Cohen, 2019-07-26 Originally published in 1992 This text is a work from a series entitled Bureaucracies Public Administration and Public Policy The Politics of Telecommunication regulation The States and the Divestiture of AT T is an example of high quality policy analysis conducted at state level It substitutes for simple theories of public policy more complex and interesting explanations and relies on massive and time consuming data gathering that gives careful attention to measurement issues providing a sophisticated empirical analysis to evaluate the utility of public policy theories

The Social Logic of Politics

Alan S. Zuckerman, 2005 Re establishes the connection between social life and political behavior

Political Conflict and

Political Preferences Claudia Landwehr, 2009-04-01 What is the effect of deliberation on political actors and when can we expect it to be successful Are mutual understanding and consensus realistic results of political decision making processes or is compromise the most we can hope for This book addresses what appear to be blind spots in theories of deliberative democracy the conceptual and empirical relationship between communication and political preferences and the institutional preconditions for preference change and coordination It proposes a model of preference transformation through communication and develops a typology of modes of political interaction that distinguishes discussion deliberation debate and bargaining This serves as a framework for the analysis of a fundamental and highly polarising conflict the German decision over the import of embryonic stem cells Analysis of communicative interaction in different forums shows how a well justified and widely accepted compromise was achieved in a conflict that had appeared irresolvable in moral terms and irreducible in terms of interest

Citizens, Politics and Social Communication R. Robert Huckfeldt, John

Sprague, 1995-01-27 Democratic politics is a collective enterprise not simply because individual votes are counted to determine winners but more fundamentally because the individual exercise of citizenship is an interdependent undertaking Citizens argue with one another and they generally arrive at political decisions through processes of social interaction and deliberation This book is dedicated to investigating the political implications of interdependent citizens within the context of the 1984 presidential campaign as it was experienced in the metropolitan area of South Bend Indiana Hence this is a community study in the fullest sense of the term National politics is experienced locally through a series of filters unique to a particular setting and its consequences for the exercise of democratic citizenship

The Politics of Advanced Capitalism Pablo Beramendi, Silja Häusermann, Herbert

Kitschelt, Hanspeter Kriesi, 2015-04-23 This book serves as a sequel to two distinguished volumes on capitalism Continuity and Change in Contemporary Capitalism Cambridge 1999 and Order and Conflict in Contemporary Capitalism 1985 Both volumes took stock of major economic challenges advanced industrial democracies faced as well as the ways political and economic elites dealt with them However during the last decades the structural environment of advanced capitalist

democracies has undergone profound changes sweeping deindustrialization tertiarization of the employment structure and demographic developments This book provides a synthetic view allowing the reader to grasp the nature of these structural transformations and their consequences in terms of the politics of change policy outputs and outcomes In contrast to functionalist and structuralist approaches the book advocates and contributes to a return of electoral and coalitional politics to political economy research The Politics of Post-Industrial Welfare States Klaus Armingeon, Giuliano Bonoli, 2007-01-24 This new study assesses the welfare state to ask key questions and draw new conclusions about its place in modern society It shows how the welfare states that we have inherited from the early post war years had one main objective to protect the income of the male breadwinner Today however massive social change in particular the shift from industrial to post industrial societies and economies have resulted in new demands being put on welfare states These demands originate from situations that are typical of the new family and labour market structures that have become widespread in western countries since the 1970s and 1980s characterised by the clear prevalence of service employment and by the massive entry of women in the labour market Against this background this book presents a precise and clear definition of new social risks A concept being increasingly used in welfare state literature focuses on the groups that are mostly exposed to new social risks women the young the low skilled in order to study their political behaviour assesses policymaking processes that can lead to successful adaptation It covers key areas such as child care care for elderly people adapting pensions to atypical career patterns active labour market policies and policy making at the EU level This book will be of great interest for all students and scholars of politics sociology and the welfare state in particular *Personalizing Politics and Realizing Democracy* Gian Vittorio Caprara, Michele Vecchione, 2017-02-15 Few people today would challenge the legitimacy of democracy as the form of government most congenial to modern day citizenship as it requires its members to treat each other as equals and to cooperate in the shared pursuit of conditions that maximize both the individual's potential and the achievement of a public welfare However a number of facts challenge these deeply rooted ideals declining political participation along with skepticism and dissatisfaction with the function of democracy has spread citizens increasing capacity to control their own circumstances within their private economic and social spheres is at odds with their inability to exert control over their elected representatives and the shift of opposing radical coalitions towards more pragmatic and ideologically elusive platforms aimed to attract a larger constituency of the electorate has greatly diluted the identity of political parties In *Personalizing Politics and Realizing Democracy* authors Gian Vittorio Caprara and Michele Vecchione present the ever growing reciprocal relationship between personality and politics and assert that politics are not only increasingly dependent on the likes and dislikes of its citizenship but ultimately on the personalities of political candidates attracting these voters preferences In this book Caprara and Vecchione draw from recent research in personality psychology that offer a decisive role in understanding the major changes that have occurred within politics in the last several decades **Pandemic,**

