## **Politics Metaphysics And Death Essays On Giorgio Agambens Homo S:**

**Politics, Metaphysics, and Death** Andrew Norris, 2005-07-11 A collection of essays by political theorists on Agamben's Homo Sacer *Engaging Terror* Marianne Vardalos, 2009 *Engaging Terror* A Critical and Interdisciplinary Approach is a collection of select extended papers drawn from The Human Condition Series THCS conference on Terror that took place in May 2008 The international scope of the conference drew participants from twenty three countries including Brazil Columbia Cuba France Israel Lebanon Lithuania New Zealand Nigeria Pakistan the Philippines Scotland Singapore South Africa Turkey and the United Kingdom The thirty five essays presented here are a representative sample of the interdisciplinary discussion which sought to analyze popular concepts like terrorism and terrorist as social political and psychosocial phenomena *Engaging Terror* seeks to reveal the diverse forms of terror that persist in contemporary societies For instance cultural forms such as the fine arts film literature mass media religion and market economy continue to define and limit rationality and freedom through institutionalized forms of terror In this way terror shapes our experiences not only through the politics of nation building and international relations but also through the social and ideological production of fear in everyday life Topics covered in this volume include the representation and production of terror from a multiplicity of sites ranging from mental health practices and organized religion to news coverage and musical scores This book will appeal to both scholars and general readers interested in how seemingly benign forms of terror shape and maintain the contemporary human condition Reaching beyond mainstream studies on terror as simply an international political phenomenon this interdisciplinary collection of work multiplies the fields of critical research to broaden the scope of analysis and fundamentally challenge the state of modernity *Agamben and Politics* Sergei Prozorov, 2014-04-22 Tracing how the logic of inoperativity works in the domains of language law history and humanity Agamben and Politics systematically introduces the fundamental concepts of Agamben's political thought and a critically interprets his insights in the wider context of contemporary philosophy In a change of focus from Agamben's other commentators Sergei Prozorov brings out the affirmative mood of Agamben's political thought He concentrates on the concept of inoperativity which has been a central to Agamben's thought from his earliest writings *The Politics of Nothing* Clare Monagle, Dimitris Vardoulakis, 2013-10-31 This book questions what sovereignty looks like when it is de-ontologised when the nothingness at the heart of claims to sovereignty is unmasked and laid bare Drawing on critical thinkers in political theology such as Schmitt Agamben Nancy Blanchot Paulhan *The Politics of Nothing* asks what happens to the political when considered in the frame of the productive potential of the nothing The answers are framed in terms of the deep intellectual histories at our disposal for considering these fundamental questions carving out trajectories inspired by for example Peter Lombard Shakespeare and Spinoza This book offers a series of sensitive and creative reflections that suggest the possibilities offered by thinking through sovereignty via the frame of nihilism This book was originally published as a special issue of *Culture Theory and Critique* *Agamben's*

*Philosophical Lineage* Adam Kotsko, 2018-11-30 Istanbul s AemberlitaAY Hamama provides a case study for the cultural social and economic functions of Turkish bathhouses over time

**Punishment and Inclusion** Andrew Dilts, 2014-09-15 At the start of the twenty first century 1 percent of the U S population is behind bars An additional 3 percent is on parole or probation In all but two states incarcerated felons cannot vote and in three states felon disenfranchisement is for life More than 5 million adult Americans cannot vote because of a felony class criminal conviction meaning that more than 2 percent of otherwise eligible voters are stripped of their political rights Nationally fully a third of the disenfranchised are African American effectively disenfranchising 8 percent of all African Americans in the United States In Alabama Kentucky and Florida one in every five adult African Americans cannot vote Punishment and Inclusion gives a theoretical and historical account of this pernicious practice of felon disenfranchisement drawing widely on early modern political philosophy continental and postcolonial political thought critical race theory feminist philosophy disability theory critical legal studies and archival research into state constitutional conventions It demonstrates that the history of felon disenfranchisement rooted in postslavery restrictions on suffrage and the contemporaneous emergence of the modern American penal system reveals the deep connections between two political institutions often thought to be separate showing the work of membership done by the criminal punishment system and the work of punishment done by the electoral franchise Felon disenfranchisement is a symptom of the tension that persists in democratic politics between membership and punishment This book shows how this tension is managed via the persistence of white supremacy in contemporary regimes of punishment and governance

