LAURA GOMEZ-MERA

Politics Of Power In Latin America

**Harry Vanden, Gary Prevost, Professor
and Chair of Political Science Gary
Prevost**

Politics Of Power In Latin America:

Politics of Power in Latin America Carl Flaningam, 1987 **Political Power in Latin America: Seven Confrontations** Richard R. Fagen, Wayne A. Cornelius, 1970 Trata a transfer ncia de poder na Am rica Latina ap s as elei es presidenciais no Chile 1964 Venezuela 1963 Argentina 1962 Brasil 1964 Rep blica Dominicana 1965 e o confronto de poderes no M xico 1966 e Cuba Politics of Latin America Harry E. Vanden, Gary Prevost, 2015 Politics of Latin America Fifth Edition explores both the evolution and the current state of the political scene in Latin America This text demonstrates a nuanced sensitivity to the use and abuse of power and the importance of social conditions gender race globalization and political economy throughout Latin America The first part of the text is composed of thematic chapters that outline the region s geographic setting history economics society gender race and religion setting the stage for a more detailed analysis of the politics democratization political culture political movements and revolution in Latin America The second part of the book consists of carefully constructed case studies of ten representative Latin American nations Guatemala Mexico Cuba Brazil Argentina Chile Venezuela Colombia Nicaragua and Bolivia Each case study traces the historical and political development of key actors and institutions analyzing contemporary power configurations *Presidential Power in Latin America* Dan Berbecel, 2021-12-23 What explains variance in presidential power between countries In *Presidential Power in Latin America* Dan Berbecel provides a general systematic theory for explaining presidential power in practice as opposed to presidential power in theory Using expert survey data from *Varieties of Democracy V Dem* alongside interviews with high level figures in politics the judiciary the public administration NGOs and academia in Argentina and Chile Berbecel argues that constitutional presidential power formal power is a very poor predictor of presidential power in practice informal power Given the poor predictive value of formal rules he provides an explanation why hyperpresidentialism emerges in some countries but not in others Berbecel attributes the root causes of hyperpresidentialism to three independent variables the strength of state institutions the size of the president s party in congress and whether or not the country has a history of economic crises which together determine how likely it is that a president will be able to concentrate power *Presidential Power in Latin America* will be of key interest to scholars and students of executive politics Latin American politics and more broadly comparative politics Political Power and Women's Representation in Latin America Leslie A. Schwindt-Bayer, 2010-09-30 The number of women elected to Latin American legislatures has grown significantly over the past thirty years This increase in the number of women elected to national office is due in large part to gender friendly electoral rules such as gender quotas and proportional electoral systems and it has in turn fostered constituent support for representative democracy Still this book argues that women are gaining political voice and bringing women s issues to state agendas but they are not gaining political power Women are marginalized by the male majority in office and relegated to the least powerful committees and leadership posts hindering progress toward real political equality In *Political Power and*

Women's Representation in Latin America Leslie Schwindt Bayer examines the causes and consequences of women's representation in Latin America. She does so by asking a series of politically relevant and theoretically challenging questions including why the numbers of women in office have increased in some countries but vary across others, what the presence of women in office means for the way representatives legislate, and what consequences the election of women bears for representative democracy more generally. Schwindt Bayer articulates a comprehensive theory of women's representation that analyzes and connects trends in relation to four facets of political representation: formal, descriptive, substantive, and symbolic. She then tests this theory empirically using aggregate data from all eighteen Latin American democracies and original fieldwork in Argentina, Colombia, and Costa Rica. Ultimately, this book communicates the complex and often incomplete nature of women's political representation in Latin America.

Power, Politics, And Pentecostals In Latin America Edward L. Cleary, 2018-02-07 Today over forty million Latin Americans classify themselves as Protestant, of which the overwhelming majority belong to some form of Pentecostalism. The rapid dissemination of Pentecostal beliefs has produced vibrant alternatives to traditional dominant culture and changed relations within the family, locality, and workplace. This volume introduces broad issues in the Pentecostal movement including gender relations, political power, and organization, and inter-Pentecostal and ecumenical relations. These themes are then examined more specifically in the country case studies, which address the historical foundations of the Pentecostal movement, patterns of, and explanation for its growth, and the consequences of its expanding presence, including increased political influence.

Liberals, Politics, and Power Vincent C. Peloso, Barbara A. Tenenbaum, 1996 Looking at the Latin American liberal project during the century of postindependence, this collection of original essays draws attention to an underappreciated dilemma confronting liberals: idealistic visions and fiscal restraints. *Liberals, Politics, and Power* focuses on the inventiveness of nineteenth-century Latin Americans who applied liberal ideology to the founding and maintenance of new states. The impact of liberalism in Latin America, the contributors show, is best understood against the larger backdrop of struggles that pitted regional demands against the pressures of foreign finance, a powerful church against a decentralized state, and aristocratic desire to retain privilege against rising demands for social mobility. Moving beyond the traditional historiographical division between Eurocentric and dependency theories, the essays attempt to account for a uniquely Latin American liberal ideology and politics by exploring the political dynamics of such countries as Mexico, Colombia, Argentina, and Peru. Contributors discuss liberal efforts to build a viable legal order through elections and to implement a means of public finance that could fund the state's operations. Essays that span the entire century address issues such as the emergence of caudillos, the role of artisans, and popular participation in elections in light of fiscal and other impediments to progress. In their introduction, Vincent C. Peloso and Barbara A. Tenenbaum provide a hemispheric overview of liberalism that illustrates its similarities across Latin America. By exploring the liberal constitutional and economic order lying beneath apparently dictatorial states, this pathbreaking volume underlines