Politics, and a Fairer Society in Southeast Asia Syaza Shukri, 2023-07-20 Employing the Malaysian case as a starting point for examining a wider trend in Southeast Asia this book delves into how politicians and policymakers navigate political uncertainty and the impact of their decisions on creating and maintaining a fairer society *Politics of Democratic Breakdown* Gangsheng Bao, 2022-05-30 Democratic breakdown as a political and historic event can impact the fate of millions if not hundreds of millions of people by changing the political complexion of a country This book attempts to systematically explain why democracies collapse The author's main theoretical argument is based on the examination of two factors One is political cleavages among voters These can cause serious political conflicts and may lead to fierce political confrontation and major upheaval at the society level The other revolves around the types of political and institutional arrangements under democratic regimes Centrifugal democratic regimes are likely to weaken government capacity or state capacity rendering governments incapable of effectively resolving political conflicts and when these two factors come together political conflicts are less likely to be controlled effectively These situations can evolve into serious political crises and eventually lead to the collapse of democratic regimes The empirical research of this book is based on a comparative historical analysis of Germany Nigeria Chile and India Examining democratic collapses from both theoretical and empirical perspectives this book will be of interest to those engaged in the study of democracy Political Science Comparative Politics and Political Theory

Politics and International Relations in Eurasia Stylianos A. Sotiriou, 2019-03-28 Eurasia has long been characterized by intense competition among populations and among States The collapse of the Soviet Union constituted a critical juncture in the region's course since informal and formal norms subsided giving rise to a hardly regulated socio political environment where survival and security considerations ranked atop In this context populations first and foremost sought to have their existence guaranteed within nation states While in most cases that transition was accomplished without major impediments in the cases of Moldova Ukraine Georgia and Azerbaijan major challenges have been encountered leaving their mark deep in the post soviet course of the newly independent republics Moldova has been rattled by the conflict in Transdnistria Ukraine by the conflict in Crimea Georgia by the conflict in South Ossetia and Abkhazia and Azerbaijan by the conflict in Nagorno Karabakh In fact these conflicts have been classified as frozen conflicts given their unsettled nature and the smoldering fire between opposing populations within the respective republics This intense competition however has not been constrained only to the domestic level and only to the issue of frozen conflicts Eurasia's energy prospects have also been the cause of a constant power struggle among the States of the region With the Caspian Sea to constitute a rich in natural resources hub a clash of interests has taken place among the littoral States Moreover this competition has acquired a much broader geopolitical dimension extending to Eurasia's two ends the European Union and China As a result Eurasia's underbelly has become an area where the maximization of power figures as the best guarantee of survival and security in a fully unregulated environment Taken together frozen conflicts domestic level

and energy politics international level stand out as the two main features of Eurasia both unfolding in comparable conditions Therefore the book presents them as a two level game aiming at offering better substantiated explanations that draw on the very fundamentals of political science and at building a bridge of communication between the two levels that allows for well informed and widely applicable policy implications Entertainment Media and Politics Robert Lance Holbert, 2016-03-17 The prominence of politically themed entertainment is evident across the global media landscape Given its popularity it is important to gain a firm understanding of the mechanisms through which this diverse and multi faceted content can generate democratic outcomes In addition it is essential to isolate and predict properly the strength of a given effect and the conditions under which a specific outcome will become evident The works contained in this edited volume explore affect and cognition driven processes of influence recognizing that humans are both emotional and rational beings In addition empirical evidence is offered to isolate and compare specific types of political entertainment media content e g different types of satire and citizens proclivities for this content e g a person s Affinity for Political Humor in order to best understand the complex means by which entertainment media can generate political influence Attention is also paid to expanding what can and should be defined as political entertainment media which includes opinion based political talk programming The collection and its authors represent a global perspective to reflect the rise of political entertainment media as a global phenomenon This book was originally published as a special issue of Mass Communication and Society *Spicing Up Politics: How Soft News and Infotainment Form Political Attitudes* Mark Boukes, 2015-01-22 Political Failure by Agreement Gerhard Wegner, 2008-01-01 Gerhard Wegner provides new insight into the relation between democracies and market economies He recognizes conflict between the two but he doesn t propose constitutional controls over political action Such proposals are grounded in the comparative static manipulation of equilibrium models In contrast Wegner advances an evolutionary theory of political economy and uses this theory to explain how processes of societal learning might be set in motion that could expand support for market arrangements through time This thoughtful and challenging book will repay examination by all students of political economy Richard E Wagner George Mason University US In drawing particular attention to the implications of evolutionary market theory for public policy Gerhard Wegner adds a novel and instructive line of argument to the long standing debate on the inherent tension between democratic politics and economic liberalism His concept of learning liberalism addresses an important dimension of political failure that has been neglected in this debate Viktor J Vanberg Universitaet Freiburg Germany The purpose of this book is to reconsider economic liberalism from the viewpoint of political liberalism The author argues that advocates of economic liberalism largely overlook empirical political preferences which in many societies go far beyond a limited role of the state Recent difficulties of reforming the welfare state provide evidence that political preferences are at odds with liberal economic policy in numerous cases This fact challenges a political conception which demands a limited state role but also claims that citizens preferences as they are should determine the