Derrida Simon Wortham, 2011-10-20 Derrida wrote a vast number of texts for particular events across the world as well as a series of works that portray him as a voyager As an Algerian migr a postcolonial outsider and an idiomatic writer who felt tied to a language that was not his own and as a figure obsessed by the singularity of the literary or philosophical event Derrida emerges as one whose thought always arrives on occasion But how are we to understand the event in Derrida Is there a risk that such stories of Derrida s work tend to misunderstand the essential unpredictability at work in the conditions of his thought And how are we to reconcile the importance in Derrida of the unknowable event the pull of the singular with deconstruction s critical and philosophical rigour and its claims to rethink more systematically the ethico political field This book argues that this negotiation in fact allows deconstruction to reformulate the very questions that we associate with ethical and political responsibility and shows this to be the central interest in Derrida s work

**Agamben's Coming Philosophy** Colby Dickinson, Adam Kotsko, 2015-05-21 One of the many challenges for readers of Agamben s sprawling and heterogeneous body of work is what to make of his increasingly insistent focus on theology Agamben s *Coming Philosophy* brings together Colby Dickinson the author of *Agamben and Theology* and Adam Kotsko the translator of several of Agamben s more recent theologically oriented books to discuss Agamben s unique approach to theology and its profound implications for understanding Agamben s philosophical project and the deepest political and ethical problems of our time

The book covers the whole range of Agamben's work from his earliest reflections to his forthcoming magnum opus *The Use of Bodies*. Along the way the authors provide an overview of Agamben's project as a whole as well as incisive reflections on individual works and isolated themes. This volume is essential reading for anyone grappling with Agamben's work. The theological starting point leads to a thorough examination of Agamben's methodology, his relationship with his primary sources, most notably Walter Benjamin and his relevance for questions of politics, ethics and philosophy. **Open Borders** Silvia Benso, Antonio Calcagno, 2021-03-01 In order to create a greater dialogue between new and emerging Italian philosophy and established continental traditions of thought, Silvia Benso and Antonio Calcagno bring together the work of well-known figures in Italian philosophy such as Antonio Negri, Roberto Esposito, Remo Bodei, Gianni Vattimo, Massimo Cacciari and Adriana Cavarero with important thinkers like Schelling, Hegel, Schmitt, Heidegger, Gadamer, Irigaray, Arendt, Deleuze, Guattari, Derrida and Foucault. In *Open Borders*, Benso and Calcagno introduce to a larger English-speaking audience the thought of highly regarded late twentieth-century Italian philosophers who seek to redefine concepts such as freedom, interpretation, existence, woman, male, female, relationships, realism, emotions and aesthetics. The diverse contributors to this book often transgress and redefine the limits and insights of philosophy itself and bring to the fore a new body of thinking that offers new ways of self-understanding while deeply engaging the issues and questions of contemporary society.

Troubling Natural Categories Naomi Adelson, Leslie Butt, Karina Kielmann, 2013-11-01 Where do our conventional understandings of health, illness and the body stem from? What makes them authoritative? How are the boundaries set around these areas of life unsettled in the changing historical and political contexts of science, technology and health care delivery? These questions are at the heart of *Troubling Natural Categories*, a collection of essays honouring the tradition of Margaret Lock, one of the preeminent medical anthropologists of our time. Throughout her career, Lock has investigated how medicine sets boundaries around what is deemed normal and natural and how in turn these ideas shape our technical and moral understandings of life, sickness and death. In this book, nine established medical anthropologists, all former students of Lock, critically engage with her work, offering ethnographic and historical analyses that problematize taken-for-granted constructs in health and medicine in a range of global settings. The essays elaborate cutting-edge themes within medical anthropology, including the often-disturbing, inherently political nature of biomedicine and biotechnology, the medicalization of mental health processes and the formation of uniquely local biologies through the convergence of bodily experience, scientific discourse and new technologies of care. *Troubling Natural Categories* not only affirms Margaret Lock's place at the forefront of scholarship but with these essays carves out new intellectual directions in the medical social sciences. Contributors include Sean Brotherton, Vinh Kim, Nguyen Junko, Kitanaka, Stephanie, Lloyd, Dominique, Behague and Annette Leibing. **Queer Events** David Vilaseca, 2010-05-24 *Queer Events* studies the representations of queer subjectivities during the Spanish Transition era, 1960s to 1990s, drawing on some of the most influential critical theorists and philosophers of our times. Gilles