the importance of fiscal policy in the fashioning of state power Liberals Politics and Power serves not only as a guide to the liberal principles and practices that governed state formation in nineteenth century Latin America but also as a means to evaluate the complex relationship between ideas and practical politics **Democracy Under Siege** Augusto Varas, 1989-07-07 Although the military has historically played a pivotal role in Latin American politics and society until now little attention has been paid to the complex set of civilian military relations in each country This collection of essays the product of a long term research program organized by a group of prominent Latin American scholars compares current linkages among the armed forces and local social and political structures and institutions Within each nation studied the contributing author found increasing military autonomy vis a vis the state They show that this institutional autonomy has allowed the military to develop as independent political entities within the various countries a process that seems to be common to all Latin American societies Their research also demonstrates how the military diversifies itself when acquiring higher degrees of institutional autonomy Collectively the contributors contend that although civilian democratic forces will play a much larger role in political decisionmaking in this decade as compared to the last it is evident that armed forces will retain a considerable share of political power Regardless of the institutional arrangement the military will continue to exercise significant veto power over civilian political forces The independent military that has emerged is a new variable that must be taken into account in future analyses of Latin America s secular political crisis By compiling the first complete analysis of Latin American military forces and their role in contemporary domestic politics editor Augusto Varas has made a significant contribution to the study of Latin American politics This first examination of the role of the armed forces during a period of relative political stability will be welcomed by historians and political scientists alike **Democracy, Power, and Intervention in Latin American Political Life** Kenneth F. Johnson, Miles W. Williams, Miles Williams, 1978 **Politics of Latin America** Harry Vanden, Gary Prevost, Professor and Chair of Political Science Gary Prevost, 2017-06-08 Latin America's Radical Left Steve Ellner, 2014-03-24 This timely book explores the unique challenges facing the left in Latin America today The contributors offer clear and comprehensive assessments of the difficult conditions and conflicting forces that have brought to power the current leftist regimes in Latin American and the Caribbean and are shaping their development Avoiding the widely accepted but simplistic dichotomy of good and bad left or democratic and antidemocratic left the book first sets the theoretical and historical context for understanding the rise of the left in the region It then provides case studies of the radical left in power in Venezuela Bolivia and Ecuador and its influence in Nicaragua El Salvador and Cuba Thematic chapters consider social and labor movements and debates over problems arising from the democratic transition to socialism The book points to concrete circumstances in which theoretical issues related to reform and change have played out in nations where the left is in power These include prioritization of social over economic objectives the role of the state in the democratic road to socialism and ecological as opposed to developmentalist strategies Finally the book

examines the opposition to radical governments in power coming not only from the right but also from movements to their left With its balanced and thorough assessment this study will provide readers with a deep and nuanced understanding of the complexity of the political economic and sociocultural reality of contemporary Latin America and the Caribbean

Latin America and the Caribbean United States. Department of the Army, 1975

The Right in Latin America Barry Cannon, 2016-04-14 Most current analysis on Latin American politics has been directed at examining the shift to the left in the region Very little attention however has been paid to the reactions of the right to this phenomenon What kind of discursive policy and strategic responses have emerged among the right in Latin America as a result of this historic turn to the left Have there been any shifts in attitudes to inequality and poverty as a result of the successes of the left in those areas How has the right responded strategically to regain the political initiative from the left And what implications might such responses have for democracy in the region *The Right in Latin America* seeks to provide answers to these questions while helping to fill a gap in the literature on contemporary Latin American politics Unlike previous studies Barry Cannon s book does not simply concentrate on party political responses to the contemporary challenges for the right in the region Rather he uses a wider more comprehensive theoretical framework grounded in political sociology in recognition of

the deep social roots of the right among Latin America's elites in a region known for its startling inequalities Using Michael Mann's pioneering work on power he shows how elite dominance in the key areas of the economy ideology the military and in transnational relations has had a profound influence on the political strategies of the Latin American right He shows how left governments especially the more radical ones have threatened elite power in these areas influencing right wing strategic responses as a result These responses he persuasively argues can vary from elections through street protests and media campaigns to military coups depending on the level of perceived threat felt by elites from the left In this way Cannon uncovers the dialectical nature of the left right relationship in contemporary Latin American politics while simultaneously providing pointers as to how the left can respond to the challenge of the right's resurgence in the current context of left retrenchment Cannon's multi faceted inter disciplinary approach including original research among right leaning actors in the region makes the book an essential reference not only for those interested in the contemporary Latin American right but for anyone interested in the region's politics at a critical juncture in its history

