**Tourism in South and Southeast Asia** C. Michael Hall, Stephen Page, 2012-10-12 Tourism in South and South East Asia is a comprehensive and solid introduction to tourism in South and South East Asia with a specific appeal both to institutions in the region and other institutions who wish to expose students to one of the most dynamic tourism regions in the world. Despite downturns in outbound tourism due to the current economic crisis, inbound tourism from outside the region has continued to increase with governments placing more emphasis on the economic significance of tourism than ever. Tourism in South and South East Asia is the first tourism book to deal comprehensively with the implications of the Asian economic crisis for tourism. With South and South East Asia set to be the fastest growing area of tourism activity in the world well into the next century, Tourism in South and South East Asia is an essential text for students both within and outside of this region. Dealing with concepts, themes and issues which are pertinent to tourism development, planning, marketing and management, these two internationally known authors have produced an authoritative text that covers all aspects of this topic through the use of illustrative and relevant case studies.
