Performative Contradiction and the Romanian Revolution Jolan Bogdan, 2017-03-29 The Romanian Revolution of 1989 ended 42 years of Communist rule It was the bloodiest revolution in a Warsaw Pact country culminating in the overthrow and execution of Nicolae Ceaușescu However there was no major democratic reform and power remained in the hands of key figures from the old regime This has led many theorists to question the authenticity of the entire revolution *Performative Contradiction and the Romanian Revolution* focuses in on the circumstances which led to these accusations It argues that the notion of an authentic revolution as a conceptual paradigm is neither a sufficient appropriate nor useful tool for an analysis of the events in Romania Engaging with the work of theorists including Stiegler Agamben Baudrillard Badiou Spinoza and

Derrida it argues that performative contradiction is a more useful theoretical model for exploring this event Applying the concept to specific cases within the revolution the book demonstrates the power of performative contradiction as an analytic tool

*Reiner Schürmann and the Poetics of Politics* Christopher Long, 2018 Reiner Schürmann's thinking is as he himself would say riveted to a monstrous site It remains focused on and situated between natality and mortality the ultimate traits that condition human life This book traces the contours of Schürmann's thinking in his magnum opus *BROKEN HEGEMONIES* in order to uncover the possibility of a politics that resists the hegemonic tendency to posit principles that set the world and our relationships with one another into violent order Long's book follows in the footsteps of Oedipus who in abject recognition of his finitude stumbles upon the possibility of another politics with the help of his daughters at Colonus The path toward this other collaboratively created and thus poetic politics begins with an encounter with Aristotle a thinker whom Schürmann most frequently read as the founder of hegemonic metaphysics but whose thinking reveals itself as alive to beginnings in ways that open new possibility for human community This return to beginnings leads in turn to Plotinus who Schürmann reads as marking the destitution of the ancient hegemony of the Parmenidean principle of the One By bringing Schürmann's innovative and compelling reading of René Char's poem *The Shark and the Gull* into dialogue with Plotinus we come to encounter the power of symbols to transform reality and open us to new constellations of possible community In Plotinus where we expected to encounter an end we experience a new way of

thinking natality in terms of what comes to language in Char as the nuptial Having thus been awakened to the power of symbols we are prepared to experience how in Kant being itself comes to expression as plurivocal in a way that reveals just how pathologically delusional it is to attempt to deploy univocal principles in a plurivocal world This opens us to what Schurmann calls the singularization to come a formulation that gestures to a mode of comportment at home in the ravaged site between natality and mortality This then returns us to Oedipus at Colonus but not to him alone Rather it points to the relationship that emerges for a time between Antigone Ismene and Oedipus as they navigate a way between their exile from Thebes and Oedipus s final resting place near Athens Here having been awakened to the power of a poetic politics we attend to three symbolic moments of touching between Oedipus and his daughters through which we might discern something of the new possibilities a poetic politics opens for us if we settle into the ravaged site that conditions our existence together

**Susan Glaspell's Poetics and Politics of Rebellion** Emeline Jouve, 2017-07-01 A pioneer of American modern drama and founding member of the Provincetown Players Susan Glaspell 1876 1948 wrote plays of a kind that Robert Brustein defines as a drama of revolt an expression of the dramatists discontent with the prevailing social political and artistic order Her works display her determination to put an end to the alienating norms that in her eyes and those of her bohemian peers were stifling American society This determination both to denounce infringements on individual rights and to reform American life through the theatre shapes the political dimension of her drama of revolt Analyzing plays from the early Trifles 1916 through Springs Eternal 1943 and the undated incomplete Wings author Emeline Jouve illustrates the way that Glaspell s dramas addressed issues of sexism the impact of World War I on American values and the relationship between individuals and their communities among other concerns Jouve argues that Glaspell turns the playhouse into a courthouse putting the hypocrisy of American democracy on trial In staging rebels fighting for their rights in fictional worlds that reflect her audience s extradiegetic reality she explores the strategies available to individuals to free themselves from oppression Her works envisage a better future for both her fictive insurgents and her spectators whom she encourages to consider which modes of revolt are appropriate and effective for improving the society they live in The playwright defines social reform in terms of collaboration which she views as an alternative to the dominant alienating social and political structures Not simply accusing but proposing solutions in her plays she wrote dramas that enacted a positive revolt A must for students of Glaspell and her contemporaries as well as scholars of American theatre and literature of the first half of the twentieth century

Morgenstern,2010-11-01 *Power, Politics, and the African Condition* Ali Al'Amin Mazrui,2004 *Power Politics and the African Condition* is the third volume of *The Collected Essays of Ali A Mazrui* which will provide readers with a broad spectrum of Ali A Mazrui's scholarly writings. The third volume is centered on issues of power and politics at the nexus of Africa's domestic affairs and its international concepts about the disequilibrium of power in the international system and the problems that Africa has confronted globally because of it. Mazrui focuses the reader's attention on the impact that the colonial legacy and African tradition had on state formation, leadership, Africa's political economy, violence and conflict resolution while presenting some of his most interesting and even controversial ideas for building Pax Africana. Spanning nearly forty years, Mazrui's essays are classic and contemporary statements on the diagnosis and treatment of what he called *The African Condition*.

*New Directions in Judicial Politics* Kevin T. McGuire,2012-03-15 With its often vague legal concepts and institutions that operate according to unfamiliar procedures, judicial decision making is in many respects a highly enigmatic process. *New Directions in Judicial Politics* seeks to demystify the courts, offering readers the insights of empirical research to address questions that are of genuine interest to students. In addition to presenting a set of conclusions about the way in which courts operate, this book also models the craft of political research, illustrating how one can account for a variety of factors that might affect the courts and how they operate. The renowned scholars and teachers in this volume invite critical thinking not only about the substance of law and courts in America but also about the ways in which we study judicial politics.

*The Economics of Transparency in Politics* Gianluigi Galeotti, Ronald Wintrobe,2017-05-15 The purpose of this book is to formulate economic models of the advantages and costs of transparency in various areas of public sector activity and to assess what level of obfuscation in politics is rational. The chapters are arranged in four parts. Part 1 is concerned with the manifestations of transparency and obfuscation in domestic democratic settings, whilst Part 2 deals with the same realities but in an international context. Part 3 looks at corruption and Part 4 considers some of the implications of transparency and obfuscation for the working of governments and the formulation of public policies.

*Islamophobia and the Politics of Empire* Deepa Kumar,2021-09-07 A critically acclaimed analysis of anti-Muslim racism from the sixteenth to the twenty-first centuries in a fully revised and expanded second edition. In this incisive account, leading scholar of Islamophobia, Deepa Kumar traces the history of anti-Muslim racism from the early modern era to the War on Terror. Importantly, Kumar contends that Islamophobia is best understood as racism rather than as religious intolerance. An innovative analysis of anti-Muslim racism and empire, *Islamophobia and the Politics of Empire* argues that empire creates the conditions for anti-Muslim racism, which in turn sustains empire. This book, now updated to include the end of the Trump's presidency, offers a clear and succinct explanation of how Islamophobia functions in the United States, both as a set of coercive policies and as a body of ideas that take various forms: liberal, conservative, and rightwing. The matrix of anti-Muslim racism charts how various institutions—the media, think tanks, the foreign policy establishment, the university, the national security apparatus, and the legal sphere—produce and

circulate this particular form of bigotry Anti Muslim racism not only has horrific consequences for people in Muslim majority countries who become the targets of an endless War on Terror but for Muslims and those who look Muslim in the West as well With a new foreword by Nadine Naber
