Politics Of Field Research Sociology Beyond Enlightenment:

The Politics of Field Research Jaber F Gubrium, David Silverman, 1989-09 What can or should social research offer to funding agencies to social groups to the researcher and to the subjects of the research How does research in the field differ from other forms of social research In *The Politics of Field Research* an international team of distinguished researchers draw on their extensive fieldwork experience to address these and other fundamental questions They explore the political and philosophical context of social field research in general and examine its role and influence in such fields of study as advertising service policy and management Moreover the contributors investigate the ways in which social research is used in the field through detailed examples including community care therapeutic communities and green political movements *The Politics of Field Research* will interest those concerned with social theory and qualitative methods in a wide range of disciplines There is much of interest in Strong and Dingwall's chapter It presents a thoughtful analysis of the present state of sociology Papadakis provides a very interesting discussion of different modes of involvement of researchers with new social movements and the implications of these for the various models of the relationship between researcher and research that have been offered in the literature This is a book that raises important issues and introduces some interesting ideas about the current crisis facing sociology

Reviewing Sociology The editors have done a good job in getting their contributors to write in terms of a consistent set of themes so that there is less of the divergence that characterizes many collections There is also little doubt that the book as a whole raises many often uncomfortable issues about research practice and relevance

Sociology I recommend this volume to any reader interested in the nature and use of social scientific research in western society I found the analytic level of individual articles to be consistently high the writing clear and the eclectic subject matter often absorbing The authors concern with qualitative ethnography their use of case materials and their consistent emphasis on reflexive inquiry particularly on the quality of power relations which define limit or shape ethnographic action in a post enlightenment era enhances the relevance of the collection for all social scientists in general and anthropologists in particular

NEXUS Canadian Journal of Anthropology *Qualitative Research in Social Work* Ian Shaw, Nick Gould, 2001-10-04 A really fine book an impressive work that adds much to the development of the use of qualitative methodology in social work research

William J Reid University at Albany The back cover of the book proclaims that *Qualitative Research in Social Work* will be essential reading for all students practitioners and researchers undertaking social work research That just about sums it up for me

British Journal of Social Work This book is a significant milestone in the development of social work research It is characterized by an unparalleled command of the field of qualitative research in social work and by a commitment to an understanding of the demands and potential of day to day social work practice

Mike Fisher Director of Research National Institute for Social Research *Qualitative Research in Social Work* edited by Ian Shaw and Nick Gould provides a state of the art exposition and analysis of qualitative inquiry in relation to social work The book

has an unusual degree of coherence for one with several authors The five chapters by the editors parts one and three do an exceptional job of providing the necessary background information and setting the context for the six application chapters and of highlighting and discussing the issues raised in those chapters The editors are respected scholars well versed in the theory and practice of qualitative research Similarly the contributing authors represent both considerable experience in this field and a diversity of interests This combination makes *Qualitative Research in Social Work* an excellent text for students practitioners and researchers alike It is a benchmark for social work progress in this area and points the way for the continued development of qualitative inquiry Professor Stanley L Witkin Department of Social Work University of Vermont

There is a clear need for a book which treats qualitative research as a substantive theme within social work setting epistemological and methodological issues in a context whereby the agenda is set by and is relevant to social work *Qualitative Research in Social Work* is just such a book and will be immensely useful for students practitioners and researchers interested in and undertaking social work research In the introductory chapters the co authors set qualitative research within a context of social work developments and problems The central section provides additional topicality and directness through specially commissioned chapters from leading figures in this field each covering key qualitative methods and relating them to social work settings and the final section which reviews qualitative research in social work and aims to exemplify ways in which social work thought and practice can be advanced through research

Meddling with Mythology Rosaline S. Barbour, Guro Huby, 2005-08-04 *Meddling with Mythology* examines the role of research in the construction of modern mythology or folklore surrounding HIV AIDS Researchers from a variety of disciplines reflect on the insights gained and the impact of their work in light of the initial panic surrounding the prediction of an AIDS epidemic Issues discussed include power representation the politics of text understanding research relationships impact of research on researchers and responders potential for change *Meddling with Mythology* takes the reader from the theoretical to the practicable and from the public to the personal in the representations of AIDS The issues raised here also have great significance for those concerned with the social construction of knowledge theory building and the research process more generally

Trapped in Poverty? James Davidson, Bill Jordan, Helen Kay, Marcus Redley, 2013-09-27 How do people on low incomes make decisions about employment and benefit claims Interview material and economic analysis combine with new theories of the relationship between moral and economic reasoning

