**Ariadne's Lives** Nina daVinci Nichols, 1995 Indeed relatively little work has been done on the Cretan myth cycle as a whole a mixture of heroic Greek legend and savage pre Greek elements generally considered to be antithetical to evolved literary languages As a result although Ariadne has been extremely important in Western art from the time of ancient Greece through the nineteenth century she is rarely included in studies of Greek myth

**The Passionate Spectator** John Yau, 2021-08-02 The Passionate Spectator collects essays reviews and art criticism by John Yau an internationally lauded poet critic and curator In this wide ranging collection Yau explores the intersection of art and poetry dissolving boundaries between the artistic traditions and reimagining what it means to see and to write Whether he is interpreting the poetic use of titles in Jessica Stockholder's paintings reviewing the collaborative book project between American poet Robert Creeley and German artist Georg Baselitz or considering the significance of Frank O'Hara's decision to have his portrait drawn wearing nothing but army boots Yau is consistently daring original and contemporary Yau's diverse critical sensibilities permeate The Passionate Spectator as he moves seamlessly between the visual and literary arts Highlights of this collection include an essay on the poet as art critic a study of the relationship between Kevin Young's poetry and the paintings of Jean Michel Basquiat and an imaginative piece in which Yau speculates about what Jorge Luis Borges would have created had he been a visual artist In the title essay Yau lays out the duty of the spectator a duty shared by viewer reader critic and artist it is up to us to experience art to engage and believe in its power

**A Decade of Negative Thinking** Mira Schor, 2010-01-25 Writings on the changing relationship between feminism and art production and criticism and the impact

of intergenerational struggle in the contemporary art world      Islands in the Rainforest Stéphen Rostain, 2016-12-05 Stéphen Rostain's book is a culmination of 25 years of research on the extensive human modification of the wetlands environment of Guiana and how it reshapes our thinking of ancient settlement in lowland South America and other tropical zones Rostain demonstrates that populations were capable of developing intensive raised field agriculture which supported significant human density and construct causeways habitation mounds canals and reservoirs to meet their needs The work is comparative in every sense drawing on ethnology ethnohistory ecology and geography contrasting island Guiana with other wetland regions around the world and examining millennia of pre Columbian settlement and colonial occupation alike Rostain's work demands a radical rethinking of conventional wisdom about settlement in tropical lowlands and landscape management by its inhabitants over the course of millennia      **The Best American Poetry 2015** David Lehman, 2015-09-08 Title page verso indicates hardcover edition but this ISBN is for the paperback printing      **In My Time**, 1995-01-01 In My Time is a vivid account of the fascinating life of Robert Strausz Hup who served American presidents for twenty years in a variety of diplomatic posts It is a life filled with both excitement and tragedy In this autobiography Strausz Hup covers a wide range of topics including his youth in Vienna his familial background and his schooling The author also discusses his emigration to the United States describing his initial impressions of the country as well as how he viewed the changes that were occurring in American society and culture Strausz Hup has written a poignant introduction for the republication of this volume He explains how he reaches out to history for an explanation of who he is as an individual Just as entire nations should learn from history so should individuals as Strausz Hup has attempted to do in his autobiography Robert Strausz Hup is one of those increasingly rare universally educated men whose minds conform only to their own beliefs and findings His views of events such as the rise of German Nazism or Chinese Communism or the world of the theater in Europe between the two world wars are always fresh exciting and informed In My Time will be enjoyed by all who read it especially historians political theorists and policymakers      Polychrome Sculpture Johannes Taubert, 2016-02-15 In the decades since its initial publication in German in 1978 Polychrome Sculpture has come to be widely regarded as a watershed text on the making and meaning of European medieval and Baroque painted wood sculpture An early proponent of interdisciplinary research Johannes Taubert played a pioneering role in combining the rigorous scientific analysis of materials with a fuller understanding of form and function an approach that has led to the development of technical art history as practiced today Many of the essays in this volume apply such scientific techniques as microscopic analysis to an art historical understanding of Romanesque and late Gothic wood sculpture revealing that far from serving a merely decorative function the painted surface of these works was intricately connected to their meaning The paint layers on the sculptures for example which the author spent years documenting through close examination and analysis were intended to impart a heightened sense of reality to the life sized sculptures thereby enhancing the viewer's experience of worship Taubert believed it was crucial for

conservators to understand this context before undertaking any treatments No other book offers such a focused subtle and interdisciplinary examination of the subject as Polychrome Sculpture This influential work is now available in English for the first time in a meticulous translation enhanced and updated by new color illustrations annotations to the original text and a new introduction

**Aesthetic Theory, Abstract Art, and Lawrence Carroll** David Carrier, 2018-09-06 Boldly developing the central traditions of American modernist abstraction Lawrence Carroll's paintings engage with a fundamental issue of aesthetic theory the nature of the medium of painting in highly original frequently extraordinarily successful ways Aesthetic Theory Abstract Art and Lawrence Carroll explains how he understands the medium of painting shows what his art says about the identity of painting as an art discusses the place of his paintings in the development of abstraction and finally offers an interpretation of his art The first monograph devoted to him this philosophical commentary employs the resources of analytic aesthetics Art historians trace the development of art explaining how what came earlier yields to what comes later Taking for granted that the artifacts they describe are artworks art historians place them within the history of art Philosophical art writers define art explain why it has a history and identify its meaning Pursuing that goal Aesthetic Theory Abstract Art and Lawrence Carroll roams freely across art history focused at some points on the story of old master painting and sometimes on the history of modernism but looking also to contemporary art in order to provide the fullest possible philosophical perspective on Carroll's work

**Art After Appropriation** John C. Welchman, 2013-01-11 Beginning with the first comprehensive account of the discourse of appropriation that dominated the art world in the late 1970s and 1980s Art After Appropriation suggests a matrix of inflections and refusals around the culture of taking or citation each chapter loosely correlated with one year of the decade between 1989 and 1999 The opening chapters show how the Second World culture of the USSR gave rise to a new visibility for photography during the dissolution of the Soviet Union around 1989 Welchman examines how genres of ethnography documentary and travel are crossed with fictive performance and social improvisation in the videos of Steve Fagin He discusses how hybrid forms of subjectivity are delivered by a new critical narcissism and how the Korean American artist Cody Choi converts diffident gestures of appropriation from the logic of material or stylistic annexation into continuous incorporated events Art After Appropriation also examines the creation of public art from covert actions and social feedback and how bodies participate in their own appropriation Art After Appropriation concludes with the advent of the rainbow net an imaginary icon that governs the spaces of interactivity proliferation and media piracy at the end of the millennium John Welchman is Professor of Modern Art History Theory and Criticism at the University of California San Diego He is the author of Modernism Relocated 1995 and Invisible Colors 1997 and editor of Rethinking Borders 1996 and a forthcoming three volume anthology of the writings of LA artist Mike Kelley Welchman has contributed to numerous journals magazines museum catalogues and newspapers including Artforum New York Times Los Angeles Times International Herald Tribune Los Angeles County Museum of Art Tate Gallery Museum of Contemporary Art Los Angeles Reina Sofia Madrid Haus
