**Regional Unemployment, Job Matching and Migration** Graham Crampton,1999 *Regional Labor Market Developments in Transition* Peter Huber,2006 The author analyzes regional labor market disparities in transition by presenting some data and summarizing existing literature He finds that large and persistent regional labor market disparities developed in virtually all transition countries and that there is some evidence of polarization Differences in starting conditions and market access seem to be the major reasons for regional divergence in transition Furthermore regional wages are only slightly more flexible than in many European Union labor markets interregional migration is low and capital seems to move toward high wage and low unemployment urban centers rather than to the most backward regions Policy should thus take a long run perspective on the existing regional disparities focus on removing barriers to mobility review existing institutions for implementing regional policy and aim at a close coordination of regional and labor market policy instruments World Bank web site *Regional unemployment disparities in Germany* Marcus Kunz,2012-01-10 Weder empirische Daten noch die konomische Theorie geben klare Anhaltspunkte wie sich regionale Disparit ten entwickeln und welche politischen Ma nahmen angebracht sind um diese zu reduzieren Dies gilt insbesondere f r Deutschland wo die Wiedervereinigung zwischen West und Ostdeutschland im Jahr 1990 die regionalen Arbeitslosigkeitsunterschiede deutlich verst rkt hat Vor diesem Hintergrund stellt Marcus Kunz drei zentrale Fragen 1 Zeigen Arbeitslosenquoten in den Kreisen und Regionen Deutschlands regionale Konvergenz oder Divergenz 2 Wie erfolgt die Anpassung von Kreisen und Regionen nach einem regionalen Arbeitsmarktschock 3 Welche Faktoren sind f r die regionalen Arbeitslosigkeitsunterschiede in Westdeutschland verantwortlich Im Gegensatz zu anderen Studien ber regionale Arbeitslosenquoten in Deutschland die sich ausschlie lich auf gr ere Regionen konzentrieren zeichnet die Studie von Kunz ein detaillierteres empirisches Bild da der Fokus auf der Entwicklung der Kreisebene liegt wo die Unterschiede besonders ausgepr gt sind Publikationssprache Englisch

Perspectives on Regional Unemployment in Europe Mr.Paolo Mauro,Mr.Eswar Prasad,Mr.Antonio Spilimbergo,1999-05-17 The third stage of European Economic and Monetary Union EMU was implemented in January 1999 against the specter of persistently high unemployment in many of the participating countries While the high European unemployment has received considerable attention this new IMF staff study analyzes an equally important issue the extent of regional unemployment disparities in certain countries The paper focuses on large and persistent differences in regional unemployment rates within several European countries The paper includes detailed case studies of two euro area countries where regional disparities in unemployment are striking Italy and Spain The studies emphasize that wages are unresponsive to local labor market conditions Unemployment Persistence and Mismatch Raquel Fonseca,2002 Since the mid 1970s Spain has suffered from persistently high unemployment as it has occurred in other parts of Europe Although during the last few years the unemployment level has declined there are still enormous disparities in the unemployment rate across groups

skills and regions This thesis attempts to shed some light on the mechanisms of unemployment persistence and skill and regional mismatch in Spain Chapter 1 provides a first introductory analysis of Spanish data The chapter emphasises the importance of skill and regional mismatch which may have contributed about fifty percent to the observed increase in total unemployment over the last twenty years The chapter also studies the cyclical pattern in the Spanish unemployment which is a very important aspect in view of its magnitude The following three chapters are devoted to the evaluation of different mechanisms that may have been at work In all three chapters the analysis relies on the specification calibration and simulation of dynamic general equilibrium models with matching on the labour market Chapter 2 focuses on cyclical fluctuations with particular emphasis on the role of reallocation shocks Chapter 3 focuses on skill mismatch more precisely the chapter investigates to what extent unemployment rate disparities across skill groups can be explained in terms of a ladder effect Chapter 4 focuses on regional disparities A model is built to investigate the possible determinants of regional disparities and the role of labour mobility

The Economics of Knowledge Generation and Distribution Pier Paolo Patrucco,2014-09-25 Contemporary capitalistic systems have been undergoing profound transformations determined by the transition towards the so called knowledge based economy i e a competitive system based on the capabilities firms have to create use and circulate knowledge These transformations concern both the characteristics of productive and innovative processes and the resources used in these activities This book captures these changes where traditional R D investments undertaken internally by firms are increasingly and strategically complemented by external sources of innovation and new knowledge Collaborations between firms and between firms and other organizations as well as the mobility of human capital are strategic processes in order to share and circulate knowledge and competencies They are also key determinants in the creation of new knowledge and innovation and ultimately in growth dynamics The circulation and distribution of knowledge is now a key input in the production of knowledge Knowledge and innovation are understood as the result of collective and interactive processes at the system level and less at the micro level In other words new knowledge production is less and less the result of individualistic behaviours of the firms and much more the effect of explicit and pro active interactions and transactions put in place by local networks of innovators In this perspective economic space is much more defined by the quality of the interactions among actors rather than by their mere technological sectoral or geographical proximity This book brings together new conceptual and empirical contributions and blends the analysis of the technological and geographical spaces in which innovation and knowledge are produced

