Regional Development In A Modern European Economy The Case Of Tuscany:

Regional Development in a Modern European Economy Robert Leonardi, Raffaella Nanetti, 1994 Since Tuscany was targeted as an Objective Two area to reverse industrial decline its development has made it a European Union success story This volume brings together for the first time in English a team of experts to examine the Tuscan Model of development and its link with European integration All aspects of the economy are examined from the textile industry to tourism It is shown that Tuscany has benefited from European integration and regional decentralisation with an expanding export market to other EU countries Crucially the principles and practice approach demonstrates how the model can be applied to other such regions and the book has applicability beyond the immediate scope of study Given the absolute necessity of a coherent industrial policy at European level this volume is an invaluable reference for students scholars and practitioners alike BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Unraveled Elizabeth L. Krause,2009-09-17 Deftly bridging literary conventions this compelling work exposes the cultural origins of a quiet revolution that occurred over the course of the twentieth century Elizabeth Krause combines novelistic and ethnographic techniques to illuminate population dynamics that have raised alarm across Europe and the United States and manifested for example in Italy s extremely low birthrate But what actually motivates people to have fewer children Krause turns to the evocative story of one woman Emilia Raugei who was born in a Tuscan hill town in 1920 and worked as a straw weaver in a rapidly globalizing economy to better understand this question Based on extensive fieldwork including indepth conversations with Emilia herself Krause draws on her rich and unconventional memories to create an engaging portrait of life in a rural village during Mussolini s rise to power it is a tale of migration love and loss political turmoil and the struggle to make a living during hard times Giving voice to a largely silent history that is at once local and global Unraveled A Weaver s Tale of Life Gone Modern will challenge us to find innovative approaches to understanding the transformative shift to a modern way of life Publisher s website Clusters, Networks and Innovation Stefano Breschi,Franco Malerba,2005-12-22 Examining the role of the much vaunted concepts of regional clusters in the prosperity and economic expansion of countries this work looks at the different experiences of industrial districts and high tech regions such as Silicon Valley Boston s