Experiencing Fieldwork William Shaffir, Robert A. Stebbins, 1991 How do you gain entry into a research setting What tricks are there to learning the rules of the community without alienating the people you came to study How are good relations maintained with informants What happens after you leave the field In *Experiencing Fieldwork* top ethnographers address these and other questions bring fieldwork alive for the reader and provide invaluable advice for those entering the field

Evaluating in Practice Ian Shaw, 2018-10-24 Evaluation is not a self contained phase of social work practice one more dimension of the process but a dimension of every phase In this fully

rewritten and updated second edition of his groundbreaking text *Evaluating in Practice* Ian Shaw demonstrates how evaluation and inquiry are just as much practice tasks as planning intervention and review By demonstrating that good evaluating in practice helps sustain a commitment to evidence understanding and justice Shaw shows that for this to be achieved evaluating in practice must permeate every aspect of social work He 1 Develops a framework for embedding evaluation and inquiry as a dimension of good practice in social work 2 Demonstrates the central significance of a methodological practice in social work that adapts infuses and translates social research methods as a dimension of the different aspects of social work viz assessment planning intervention review and outcomes 3 Facilitates good practice by exemplifying the argument through extensive worked examples and exercises This book has much to say about the demanding skills that are necessary to achieve this shaping of practice and is a must read for any social work student or practitioner

Keywords in Qualitative Methods Michael Bloor, Fiona Wood, 2006-07-21 An essential companion for students across the social and health sciences this text provides a wide ranging coverage of qualitative methods complemented by extended illustration from the array of academic disciplines in which qualitative research is found and employed Written in a lively and reader friendly style the guide covers a comprehensive range of topics including a concise definition of the method a description of distinctive features examples to convey the flavour of a technique or principle a critical and reflective evaluation of the method or approach under consideration cross references to associated concepts within the dictionary a list of key readings

The Sage Handbook of Organizational Research Methods Professor David Buchanan, Professor Alan Bryman, 2009-05-01 The SAGE Handbook of Organizational Research Methods provides a rich resource for organizational researchers locating the technical aspects of organizational research in the wider context of the relevant personal epistemological theoretical historical ethical and political issues David Buchanan and Alan Bryman have gathered together many of the world's leading writers on theory method and analysis in organizational research and have made this the most comprehensive and cutting edge volume in this ever growing field

Postmodern and Poststructural Approaches to Nursing Research Julianne Cheek, 1999-11-18 In the first three chapters the author examines definitions of postmodern and postcultural approaches and ways in which they can be used to influence and inform us about health care Chapters 4 and 5 look at the practical aspects of proposing and carrying out research projects using these approaches Cheek concludes by reviewing the intellectual journey required in coming to grips with the meaning and application of these approaches and she suggests ways in which the reader can continue to grow in his or her pursuit

BOOK JACKET Constructing and Reconstructing Childhood Allison James, Alan Prout, 2015-05-08 When the first edition of this seminal work appeared in 1990 the sociology of childhood was only just beginning to emerge as a distinct sub discipline Drawing together strands of existing sociological writing about childhood and shaping them into a new paradigm the original edition of this Routledge Classic offered a potent blend of ideas that informed even inspired many empirical studies of

children's lives because it provided a unique lens through which to think about childhood. Featuring a collection of articles which summarised the developments in the study of childhood across the social sciences including history, psychology, sociology, anthropology, feminist and developmental studies, scholars and professionals from developed and developing countries world wide shared their knowledge of having worked and of working with children. Now with a new introduction from the editors to contextualise it into the 21st century, this truly ground breaking text which helped establish childhood studies as a distinctive field of enquiry is being republished. **Reflexive Ethnography** Charlotte Aull Davies, 2012-08-06

Reflexive Ethnography is a unique guide to ethnographic research for students of anthropology and related disciplines. It provides practical and comprehensive guidance to ethnographic research methods but also encourages students to develop a critical understanding of the philosophical basis of ethnographic authority. Davies examines why reflexivity at both personal and broader cultural levels should be integrated into ethnographic research and discusses how this can be accomplished for a variety of research methods. This revised and updated second edition includes a new chapter on internet based research and interethnography, chapters on selection of topics and methods, data collection and analysis, and ethics and politics of research, practical advice on writing up ethnographic study, new and updated research examples. Postmodernist relativism can lead to an over emphasis on reflexivity that denies the possibility of social research. *Reflexive Ethnography* utilises postmodernist insights, incorporation of different standpoints, exposure of the intellectual tyranny of meta narratives but proposes that reflexive ethnographic research be undertaken from a realist perspective. *Reflexive Ethnography* will help students to use and understand ethnographic research practices that fully incorporate reflexivity without abandoning claims to develop valid knowledge of social reality. *Interpreting Qualitative Data* David Silverman, 2024-01-25

