Punishments, Politics, and Prisons in Western Countries

ABSTRACT

Imprisonment rates and patterns and the professionalism and decency of prison operations vary widely between countries and, within the United States, between states. The explanations for differences are deeply embedded in national or local histories and political cultures; substantial changes are hard to achieve. Day-to-day life even in the “best” prisons is usually drab, monotonous, and unpleasant; in the worst it is squalid, unhealthy, and sometimes terrifying. Conditions for guards and other staff are often little better. The big difference is that they can go home at shift’s end. They are often poorly paid and little respected; work in claustrophobic, stultifying environments; and deal daily with angry, depressed, mentally ill, and otherwise troubled people. The best run, most humane prisons address those challenges as best they can—in some countries, sometimes, reasonably well. Many prisons—in some countries, most—are terrible places. Sometimes that is because policy makers cannot or will not spend the money needed to run them decently, sometimes because they do not much care what goes on inside, and sometimes because they affirmatively want prisoners to suffer. Staff miseries are collateral damage.

Countries’ prisons serve as the moral equivalent of canaries in coal mines. Dead canaries attest to the presence of poisonous gases; overcrowded, squalid prisons, to an absence of respect for human dignity. “The degree of civilization in a society,” Fyodor Dostoyevsky wrote, in *House of the*

Politics And Punishments

Edward McPherson

Politics And Punishments:

Politics, Punishment, and Populism Lord Windlesham, 1998-07-23 The Violent Crime Control and Law Enforcement Act of 1994 was arguably the most important legislative achievement of President Clinton's first term. In this detailed account Lord Windlesham, a prominent legal scholar, British legislator, and Oxford College Principal, brings his experience to bear in analyzing the forces inside and outside the 103rd Congress which shaped the final content of the Act. Controversial issues discussed include racial justice, three strikes and you're out, and mandatory sentencing. The Brady Act and the assault weapons ban, the competing claims of prison building and prevention programs, drug policies, and restrictions on repeat sex offenders after release from prison. The narrative of Politics, Punishment, and Populism continues with the Contract with America and the crime policies adopted after the Republicans won control of both the House and Senate in the elections for the 104th Congress. The external pressures and the Congressional tactics deployed to facilitate passage of such measures as the Antiterrorism and Effective Death Penalty Act, Megan's Law, and the Prison Litigation Reform Act are examined in the second part of the book. Subsequent challenges in the courts are also reviewed, including some cases decided by the Supreme Court at the end of its 1996-97 term. The focal point throughout is the impact of populist opinion, as well as that of special interest groups, upon elected representatives in the formation of public policy. The role of one of the most politically potent of all lobbies, the National Rifle Association, is assessed in the context of the competition it faces from an increasingly activist gun control movement. The book concludes by asking whether an end is in sight regarding America's isolated tolerance of lethal weapons.

Politics, Punishment, and Populism David James George Hennessy Baron Windlesham, 1998. In this timely challenging book, a former minister and current legislator in the British government examines the wave of American federal crime control laws that surfaced both before and after the 1994 Republican Revolution in Congress. Lord Windlesham focuses on the pressure that populist opinion and special interests can exert in shaping crime policy. Several law-making actions and arguments are explored, such as the Violent Crime Control and Law Enforcement Act, thought by many to be the key legislative achievement of President Clinton's first term; the Brady Act; the three strikes and you're out rule; Megan's Law; and so forth. Furthermore, in presenting controversial views on the NRA and its competitors, the book ultimately asks how long America can continue to tolerate the private possession of deadly weapons.
