Pollution and the Death of Man Francis A. Schaeffer,2022-03-21 Francis A Schaeffer's Timeless Assessment of a Modern Ecological Crisis From the time of creation God placed the earth in our care Since then humans have had a strained relationship with the ecosystem We have often misused resources and polluted the water air and land But if God's plan for redemption includes the earth we must be good stewards of his creation now With environmental threats increasing how should Christians respond This classic work by Francis A Schaeffer looks at modern ecological crises through the lens of theology and Scripture Renowned for his work in applied philosophy and theology Schaeffer answers serious philosophical questions about creation and ecology He concludes that we must return to a profoundly and radically biblical understanding of God's relationship to the earth and of our divine mandate to exercise godly dominion over it A Christian Classic Written by renowned philosopher Francis A Schaeffer Cultural Analysis from a Biblical Perspective Looks at modern ecological threats through the lens of theology and Scripture Educational Includes appendices on The Historical Roots of Our Ecologic Crisis by the late American historian Lynn White Jr and Why Worry About Nature by the late sociologist Richard L Means

Pollution and the Death of Man Francis August Schaeffer, 1970 Biblical Holism and Agriculture (Revised Edition) David J. Evans, Ronald J. Vos, Keith P. Wright, 2020-04-22 Because the World Matters New generations are championing responsibility for both the environment and those peoples who depend upon it in all new ways Biblical Holism and Agriculture addresses the urgent need for constructing a holistic perspective grounded in the Bible to appraise the economic social ecological environmental and spiritual impact of globalization and the unprecedented impact of powerful agricultural technologies and marketing systems The holistic biblical perspectives within reference ancient Hebrew insights about responsible freedom for keeping the land by people created in the image of God as representatives commissioned to stewardship and justice Ecotheology and the Practice of Hope Anne Marie Dalton, Henry C. Simmons, 2010-09-29 Is there any hope for a more sustainable world Can we reimagine a way of living in which the nonhuman world matters Anne Marie Dalton and Henry C Simmons claim that the ecotheology that arose during the mid twentieth century gives us reason for hope While ecotheologians acknowledge that Christianity played a significant role in creating societies in which the nonhuman world counted for very little these thinkers have refocused religion to include the natural world To borrow philosopher Charles Taylor's concept they have created a new social imaginary reimagining a better world and a different sense of what is and what should be A new mindset is emerging inspired by ecotheological texts and evident in the many diverse movements and activities that operate as if the hope imparted by ecotheology has already been realized While making this powerful argument Dalton and Simmons also provide an essential overview of key ecotheological thinkers and The Earth, Humanity and God Colin A. Russell, 2019-10-16 Originally published in 1994 The Earth Humanity and texts God discusses the relationship between science and religion The book discusses the condition of the earth as it was at the

time of publication and the future prospects of the planet arguing that neither the conventional mechanistic view nor New Age philosophy helps alone in evaluating our relationship with the Earth The book examines methods of combatting the threats to the Earth exploring both a scientific and non scientific stance investigating the uncontrolled expansion of technology as well as empirical pre scientific mysticism The book also explores the resurgence in ancient ideas of Mother Earth as a dangerous piece of romantic irrationality and suggests that these views pose a danger to religious scientific examinations. The book suggests instead a hard headed attempt to relate Biblical and scientific data and that this in turn can yield a valuable new understanding of the problems facing the world John Stott on Creation Care R.J. (Sam) Berry, Laura Yoder, 2021-10-21 Discover John Stott's writings on creation care brought together for the first time in this definitive collection for the global church Compiled by R J Sam Berry and Laura Yoder this brilliant anthology demonstrates both Stott s passion for the environment and its place in Christian discipleship Showcasing his unique way of explaining the Bible simply and clearly John Stott on Creation Care traces Stott s own process of coming to embrace creation care as a vital part of the Christian life and in turn shows us how creation care must have an integral place in our own discipleship Commentary by noted scientist R J Sam Berry connects Stott's writings together and illuminates how his wisdom still speaks to us today Alongside reflections from others that Stott inspired and discipled John Stott on Creation Care is the perfect resource for every Christian looking to understand biblical teaching on the environment and how creation care should form part of their discipleship It is also an ideal biblical and theological resource for those involved in creation care ministry Published as part of the John Stott Centenary celebrations proceeds from John Stott on Creation Care will go to A Rocha International a charity that carries community based conservation projects in response to biodiversity loss around the world John Stott viewed creation care as an inevitable implication of the biblical message and as a grounding for Christian engagement in environmental commitments This collection will give you a deeper more thorough understanding of his writings and how his views developed and will leave you motivated and inspired to look again at your discipleship and how you approach creation **Library of Congress Catalogs** Library of Congress, 1976 Christianity and Earthkeeping Ernst Marais care Conradie, 2011-04-01 Why should Christians engage in earthkeeping as Christians and from within Christian communities What is the underlying theological rationale for that In this book some 19 reasons why Christians may be encouraged to engage in earthkeeping are identified juxtaposed and assessed in order to call for clarity to invite discussion and to elicit creative tensions No single position is advocated it would be helpful if Christians could engage in earthkeeping on the basis Finding the Way Through Water Roland K Price, 2014-05-01 Finding the Way through Water of any of these motivations explores how water contributes to our understanding of the created world and our Christian beliefs As an Emeritus Professor and an ordained priest in the Church of England author Roland Price explores how water features in the Bible Important at creation water brings about global catastrophe enables escape from slavery ensures survival in the wilderness prepares

people for worship and sustains warriors and exiles In the gospels Jesus turns water into wine stills the storm has his feet washed with a womans tears and washes his own disciples feet For the Christians who were the first followers of the Way water was important in baptism and in prophecy You will be surprised by the extent to which water pervades Gods story in the Bible and how an understanding of the management of water today can make that story accessible to all Take a look at familiar stories in the Old and New Testaments from the unfamiliar perspective of water Learn something about the relationship between the world of the Bible and our modern world Prepare to be challenged whether you are a water sector professional or a Christian wanting to understand more about water in Gods world today The forty brief chapters make this an ideal book to read and discuss during the forty days of Lent General Catalogue of Printed Books British Museum.
