Science, politics and society in early nineteenth-century Ireland

Allan Blackstock, 2016-05-16 This book examines the pivotal period immediately after the Irish Union from the unique perspective of the Reverend William Richardson 1740-1820. A clerical polymath, Richardson's activities ranged from Ulster politics to international scientific debates. His private correspondence adds to our knowledge of central Ulster before and during the 1798 rebellion and provides insights into the tensions between Irish provincial science and the metropolitan scientific world. The book is based on extensive primary research including material new to Irish historiography and follows the political and scientific themes of Richardson's career in a broadly chronological sweep, assessing the role of various shaping features including religion, politics, personality and Enlightenment ideology and analysing each theme in terms of its broad contemporary historical significance. This book will appeal to students and academics with an interest in the period or politics, religion or science.

Gray magazine **Routledge Handbook of Sport and Politics** Alan Bairner, John Kelly, Jung Woo Lee, 2016-10-04 Sport is frequently considered to be an aspect of popular culture that is or should be untainted by the political. However, there is a broad consensus among academics that sport is often at the heart of the political and the political is often central to sport. From the 1936 Olympic Games in Nazi Germany to the civil unrest that preceded the 2014 World Cup in Brazil, sport and politics have remained symbiotic bedfellows. The Routledge Handbook of Sport and Politics goes further than any other book in surveying the complex embedded relationships between sport and politics. With sections addressing ideologies, nation and statehood, corporate politics, political activism, social justice, and the politics of sports events, it introduces the conceptual foundations that underpin our understanding of the sport-politics nexus and examines emergent issues in this field of study.