Capital, Power, and Inequality in Latin America and the Caribbean Richard L. Harris, Jorge Nef, 2008-01-28 For an additional chapter on health and human

security [Click Here](#) For suggested resources for each chapter in the book [Click Here](#) For additional resources on ecological and social issues [Click Here](#) For additional resources on indigenous peoples [Click Here](#) Comprehensive and interdisciplinary this thoroughly updated and revised second edition is an engaging critical analysis of the major political economic social and ecological conditions in Latin America and the Caribbean Genuinely regional in scope this textbook examines the hemispheric and global context of these conditions as well as the relations among Latin American and Caribbean states and their relations with the United States Expert contributors describe and analyze the economies and trading relations politics and state policies social inequalities and social injustices indigenous communities gender relations influence of religion wide array of social movements and social ecology of the societies in this important region of the world Harris and Nef have assembled a valuable resource for undergraduate and graduate courses and all readers concerned with understanding the past present and future development of contemporary Latin America the Caribbean and the Americas as a whole

US Power in Latin America Rubrick Biegon, 2017-04-21 An original account of contemporary US Latin American relations this book utilises neo Gramscian and historical materialist approaches to build a novel conceptual framework for analysing US hegemony extending critical theory in new and exciting directions It disaggregates US power into distinct forms structural coercive institutional and ideological to convincingly argue that the United States is remaking its hegemony in the Western hemisphere The first decade of the new century saw the ascendancy of leftist and centre left forces in Latin America The emergence and consolidation of the New Latin Left signalled a profound challenge to the long standing hegemony of the United States in the region This book

details the ways in which US foreign policy responded defining hegemony as a dialectical relationship patterned by multiple and overlapping forms of power it situates US policy in the context of the Post Washington Consensus Making considerable use of confidential diplomatic cables published by Wikileaks it examines the interplay of different facets of US hegemony which are inextricably bound up in the neoliberalisation of the region s political economy This book brings clarity to what remains an open and contested process of hegemonic reconstitution and promises to be of interest to scholars working in a number of overlapping subject areas including International Relations IR US foreign policy and Latin American studies

Latin American Politics and Society Gerardo L. Munck, Juan Pablo Luna, 2022-06-09 Taking a fresh thematic approach to politics and society in Latin America this introductory textbook analyzes the region s past and present in an accessible and engaging style well suited to undergraduate students The book provides historical insights into modern states and critical issues they are facing with insightful analyses that are supported by empirical data maps and timelines Drawing upon cutting edge research the text considers critical topics relevant to all countries within the region such as the expansion of democracy and citizenship rights and responses to human rights abuses corruption and violence Each richly illustrated chapter contains a compelling and cohesive narrative followed by thought provoking questions and further reading suggestions making this text a vital resource for anyone encountering the complexities of Latin American politics for the first time in their studies

Religion and Political Power Gustavo Benavides, Martin W. Daly, 1989-07-28 This book explores the interaction between two of the most charged topics in the modern world religion and politics It shows the inextricable connection between religious attitudes and representations and political activities After an introductory chapter explores theoretically the religious articulations of political power the authors examine the role played by religion in the current political situation in several countries Approaching these cases as anthropologists historians sociologists and political scientists the authors make visible the dialectical relationship between religion and the pursuit of political power on the one hand the political significance of religious choices and on the other the almost unavoidable need to articulate in religious terms a group s attempt to acquire maintain or expand political power

Political Economy of Power Sharing in Developing Countries Akietuwopiribie Opuene Hart, 2025-08-07 Political Economy of Power Sharing in Developing Countries is an in depth examination of factors that trigger the clamor for power sharing zoning and rotation in mostly developing countries These provocations include geographical ethnic and religious identity factors that can influence the political process in varying degrees from country to country The impact goes a long way in determining the stability and instability of the political process in various countries The reasons for these differences and the impacts are a combination of the endogenous variables in the first instance which are the primary prompters Other elements which are the exogenous factors are secondary prompters When these converge they produce a peculiar impact in a given society based on the characteristic variables and the resulting outcome The new paradigm shifts in the agitation in developing countries is demonstrated by an elitist

instrument of marginalization and self aggrandizement The masses are hoodwinked sensitized and manipulated through primal sentiment to support the elites in acquiring political power which in turn enables the acquisition of economic power

Politics and Social Change in Latin America Howard J. Wiarda, 1974

Politics Of Power In Latin America Introduction

In the digital age, access to information has become easier than ever before. The ability to download Politics Of Power In Latin America has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Politics Of Power In Latin America has opened up a world of possibilities. Downloading Politics Of Power In Latin America provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Politics Of Power In Latin America has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Politics Of Power In Latin America. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Politics Of Power In Latin America. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Politics Of Power In Latin America, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Politics Of Power In Latin America has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security

when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Politics Of Power In Latin America Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Politics Of Power In Latin America is one of the best book in our library for free trial. We provide copy of Politics Of Power In Latin America in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Politics Of Power In Latin America. Where to download Politics Of Power In Latin America online for free? Are you looking for Politics Of Power In Latin America PDF? This is definitely going to save you time and cash in something you should think about.