Deleuze Giorgio Agamben Alain Badiou The book focuses on well known Spanish authors and film makers Terenci Moix Vicente Aranda as well as on others who have merited far less critical attention so far including Antonio Roig Alberto Card n and the directors of the short lived avant garde film movement known as Escuela de Barcelona Creolizing Hannah Arendt Marilyn Nissim-Sabat, Neil Roberts, 2024-05-13 Creolizing Hannah Arendt is the first book to explore the implications of creolizing Hannah Arendt 1906-75 and thinking for action liberation freedom power democracy identity racism prejudice totalitarianism immigration judgment revolution decolonial politics the human and the modern traditions of Caribbean political thought Africana philosophy and existential phenomenology Contributors include Cristina Beltr n Roger Berkowitz Ang lica Maria Bernal Robert Eaglestone Stephen Nathan Haymes Paget Henry Thomas Meagher Dana Francisco Miranda Marilyn Nissim Sabat Niklas Plaetzer Neil Roberts **The Closure of Space in Roman Poetics** Victoria Rimell, 2015-06-05 An ambitious analysis of the Roman literary obsession with retreat and closed spaces in the context of expanding empire

**States of Violence** Austin Sarat, Jennifer L. Culbert, 2009-04-27 This book brings together scholarship on three different forms of state violence examining each for what it can tell us about the conditions under which states use violence and the significance of violence to our understanding of states This book calls into question the legitimacy of state uses of violence and mounts a sustained effort at interpretation sense making and critique It suggests that condemning the state's decisions to use lethal force is not a simple matter of abolishing the death penalty or to take another exemplary example of the killing state demanding that the state engage only in just publicly declared and justified wars pointing out that even such overt instances of lethal force are more elusive as targets of critique than one might think Indeed altering such decisions may do little to change the essential relationship of the state to violence Religion, Expression, and Patriotism in Russia Sanna Aitamurto, Kaarina Vladiv-Glover, Slobodanka Turoma, 2019-11-26 The 2010s saw an introduction of legislative acts about religion sexuality and culture in Russia which caused an uproar of protests They politicized areas of life commonly perceived as private and expected to be free of the state's control As a result political activism and radical grassroots movements engaged many Russians in controversies about religion and culture and polarized popular opinion in the capitals and regions alike This volume presents seven case studies which probe into the politics of religion and culture in today's Russia The contributions highlight the diversity of Russia's religious communities and cultural practices by analyzing Hasidic Jewish identities popular culture sponsored by the Orthodox Church literary mobilization of the National Bolshevik Party cinematic narratives of the Chechen wars militarization of political Orthodoxy and moral debates caused by opera as well as film productions The authors draw on a variety of theoretical approaches and methodologies including opinion surveys ethnological fieldwork narrative analysis Foucault's conceptualization of biopower catachrestic politics and sociological theories of desecularization The volume's contributors are Sanna Turoma Kaarina Aitamurto Tomi Huttunen Susan Ikonen Boris Knorre Irina Kotkina Jussi Lassila Andrey Makarychev Elena Ostrovskaya and Mikhail Suslov **Stolen Churches or**

