ANALYSIS OF INTERNATIONAL SOCIAL POLICIES JULIEN BOKILO, 2021-12-13 Main idea Contribution of transnational transfers in the construction of national social policies Through the main idea of the book we begin by defining the notion of decline to identify consequences of the decline of political authority with regard to social problems to better analyze the importance of the address of countries in development path towards international donors In addition we used Policy Transfer Studies PTS to show how the contributions of transnational transfers on the development of national social policies are considered as the lever for the integration of developing countries But in other words these countries are considered as the places of fixation where interdependencies between public and private actors are consolidated where rules of action are negotiated thanks to the agreements conventions which we have analyzed throughout through two types of partnership namely bilateral and multilateral through public public public private private private INGO International Institution partnerships Finally we carried out an evaluation in order to subsequently identify some perspectives encouraged by transnational contributions on the social policies of developing countries

Informal Institutions and Citizenship in Rural Africa Lauren M. MacLean, 2010-05-24 This book challenges previous assumptions about institutions social capital and the nature of the African state by investigating the history of political and economic change in villages on either side of the Ghana Cote d'Ivoire border Prior to European colonial rule these Akan villages had very similar political and cultural institutions By the late 1990s however Lauren M MacLean found puzzling differences in the informal institutions of reciprocity and indigenous notions of citizenship MacLean argues that divergent histories of state formation not only shape how villagers help each other but also influence how local groups and communities define citizenship and then choose to engage with the state on an everyday basis She examines the historical construction of the state role in mediating risk at the local level across three policy areas political administration social service delivery and agriculture
