**Pacific Ethnomathematics** Nicholas J. Goetzfridt, 2007-09-20 This ground breaking bibliography by distinguished Pacific researcher Nicholas Goetzfridt examines mathematical concepts and practices in Polynesia Melanesia and Micronesia It covers number systems counting measuring classifying spatial relationships symmetry geometry and other aspects of ethnomathematics in relation to a wide range of activities such as trade education navigation construction rituals and festivals divination weaving tattooing and music In compiling nearly five hundred citations Goetzfridt makes use of the vast resources of writing about the Pacific from the 1700s to the present In addition to discussing Pacific knowledge systems in general his introductory chapter includes a helpful overview of the relatively new field of ethnomathematics and important theoretical reflections on the discipline as a research program Extensive subject and geographic indexes provide numerous ways to experience the rich heritage and history of Pacific ethnomathematical concepts covered in this book including the 256 possible knotted fates enabled by the Carolinian sky god Supwunumen etak segmentation concepts in stellar based voyaging the highly diverse counting systems of Papua New Guinea the alignment of stone structures with stars to mark the appearance of the equinox and solstice and contemporary educational issues in the standardized teaching of Western mathematics

**The Prehistoric Exploration and Colonisation of the Pacific** Geoffrey Irwin, 1992 The exploration and colonisation of the Pacific is a remarkable episode of human prehistory Early sea going explorers had no prior knowledge of Pacific geography no documents to record their route no metal no instruments for measuring time and none for exploration Forty years of modern archaeology experimental voyages in rafts and computer simulations of voyages have produced an enormous range of literature on this controversial and mysterious subject This book represents a major advance in knowledge of the settlement of the Pacific by suggesting that exploration was rapid and purposeful undertaken systematically and that navigation methods progressively improved Using an innovative model to establish a detailed theory of navigation Geoffrey Irwin claims that rather than sailing randomly downwind in search of the unknown Pacific Islanders expanded settlement by the cautious strategy of exploring upwind so as to ease their safe return The author has tested this hypothesis against the chronological data from archaeological investigation with a computer simulation of demographic and exploration patterns and by sailing throughout the region himself

Memoirs of the Bernice Pauahi Bishop Museum of Polynesian Ethnology and Natural History Bernice Pauahi Bishop Museum, 1899 Britain's Empire Richard Gott, 2022-01-04 A magisterial history of resistance to the rising of the British empire As the call for a new understanding of our national history grows louder Britain's Empire turns the received imperial story on its head Richard Gott recounts the long overlooked narrative of resisters revolutionaries and revolters who stood up to the might of the Empire In a story of almost continuous colonialist violence Britain's crimes unspool from the beginning of the eighteenth century to the Indian Mutiny spanning the globe from Ireland to Australia Capturing events from the perspective of the colonised Gott unearths

### **European Colonialism since 1700** James R.

Lehning,2013-08-29 This masterful synthesis provides a much needed complete survey of European colonialism from 1700 to decolonization in the twentieth century Written by an award winning author this advanced undergraduate and graduate level textbook bridges for the first time the early modern Atlantic empires and the later Asian and African empires of high imperialism Viewing colonialism as a phenomenon of contact between Europe and the rest of the world the author takes an entangled histories approach considering the surprising ways in which the imperial powers of Spain Portugal Great Britain France and the Netherlands displayed their identities in colonial settings as much as in their imperial capitals The author illuminates for students the common themes of colonial government economic development and cultural contact across empires and reveals the ways in which these themes played out through contrast of the differing development structure and impact of each empire [Linguistics in Oceania](#) J. ### **Britain, China, and Colonial Australia**

Benjamin Mountford,2016-10-06 Towards the end of the nineteenth century the British Empire was confronted by two great Chinese questions The first of these questions often known as the Far Eastern question related specifically to the maintenance of British interests on the China Coast and the broader implications for British foreign policy in East Asia While

safeguarding British interests in the Far East presented British policymakers with a range of significant challenges as they wrestled with this first Chinese question another question kept knocking at the door Since the eighteenth century when plans for the establishment of a British colony at New South Wales had begun to materialize Australia's potential relations with China had attracted considerable interest During the first sixty years of European settlement China retained a prominent place in both metropolitan and colonial schemes for the development of British Australia From the 1850s however when large numbers of Cantonese miners travelled to the Pacific gold rushes these earlier visions began to appear hopelessly naive By the late 1880s the coming of the Chinese to Australia and the reaction to their arrival had developed into one of the most difficult issues within British imperial affairs This book sets out to tell that story Reaching back to the arrival of the British in the 1780s it explores the early history of Australian engagement with China and traces the development of colonial Australia into an important point of contact between the British and Chinese Empires [Aboriginal Protection and Its Intermediaries in Britain's Antipodean Colonies](#) Samuel Furphy, Amanda Nettelbeck, 2019-06-12 This collection brings together world leading and emerging scholars to explore how the concept of protection was applied to Indigenous peoples of Britain's antipodean colonies Tracing evolutions in protection from the 1830s until the end of the nineteenth century the contributors map the changes and continuities that marked it as an inherently ambivalent mode of colonial practice In doing so they consider the place of different historical actors who were involved in the implementation of protective policy who served as its intermediaries on the ground or who responded as its intended beneficiaries These included metropolitan and colonial administrators Protectors or similar agents government interpreters and church affiliated missionaries settlers with economic investments in the politics of conciliation and the Indigenous peoples who were themselves subjected to colonial policies Drawing out some of the interventions and encounters lived out in the name of protection the book examines some of the critical roles it played in the making of colonial relations **Encyclopaedia Britannica**, 1929 *Mammals of the South-west Pacific* Tyrone Lavery, Tim Flannery, 2023-06-01 Islands are special because they promote unique forms of life and large proportions of the species they hold are found nowhere else on Earth The mammals of the South west Pacific are no exception with many distributed only across single islands or archipelagos Mammals of the South west Pacific details the natural history for more than 180 species of marsupials bats and rodents from 24 Pacific nations and territories Species profiles are accompanied by distribution maps illustrations and photographs many being the first images ever captured for the species By combining available knowledge with unpublished data collected over years of field work Mammals of the South west Pacific forms a definitive guide to the mammals from this region [Hypsodonty in Mammals](#) Richard H.