Reshaping Regional Planning Brita Olerup,2017-11-30 This title was first published in 2002 Uniting scholars from across the full range of social sciences this distinctive volume provides a unique overview of northern European planning It examines all the key issues as well as the evolution traditions current innovations

and future developments in the field of planning Focusing on how planning impacts upon social issues such as employment social exclusion and quality of life the volume also looks at innovations in planning policy and practice in particular the challenge of sustainability The contributors analyze the built environment s relationship with culture and take a critical look at the creative re thinking currently taking place in Nordic planning

**The Flow Analysis of Labour Markets** Ronald Schettkat,1996-08-08 Well functioning labour markets are a precondition for economic development In order to function smoothly the market needs to be able to adjust effectively and quickly to new developments An understanding and analysis of adjustment processes within labour markets is therefore essential for economic theory and policy proposals This study discusse

**Building Resilient Migration Systems in the Mediterranean Region** Mauro Testaverde,Jacquelyn Pavilon,2022-07-01 For thousands of years migration has been a source of social and economic well being for peopleliving on different shores of the Mediterranean Sea Whether through higher earnings for migrants access to labor for receiving countries or remittances for sending communities migration hasbeen an important driver of development in the Mediterranean region The COVID 19 coronavirus pandemic has severely disrupted this complex web of movements raising questions about whethermigration will continue to be an important driver of the region s well being As time passed itbecame clear that the drivers of migration are so strong that mobility restrictions can only reducemovements not halt them entirely Building Resilient Migration Systems in the Mediterranean Region Lessons from COVID 19 presentsevidence on the implications of the COVID 19 pandemic on mobility in the region to inform policyresponses that can help countries restart migration safely and better respond to future shocks While some of the challenges that emerged during the pandemic are specific to public healthcrises others are common to different types of shocks including those related to economic conflict or climate related factors To inform this reform process this book suggests a set ofactions that can help Mediterranean countries to maximize the benefits of migration for all peopleliving in the region while at the same time ensuring the sustainability of migration flows As awhole these proposed policy actions point to a vision of migration resilience that even duringcrises can address key labor shortages keep both migrant and native populations safer sustainhousehold incomes and ameliorate blows to economic growth The COVID 19 pandemic has created momentum for policy reforms Whether this crisis canilluminate the way toward better adapting migration systems to future crises will depend onlearning its lessons

**OECD Regional Development Studies Working Together for Local Integration of Migrants and Refugees in Athens** OECD,2018-07-26 Migrants including native born children with migrant parents account for 23% of Athens population 664 046 people while the number of refugees and asylum seekers has rapidly increased since 2015 and is currently estimated at 18 000 To respond to the refugee inflow Athens developed bold

**Handbook of Regional Growth and Development Theories** Roberta Capello,Peter Nijkamp,2019 Regional economics an established discipline for several decades has undergone a period of rapid change in the last ten years resulting in the emergence of several new perspectives

At the same time the methodology of regional economics has also experienced some surprising developments This fully revised and updated Handbook brings together contributions looking at new pathways in regional economics written by many well known international scholars The aim is to present the most cutting edge theories explaining regional growth and local development The authors highlight the recent advances in theories the normative potentialities of these theories and the cross fertilization of ideas between regional and mainstream economists It will be an essential source of reference and information for both scholars and students in the field      **Agglomeration, Growth, and Adjustment** Thiess

Büttner,2013-11-11 It is dealt with disparities in employment growth unemployment and wages between regional labor markets in Germany First endogenous formation and growth of industry locations due to agglomeration economies is established as a basic source of disparity in employment Then spatial frictions and local wage inflexibility due to central wage bargaining are detected as causes of unemployment disparities Throughout the book theoretical analysis is combined with rigorous empirical testing using a large set of regional data at district level In order to gain and robustify empirical results recent methods in panel econometrics and spatial data analysis are employed An overview on the extent of key regional labor market disparities in Germany is given The book enables to assess our current understanding of the role of locational issues in causing those disparities and thus to understand the basic justification of regional policy      *Border Encounters* Jutta

