This collection provides a deep engagement with the political implication of Black Lives Matter This book covers a broad range of topics using a variety of methods and epistemological approaches In the twenty first century the killings of Black Americans have sparked a movement to end the brutality against Black bodies In 2013 BlackLivesMatter would become a movement building project led by Alicia Garza Patrisse Cullors and Opal Tometi This movement began after the acquittal of George Zimmerman who murdered 17 year old Trayvon Martin The movement has continued to fight for racial justice and has experienced a resurgence following the 2020 slayings of Ahmaud Arbery George Floyd Breonna Taylor Sean Reed Tony McDade and David McAtee among others The continued protests raise questions about how we can end this vicious cycle and lead Blacks to a state of normalcy in the United States In other words how can we make any advances made by Black Lives Matter stick The chapters in this book were originally published in the journal *Politics Groups and Identities*

*Extraordinary Politics* Charles Euchner, 2018-02-19 Political protest and social movements their history their cyclical development their organization strategies and tactics constitute what Charles Euchner calls extraordinary politics an antidote to the breakdown of politics as usual and a necessary if not sufficient condition of democracy Activists have set the pace on every conceivable issue including the environment gay rights feminism abortion states rights religion and multiculturalism The president and Congress can barely keep up but extraordinary politics keeps evolving With style and grace the author weaves together hundreds of examples drawn from movements spanning the ideological spectrum to offer both a practical and intellectual guidebook to political activism in a reputedly apathetic age embracing with abandon the art of making a difference When dissidents and activists toppled powerful regimes across the globe in the 1980s and 1990s from the Soviet Union to South Africa from Nicaragua to the Philippines how did Americans respond to challenges in their own country The conventional wisdom is that Americans sullenly withdrew from all manner of political action But in fact activists of all backgrounds took to the streets to challenge ordinary structures of politics These movements their history their cyclical development their organization strategies and tactics constitute what the author calls extraordinary politics Activists have set the pace on every conceivable issue including the environment gay rights feminism abortion states rights religion and multiculturalism The president and Congress can barely keep up but extraordinary politics keeps evolving With style and grace Charles Euchner weaves together hundreds of examples drawn from movements spanning the ideological spectrum to

The Power of Everyday Politics Benedict J. Tria Kerkvliet, 2018-07-05 Ordinary people s everyday political behavior can have a huge impact on national policy that is the central conclusion of this book on Vietnam In telling the story of collectivized agriculture in that country Benedict J Tria Kerkvliet uncovers a history of local resistance to national policy and gives a voice to the villagers who effected change Not through open opposition but through their everyday political behavior villagers individually and in small unorganized groups undermined collective farming and frustrated authorities efforts to correct the problems The Power of Everyday Politics is an authoritative account based on extensive research in Vietnam s National Archives and in the Red River Delta countryside of the formation of collective farms in northern Vietnam in the late 1950s their enlargement during wartime in the 1960s and 1970s and their collapse in the 1980s As Kerkvliet shows the Vietnamese government eventually terminated the system but not for ideological reasons Rather collectivization had become hopelessly compromised and was ultimately destroyed largely by the activities of villagers Decollectivization began locally among villagers themselves national policy merely followed The power of everyday politics is not unique to Vietnam Kerkvliet asserts He advances a theory explaining how everyday activities that do not conform to the behavior required by authorities may carry considerable political weight
