The Politics of Crime and Criminal Justice Erika Fairchild, Vincent J. Webb, 1985 The editors examine politics crime and criminal justice in the US against a background of attempts to re establish political accountability for the criminal justice process Most of the articles are based on original field research across a large number of jurisdictions and approaches Politics is here defined as the relations of power and influence that occur between those who are professionally involved in the criminal justice system and those who are part of the political apparatus

The Politics of Imprisonment Vanessa Barker, 2009-08-26 The attention devoted to the unprecedented levels of imprisonment in the United States obscure an obvious but understudied aspect of criminal justice there is no consistent punishment policy across the U S It is up to individual states to administer their criminal justice systems and the differences among them are vast For example while some states enforce mandatory minimum sentencing some even implementing harsh and degrading practices others rely on community sanctions What accounts for these differences The Politics of Imprisonment seeks to document and explain variation in American penal sanctioning drawing out the larger lessons for America's overreliance on imprisonment Grounding her study in a comparison of how California Washington and New York each developed distinctive penal regimes in the late 1960s and early 1970s a critical period in the history of crime control policy and a time of unsettling social change Vanessa Barker concretely demonstrates that subtle but crucial differences in political institutions democratic traditions and social trust shape the way American states punish offenders Barker argues that the apparent link between public participation punitiveness and harsh justice is not universal but dependent upon the varying institutional contexts and patterns of civic engagement within the U S and across liberal democracies A bracing examination of the relationship between punishment and democracy The Politics of Imprisonment not only suggests that increased public participation in the political process can support and sustain less coercive penal regimes but also warns that it is precisely a lack of civic engagement that may underpin mass incarceration in the United States