Lauth Bacas,William Kavanagh,2013-10-01 Among the tremendous changes affecting Europe in recent decades those concerning political frontiers have been some of the most significant International borders are being opened in some regions while being redefined or reinforced in others The social relationships of those living in these borderland regions are also changing fundamentally This volume investigates from a local ground up perspective what is happening at some of these border encounters face to face interactions and relations of compliance and confrontation where people are bargaining exchanging goods and information and maneuvering beyond state boundaries Anthropological case studies from a number of European borderlands shed light on the questions of how and to what extent the border context influences the changing interactions and social relationships between people at a political frontier      Graduate Migration and Regional Development

Jonathan Corcoran,Alessandra Faggian,2017-05-26 This book aims to integrate and augment current state of the art knowledge on graduate migration and its role in local economic development Comprising the key scholars working in the field it draws together an international series of case studies on graduate migration a recognised critical component of the global pool of labour Each chapter describes empirically founded approaches to examining the role and characteristics of graduate migration in differing situational contexts highlighting issues concerning government policy data and methods

*Urban Transportation Research and Planning, Current Literature* ,1977      **Evolutionary Economic Geography** Dieter Kogler,2017-10-02 Economic geographers increasingly consider the significance of history in shaping the contemporary socio economic landscape and increasingly believe that experiences and competencies acquired over time by individuals and

entities in particular localities to a large degree determine present configurations as well as future regional trajectories Attempts to trace understand and investigate the pathways from past to present have given rise to the thriving and exciting sub field of Evolutionary Economic Geography EEG EEG highlights the important factors that initiate inhibit or consolidate the contextual settings and relationships in which regions and their respective agents which comprise and shape economic activity and social reproduction change over time It has at its core the production and destruction of novelty in space and the links between innovation and regional economic fortunes The creation of knowledge its movement and recombination within different regional ensembles of economic agents and institutions plays a critical role in the evolution of the space economy EEG provides a framework to disentangle the complexity of technological change and regional economic development based on a variety of theoretical and methodological approaches In only a short time EEG has established itself as a promising and rapidly evolving research framework with its focus on the driving forces of regional development across various scales and its attempt to translate findings into public policy This book advances the theoretical foundations of EEG and demonstrates how EEG utilises and operationalises conceptual frameworks both established and new Contributions also point to future research avenues and extensions of EEG attempting to build stronger ties between theory empirical evidence and relevance to policy This book was originally published as a special issue of Regional Studies

**The Labour Market Impact of the EU Enlargement** Floro Ernesto Caroleo, Francesco Pastore, 2010-03-18 Floro Ernesto Caroleo and Francesco Pastore This book was conceived to collect selected essays presented at the session on The Labour Market Impact of the European Union Enlargements A New Regional Geography of Europe of the XXII Conference of the Italian Association of Labour Economics AIEL The session aimed to stimulate the debate on the continuity fracture of regional patterns of development and employment in old and new European Union EU regions In particular we asked whether and how different the causes of emergence and the evolution of regional imbalances in the new EU members of Central and Eastern Europe CEE are compared to those in the old EU members Several contributions in this book suggest that a factor common to all backward regions often neglected in the literature is to be found in their higher than average degree of structural change or more precisely in the hardship they experience in coping with the process of structural change typical of all advanced economies In the new EU members of CEE structural change is still a consequence of the continuing process of transition from central planning to a market economy but also of what Fabrizio et al 2009 call the second transition namely that related to the run up to and entry in the EU

**Immigration Policy and the Search for Skilled Workers** National Academies of Sciences, Engineering, and Medicine, Policy and Global Affairs, Board on Science, Technology, and Economic Policy, Committee on High-Skilled Immigration Policy and the Global Competition for Talent, 2016-01-29 The market for high skilled workers is becoming increasingly global as are the markets for knowledge and ideas While high skilled immigrants in the United States represent a much smaller proportion of the workforce than they do in countries such as Australia Canada and the United

Kingdom these immigrants have an important role in spurring innovation and economic growth in all countries and filling shortages in the domestic labor supply This report summarizes the proceedings of a Fall 2014 workshop that focused on how immigration policy can be used to attract and retain foreign talent Participants compared policies on encouraging migration and retention of skilled workers attracting qualified foreign students and retaining them post graduation and input by states or provinces in immigration policies to add flexibility in countries with regional employment differences among other topics They also discussed how immigration policies have changed over time in response to undesired labor market outcomes and whether there was sufficient data to measure those outcomes

### **Regional Unemploymentjob Matching And Migration Introduction**

In today's digital age, the availability of Regional Unemploymentjob Matching And Migration books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Regional Unemploymentjob Matching And Migration books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Regional Unemploymentjob Matching And Migration books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Regional Unemploymentjob Matching And Migration versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Regional Unemploymentjob Matching And Migration books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Regional Unemploymentjob Matching And Migration books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded.

Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Regional Unemploymentjob Matching And Migration books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Regional Unemploymentjob Matching And Migration books and manuals for download have transformed the way we access information.
