación y la hacen más desigual socialmente

### **On the Interactions of News Media, Interpersonal Communication, Opinion Formation, and Participation**

Joohoan Kim, 1997-12 Deliberative democracy can be defined as a political system based on citizens voluntary and free discussions on public issues. Most scholars have discussed deliberative democracy within normative boundaries. However, based primarily on Katz's interpretation of Tardé, this study finds the concept of public sphere a useful framework for operationalizing the normative concept of deliberative democracy since the four components of the public sphere—news media use, interpersonal communication, opinion formation, and political participation—provide us with empirically testable categories. This study tests the validity of theories of deliberative democracy through examining the interrelationships among the four components of the public sphere. Methodologically, it includes a set of 63 items to probe where people talk and what they talk about in their daily life. An experimental treatment—a stop-and-talk question—is also included in the survey to simulate the effects of real conversation. Through a set of data gathered from a nationwide survey, sufficient evidence was found to support the basic hypotheses: 1) news media use encourages people to have political conversation; 2) news media use and political conversation tend to enhance the quality of opinions measured by consistency, opinionation, and consideredness; 3) news media use political conversation and enhanced opinions encourage political participation. The significance of this study is that 1) unlike other media effects studies, its dependent variables are not just of opinion positions or attitude changes but also opinion quality; 2) it does not consider media alone but deals with the combined effects of interpersonal communication, conversation, and mass media news media use; 3) it combines an experimental design with a nationwide survey; and 4) it assumes that the effects of mass media do not stop at people's attitudes but are extended to their activities.

**Society** Philip A. Cowan, Dorothy Field, Donald A. Hansen, Arlene Skolnick, Guy E. Swanson, 2014-05-22 Any agenda for family research in the 1990s must take seriously a contextual approach to the study of family relationships. The editors and contributors to this volume believe that the richness in family studies over the next decade will come from considering the diversity of family forms, different ethnic groups and cultures, different stages of family life, as well as different historical cohorts. Their goal is to make more explicit how we think about families in order to study them and understand them. To illustrate the need for diversity in family studies, examples are presented from new and old families, majority and minority families, American and Japanese families, and intact and divorcing families. This variety is intended to push the limits of current thinking not only for researchers but also for all who are struggling to live with and work with families in a time when family life is valued but fragmented and relatively unsupported by society's institutions. Students and researchers interested in family development from the viewpoint of any of the social sciences will find this book of value. *Joining*

*Political Organisations* Laura Morales, 2009-04-01 From political parties to environmental organisations citizens join a host of associations in order to influence policymaking and political agendas Yet why in some western democracies do citizens join political organisations much more than in others Drawing on a large number of crossnational surveys and data sets Morales shows that huge crossnational variations in political membership are not so much related to social or attitudinal differences between these countries citizens but are explained to a great extent by the structure of the political system of each nation