In his signature pragmatic and friendly style, David Silverman acts as your stand in supervisor in the seventh edition of this book, taking you step by step through different methods for making sense of qualitative data. Whether you are interested in analysing visual images, interviews, focus groups or online data, this book provides a clear framework for using qualitative data to answer your research questions. The book provides a strong grounding in research design principles so you can embed best practice into your research project. Diverse real world examples so you can see how principles are applied in practice. Coverage of new developments in qualitative research including working with online data. If you are new to qualitative research or conducting your first research project in the social sciences, this book gives you the practical grounding in qualitative methods you need to get started. *Worlds of Health* Kate Reed, 2003-03-30

In this era of globalization we are faced with a plethora of health goods and services on the local and global marketplace. Faced with such variety and availability, how do we choose? This volume examines the influence of ethnicity, gender and generation on our health choices, focusing in particular on the choices of British Asian mothers. Asian women who are born and raised in Britain but are members of a globally dispersed ethnic group. Other factors such as family, religion, community and space are also taken into account by the author who uses original

empirical research to explore the interconnections between the different factors and the ways in which these women combine western and nonwestern health discourses in their daily lives **Things As They Are** Michael Jackson, 1996-08-22

The real beauty of this book is that the thinking does not stop deep in the thickets of philosophic references Instead true to the spirit of phenomenology we are provided with provocative accounts of how such thinking flows in contemporary anthropological practice XCP Cross Cultural Poetics In this timely collection thirteen contemporary ethnographers demonstrate the importance of phenomenological and existential ideas for anthropology In emphasizing the link between the empirical and the experiential these ethnographers also explore the relationship between phenomenology and other theories of the lifeworld such as existentialism radical empiricism and critical theory **Constructing Social Work Practices** Arja Jokinen, 2018-12-17 First published in 1999 Jokinen Juhila and Poso comprises both theoretical reflexive articles and articles based on empirical social constructionist studies It provokes new ways of looking at social work practices as interpretative and interactive processes In addition to this theoretical and methodological contribution the volume provides empirically based material on the practical implications of an alliance between social work and social constructionism *Advertising, Commercial Spaces and the Urban* Anne M. Cronin, 2010-07-28 Providing a detailed account of contemporary outdoor advertising and its relationship with urban space this book examines what the outdoor advertising industry tells us about the commercial production of urban space what industry practices reveal about contemporary capitalism and how ads and billboard structures interface with spaces of the city **Constructions of Health and Illness** Kaisa Kauppinen, 2017-11-30 This volume provides a comparative European overview focusing upon the main areas of social construction as it relates to health and illness This includes an emphasis upon lay beliefs and the different way understandings of health can impact upon health behaviour The contributors also examine health knowledge and the interaction and comparison between lay and professional knowledge systems The book will be of particular interest to those studying researching and working in the fields of health and the sociology of health and the body Culture and Processes of Adult Learning Richard Edwards, Ann Hanson, Mary Thorpe, 2013-12-16 The authors provide a variety of perspectives on the conceptualisation of adult learning drawing on sociology psychology adult education and applied research into how adults experience learning Bringing together a number of major contributions to current debates about what learning during adulthood is for what motivates learning and how best it might be developed the authors address a range of significant issues What should be the context of learning programmed for adults and who should decide What are the implications in general and for women in particular of the current emphasis on learning for work at work How do adults learn and how is learning best facilitated How might learning be used to empower individuals communities and organisations **Handbook of Constructionist Research** James A. Holstein, Jaber F. Gubrium, 2013-10-21 Constructionism has become one of the most popular research approaches in the social sciences But until now little attention has been given to the conceptual and methodological underpinnings of the

constructionist stance and the remarkable diversity within the field This cutting edge handbook brings together a dazzling array of scholars to review the foundations of constructionist research how it is put into practice in multiple disciplines and where it may be headed in the future The volume critically examines the analytic frameworks strategies of inquiry and methodological choices that together form the mosaic of contemporary constructionism making it an authoritative reference for anyone interested in conducting research in a constructionist vein

Routledge Revivals: Towards a New Theory of Organizations (1994) John Hassard, Martin Parker, 2016-09-19 First published in 1994 the essays collected in this book explore the impact and current status of the ideas put forth in David Silverman's *The Theory of Organizations* and how they relate to future directions in organization theory After opening with a chapter by Silverman himself the subsequent chapters investigate key issues in the study of organizations including structure and agency the politics of organization theory and the meanings of post positivist organizational analysis Contemporaneous debates on postmodernism the emotions gender and structuration are discussed in the context of the development of organizational theory in the preceding twenty five years providing insights into the continuities within organizational theory and provoking thought about future directions
