Regional Ministers Power And Influence In The Canadian Cabinet:

Cabinets and First Ministers Graham White,2011-11-01 What place do first ministers and their cabinets have in democratic life in Canada Has cabinet become a prime ministerial focus group Do political staff and central agency bureaucrats enhance or diminish democracy Do private members have any say in the cabinet process Graham White renders a clear account of the development structure and operation of cabinet and the role of first ministers at the federal provincial and territorial levels He discusses how the processes that support cabinet are affected by the considerable power of the first minister and looks at the ways in which they permit the involvement of other elected members and the public Taking the view that characterizing our Westminster style government is an oversimplification White examines first ministers and cabinets in terms of accountability and transparency and proposes realistic improvements to this aspect of Canadian democracy

efficiency in use and to avoid excess demand and an exaggerated perception of the required level of investment Other contributors examine the infrastructure investment decision processes at the federal and provincial levels and consider the optimal allocation of responsibility for infrastructure investments among the different levels of government and the related issue of the role of intergovernmental transfers to underwrite this allocation
