

# GREATER LONDON PLAN

## INNER URBAN RING

The maximum net residential densities proposed are 100 and 75 persons per acre for different parts of this zone. It is from this ring that the greatest decentralisation from areas covered by the Report is proposed.

## SUBURBAN RING

A general net residential density of 50 persons per acre is proposed as a maximum. The only increase to be allowed is the building up of vacant frontages.

## GREEN BELT RING

This is to provide primarily for the recreation of Londoners and to prevent further suburban growth; therefore only small increases to existing towns are to be allowed.

## OUTER COUNTRY RING

This will be the principal reception area for the decentralised population. Here, the Report proposes, its new satellite towns should be located. But it contemplates that the agricultural (and not the recreational) background will predominate.

## NEW SATELLITES

These are all sited outside the green belt area.