content of policies Using an evolutionary perspective on economic liberalism the book develops new arguments about how economic liberalism can be brought into line with political liberalism Drawing on an evolutionary theory of markets Gerhard Wegner reinforces the claim that liberal economic policies are conducive to prosperity in society but he argues that the liberal promise of prosperity does not translate into corresponding political preferences on the part of citizens A tension between political and economic liberalism arises which lies at the centre of this book *Political Failure by Agreement* will strongly appeal to postgraduate students and researchers of global governance political theory political economy and institutional economics

A New Handbook of Political Science Robert E. Goodin, Hans-Dieter Klingemann, 1998 Aimed at political scientists *A New Handbook of Political Science* provides the definitive survey of new developments over the last 20 years assessed in the context of historical trends in the field

The Structure of Political Competition in Western Europe Zolt Enyedi, Kevin Deegan-Krause, 2013-09-13 Is European party politics hovering above society Why do voters pick one party over others Is it a question of class Of religion Of attitudes about taxes or immigration or global warming Or is it something else entirely *The Structure of Political Competition in Western Europe* takes a detailed look at the ways in which Western Europe's party systems are anchored in social and ideological structures The book's first section focuses on the role of social structures particularly education class and religion and analyzes the complex interplay among these factors The second section addresses the ways that the sociological structures such as class and religion interact with voters' values The third section examines the way that these structures and values shape the space of political competition among parties The conclusion integrates the findings of the empirical articles putting them into broader comparative perspective discussing whether relatively predictable structures have been overwhelmed by media driven spectacles political personalities and focus on short term economic performance This volume will appeal to scholars and graduate students in Europe and those from North America Asia and other regions who study European politics political parties cleavages and political behaviour This book was published as a special issue of *West European Politics*

Latina Politics, Latino Politics Carol Hardy-Fanta, 1993-06-28 Through an in depth study of the Latino community in Boston Carol Hardy-Fanta addresses three key debates in American politics how to look at the ways in which women and men envision the meaning of politics and political participation how to understand culture and the political life of expanding immigrant populations and how to create a more participatory America The author's interviews with Latinos from Puerto Rico the Dominican Republic and Central and South America and her participation in community events in North Dorchester Jamaica Plain and the South End document the often ignored contribution of Latina women as candidates political mobilizers and community organizers Hardy-Fanta examines critical gender differences in how politics is defined what strategies Latina women and Latino men use to generate political participation and how culture and gender interact in the political empowerment of the ethnic communities Hardy-Fanta challenges the notion of political apathy among Latinos and presents factors that stimulate political participation She

finds that the vision of politics promoted by Latina women one based on connectedness collectivity community and consciousness raising contrasts sharply with a male political concern for status hierarchy and personal opportunity *Social Psychology and Politics* Joseph P. Gourevitch, James Shinn, 2010-06-20 Why does corporate governance front page news with the collapse of Enron WorldCom and Parmalat vary so dramatically around the world This book explains how politics shapes corporate governance how managers shareholders and workers jockey for advantage in setting the rules by which companies

are run and for whom they are run It combines a clear theoretical model on this political interaction with statistical evidence from thirty nine countries of Europe Asia Africa and North and South America and detailed narratives of country cases This book differs sharply from most treatments by explaining differences in minority shareholder protections and ownership concentration among countries in terms of the interaction of economic preferences and political institutions It explores in particular the crucial role of pension plans and financial intermediaries in shaping political preferences for different rules of corporate governance The countries examined sort into two distinct groups diffuse shareholding by external investors who pick a board that monitors the managers and concentrated blockholding by insiders who monitor managers directly Examining the political coalitions that form among or across management owners and workers the authors find that certain coalitions encourage policies that promote diffuse shareholding while other coalitions yield blockholding oriented policies Political institutions influence the probability of one coalition defeating another