**Bridges to Orthodoxy?** Vladimir Latinovic, Anastacia K. Wooden, 2021-01-15 Throughout their shared history Orthodox and Eastern Catholic Churches have lived through a very complex and sometimes tense relationship not only theologically but also politically In most cases such relationships remain to this day indeed in some cases the tension has increased In July 2019 scholars of both traditions gathered in Stuttgart Germany for an unprecedented conference devoted to exploring and overcoming the division between these churches This book the second in a two volume set of the essays presented at the conference explores the ecumenical and practical implications of the relationship between Orthodox and Eastern Catholic Churches Like the conference the volume brings together representatives of these Churches as well as theologians from different geographical contexts where tensions are the greatest The published essays represent the great achievements of the conference willingness to engage in dialogue general openness to new ideas and opportunities to address difficult questions and heal inherited wounds

*Law, Relationality and the Ethical Life* Tom Frost, 2021-08-30 This first book length study into the influence of Emmanuel Levinas on the thought and philosophy of Giorgio Agamben *Law Relationality and the Ethical Life* demonstrates how Agamben's immanent thought can be read as presenting a compelling albeit flawed alternative to Levinas's ethics of the Other The publication of the English translation of *The Use of Bodies* in 2016 ended Giorgio Agamben's 20 year multi volume *Homo Sacer* study Over this time Agamben's thought has greatly influenced scholarship in law the wider humanities and social sciences This book places Agamben's figure of form of life in relation to Levinasian understandings of alterity relationality and the law Considering how Agamben and Levinas craft their respective forms of embodied existence that is a fully formed human that can live an ethical life the book considers Agamben's attempt to move beyond Levinasian ethics through the liminal figures of the fetus and the patient in a persistent vegetative state These figures which Agamben uses as examples of bare life call into question the limits of Agamben's non relational use and form of existence As such it is argued they reveal the limitations of Agamben's own ethics whilst suggesting that his abandoned project can and must be taken further This book will be of interest to scholars researchers graduate students and anyone with an interest in the thought of Giorgio Agamben and Emmanuel Levinas in the fields of law philosophy the humanities and the social sciences

**The Discourse of Security** Malcolm N. MacDonald, Duncan Hunter, 2018-11-03 This book explores how language constructs the meaning and praxis of security in the 21st century Combining the latest critical theories in poststructuralist and political philosophy with discourse analysis techniques it uses corpus tools to investigate four collections of documents harvested from national and international security organisations This interdisciplinary approach provides insights into the ways in which discourse has been mobilised to construct a strategic response to major terrorist attacks and geo political events The authors identify the way in which it is used to realize tactics of governmentality and form security as a discipline This at once constructs a state of exception while also adhering to the principles of liberalism This insightful study will be of particular interest to students and scholars of subjects such as applied linguistics political science

security studies and international relations with additional relevance to other areas including law criminology sociology and economics

*The Ecology Politic* Anthony Burke, Stefanie Fishel, 2025-05-06 A compelling proposal for new international law and institutions to address the planetary crisis that improves biodiversity protection supports Indigenous peoples and prevents catastrophic climate change In *The Ecology Politic* Anthony Burke and Stefanie Fishel contend that the roots of our planetary crisis lie in the modern state in its destructive entanglement with capitalism and its colonial legacies of extraction and oppression This in turn has shaped global governance and international law as they continue to fail to curb global heating deforestation and extinction In a far reaching critique of the foundational political theory of the modern state the Body Politic the authors insist that nothing less than a radically different model of the polity an Ecology Politic is needed if we are to escape this impasse Burke and Fishel argue that the international rule of law enacts a sovereign ban of nature that appropriates nonhuman lives for profit and use while denying them political and legal standing We fail because we rely on the very institutions worldviews and systems that generated the crisis to solve it The authors reconsider political power agency scale and democracy in the Anthropocene and assert a biospheric ethic that values the entangled planetary structure of matter energy and life Further they argue for more than human beings to be represented in an ecological democracy that flows across borders In short they imagine a polity whose fundamental purpose is to protect planetary ecosystems and nurture interlocking systems of social and ecological justice

Agamben and Colonialism Marcelo Svirsky, 2012-05-11 This collection of essays evaluates Agamben's work from a postcolonial perspective Svirsky and Bignall assemble leading figures to explore the rich philosophical linkages and the political concerns shared by Agamben and postcolonial theory
