Practical Building Conservation V 2

Alison Henry, John Stewart

Practical Building Conservation V 2:

Practical Building Conservation Alison Henry, John Stewart, 2012 Mortars Renders and Plasters provides a broad perspective of contemporary conservation theory and practice not otherwise found in one publication describing the history physical properties and deterioration of these important materials Methods of assessing condition and evaluating options for treatment and repair are discussed together with a range of practical conservation techniques and maintenance strategies

Cleaning Historic Buildings: v. 1 Nicola Ashurst, 2016-01-08 What happens to the fabric of a historic building if it is not cleaned What is soiling how does it affect the building What cleaning methods should be used This first of a comprehensive two volume guide addresses these important and controversial questions along with many others and offers practical guidance on appropriate cleaning techniques backed up with useful case study material Based on the author's extensive on site involvement at trial and contract stage in many cleaning and surface repair projects this book examines the various attitudes and current cleaning practices along with the role and need for analysis of substrates and soiling It also offers advice on dealing with special cleaning problems such as the removal of paint graffiti and metallic stains and provides an assessment of the cleaning methods currently available

Brickwork: History, Technology and Practice: v.2 Gerard C.J. Lynch, 2015-11-17 This series of books offers an in depth guide to all aspects of brickwork and bricklaying practice Gerard Lynch author of the guide to Gauged Brickwork has put together these comprehensive and instructive volumes linking past knowledge and practices with modern skills and materials so that both can be fully examined and understood At a time when the conservation and restoration of old buildings demand a more sympathetic handling such a work should be a useful addition to the existing literature and an essential source of reference for all those involved in the construction and repair of brick buildings The second of six volumes which offer an in depth guide to all aspects of brickwork and bricklaying practice this volume examines the elements of building construction in brick The text covers both the contemporary and traditional aspects of substructure brickwork Chapter one studies the setting out of a small building and then progresses to foundations examining the historical as well as current practices along with information on modern concrete production The following six chapters cover both the contemporary and traditional aspects of substructure brickwork basements sleeper walls damp proof courses cavity walling and jointing and pointing The volume concludes with useful advice on achieving controlled and efficient bricklaying

Materials and Skills for Historic Building Conservation Michael Forsyth, 2013-02-05 This book is the third in a series of volumes that combine conservation philosophy in the built environment with knowledge of traditional materials and structural and constructional conservation techniques and technology Understanding Historic Building Conservation Structures Construction in Historic Building Conservation Materials Skills for Historic Building Conservation The series aims to introduce each aspect of conservation and to provide concise basic and up to date knowledge for architects surveyors and engineers as well as for commissioning client bodies managers and advisors In each book

Michael Forsyth draws together chapters by leading architects structural engineers and related professionals to reflect the interdisciplinary nature of conservation work The books are structured to be of direct practical application taking the reader through the process of historic building conservation and emphasising throughout the integrative teamwork involved The present volume Materials Skills for Historic Building Conservation describes the characteristics and process of decay of traditional materials which inform the selection of appropriate repair techniques It provides essential information on the properties of the principal traditional external building materials Their availability sourcing and environmental impact is covered as well as the causes of erosion and decay and the skills required for their application on conservation projects It covers the main most commonly used materials and conservation techniques including stone brickwork lime products concrete iron and steel timber wattle and daub and glass Thirteen chapters written by the experts present today s key issues in materials and skills for historic building conservation Gus Astley Patrick Baty Charley Brentnall Michael Bussell Michael Forsyth Tony Graham Chris Harris David McLaughlin Brian Ridout Mike Stock Geoff Wallis Ian Williams Rory Young

Historic Preservation Technology Robert A. Young, 2008-03-21 This introduction to historic preservation goes well beyond the Secretary of the Interior s Standards for Rehabilitation and shows how wood stone masonry and metal were used in the past and how adaptive re use can be employed to bring modern amenities to historic structures The book covers all aspects of the exterior and interior building fabric including windows roofing doors porches and electrical and mechanical systems for both residential and small scale commercial buildings Richly illustrated with photographs showing typical elements of historic buildings decay mechanisms and remediation techniques the book also contains a variety of useful case studies and features a companion Website that offers dozens of additional images and resources **Building Surveys** Peter Glover, 2006-10-19 Full update of bestselling practical guide for all students and professionals *Old House Care and Repair* Janet Collings, 2016-01-20 Owners of old houses are often baffled by the confusing advice they receive from their builders architects or surveyors who may be more familiar with repairing modern buildings than dealing with the issues associated with traditional houses Old houses generally require a different approach one for instance which takes account of their need to breathe Modern solutions do not always recognise that need This book will help owners builders and all construction professionals make the decisions that are right for old buildings It illustrates the long term benefits of using more traditional solutions on older houses rather than modern materials like cement based mortars sealants or impervious paints It offers practical guidance on How to get the right professional advice Legal requirements for listed buildings Problems with damp and rot Use of lime mortars plasters and renders Why old buildings need to breathe Planning applications and Trees outbuildings and gardens **Energy Research Abstracts** , 1978 *Building Adaptation* James Douglas, 2006-08-11 As existing buildings age nearly half of all construction activity in Britain is related to maintenance refurbishment and conversions Building adaptation is an activity that continues to make a significant contribution to the workload of the

construction industry Given its importance to sustainable construction the proportion of adaptation works in relation to new build is likely to remain substantial for the foreseeable future especially in the developed parts of the world Building Adaptation Second Edition is intended as a primer on the physical changes that can affect older properties It demonstrates the general principles techniques and processes needed when existing buildings must undergo alteration conversion extension improvement or refurbishment The publication of the first edition of Building Adaptation reflected the upsurge in refurbishment work The book quickly established itself as one of the core texts for building surveying students and others on undergraduate and postgraduate built environment courses This new edition continues to provide a comprehensive introduction to all the key issues relating to the adaptation of buildings It deals with any work to a building over and above maintenance to change its capacity function or performance

Case Studies of Rehabilitation, Repair, Retrofitting, and Strengthening of Structures Mourad M. Bakhoun, 2010

This is likewise one of the factors by obtaining the soft documents of this **Practical Building Conservation V 2** by online. You might not require more become old to spend to go to the ebook inauguration as competently as search for them. In some cases, you likewise attain not discover the declaration Practical Building Conservation V 2 that you are looking for. It will entirely squander the time.

However below, in the manner of you visit this web page, it will be so enormously simple to get as without difficulty as download guide Practical Building Conservation V 2
