For Love of the Imagination Michael Vannoy Adams, 2013-09-11 I have entitled this book For Love of the Imagination Long ago I fell in love with the imagination It was love at first sight I have had a lifelong love affair with the imagination I would love for others through this book to fall in love as I once did with the imagination Michael Vannoy Adams from the Preface For Love of the Imagination is

a book about the imagination about what and how images mean Jungian psychoanalysis is an imaginal psychology or what Michael Vannoy Adams calls imaginology the study of the imagination What is so distinctive and so valuable about Jungian psychoanalysis is that it emphasizes images For Love of the Imagination is also a book about interdisciplinary applications of Jungian psychoanalysis What enables these applications is that all disciplines include images of which they are more or less unconscious Jungian psychoanalysis is in an enviable position to render these images conscious to specify what and how they mean On the contemporary scene as a result of the digital revolution there is no trendier word than applications except perhaps the abbreviation apps In psychoanalysis there is a Freudian app and a Jungian app The Jungian app is a technology of the imagination This book applies Jungian psychoanalysis to images in a variety of disciplines For Love of the Imagination also includes the 2011 Moscow lectures on Jungian psychoanalysis It will be essential reading for psychoanalysts psychotherapists students and those with an interest in Jung

The Dream Frontier Mark Blechner, 2013-06-17 The Dream Frontier is that rare book that makes available the cumulative wisdom of a century's worth of clinical examination of dreams and then reconfigured that wisdom on the basis of research in cognitive neuroscience Drawing on psychodynamic theorists and neuroscientific researchers with equal fluency and grace Mark Blechner introduces the reader to a conversation of the finest minds from Freud to Jung from Sullivan to Erikson from Aserinsky and Kleitman to Hobson as the work toward an understanding of dreams and dreaming that is both scientifically credible and personally meaningful The dream in Blechner's elegantly conceived overview offers itself to the dreamer as an answer to a question yet to be asked Approached in this open ended manner dreams come to reveal the meaning making systems of the unconscious in the total absence of waking considerations of reality testing and communicability Systems of dream interpretation arise as helpful if inherently limited strategies for apprehending this unconscious quest for meaning Whereas students will appreciate Blechner's concise reviews of the various schools of dream interpretation teachers and supervisors will value his astute reexamination of the very process of interpreting dreams which includes the manner in which group discussion of dreams may be employed to correct for individual interpretive biases Elegantly written lucidly argued deftly synoptic but never ponderous in tone The Dream Frontier provides a fresh outlook on the century just passed along with the keys to the antechambers of the new century's reinvestigation of fundamental questions of conscious and unconscious mental life It transcends the typical limits of interdisciplinary reportage and brings both researcher and clinician to the threshold of a new mutually enriching exploration of the dream frontier in search of basic answers to basic questions

Blood in Water 8 Short Stories Madeleine Watson, 2020-06-20 Between 2011 and 2014 I wrote eight short stories I had been writing stories since I was about six Weird scenarios would enter my head and I would feel compelled to write about them Blood in Water relates on Abby who makes an awful discovery about her family Dead Letter Room samples the life of lonely Finch at his workplace Outside enters the disturbed mind of an ex convict and What Goes Around considers the makings of a bully On the surface all appear to delve

into diverse worlds and minds But this isn't quite so They are all about alienation My other stories are the same alienation It goes right back to my early children's mysteries of the Seventies How strange I hadn't noticed The reason is that I would make my own personal discovery in 2016 I was fifty one years old and living with my partner and two children Until then I was completely unaware of a vital truth about myself This truth has leaked into my stories and creations without my realisation This account is true Relevant diary entries have been included as well as illustrations Analyses and further dissections provides an insight into the force behind these stories and ventures into the strange phenomena I have discovered It's like a ghost language
