Regions in Central Europe Sven Tägil, 1999 The subject of Euro regions is topical and controversial but those of Central Europe have been neglected by scholars Central Europe is demarcated variously according to geographical political economic and cultural criteria The subjective term region and its theoretical implications are considered in the opening chapters The empirical section ranges in time from the appearance of the German stern duchies in the Middle Ages to cross border cooperation in the Oder area today and geographically from Baden Wurttemberg in the west to Transylvania Carpatho Ruthenia and the Kaliningrad enclave in the east The authors all highlight the complex problems of local identity and the centrality of culture in shaping notions of the region

Transregional Connections in the History of East-Central Europe Katja Castryck-Naumann, 2021-10-25 Transregional connections play a fundamental role in the history of East Central Europe This volume explores this connectivity by showing how people from eastern and central parts of Europe have positioned themselves within global processes while in turn also shaping them The contributions examine different fields of action such as economy arts international regulations and law development aid and migration focusing on the period between the middle of the nineteenth century and the end of the Cold War The authors uncover spaces of interaction and emphasize that internal and external entanglements have established East Central Europe as a distinct region Understanding the connectedness of this subregion is stimulating for the historiography of East Central Europe as it is for the field of global history

with global trends Rather than achieving the coveted end of history however the liberal democratic order created in East Central Europe after 1989 became increasingly contested from left and right alike Thus instead of a comfortable conclusion pointing to the European integration of most of these countries the book closes with a reflection on the fragility of democracy in this part of the world and beyond East Central European Migrations During the Cold War Anna

Mazurkiewicz,2019-05-06 An extremely useful and much needed survey Over eleven chapters authors from eight countries cover the complex history of migration from the perspective of Central and Eastern Europe between 1945 and 1993 Following in the footsteps of Klaus Bade s Encyclopedia of European Migrations the authors make extensive use of sources in national languages while providing an extensive overview of population movements in the region between the Baltic Black and Adriatic Seas The individual chapters shed light on phenomena overlooked in other volumes including individual state reactions to various migratory phenomenon and the political economic and ideological consequences of human movement The chapters of this volume are uniform not only in their informative nature but also in suggesting new pathways for in depth research Adam Walaszek Jagiellonian University Krak w Poland Eastern Europe is an emblematic space of mobility and its Cold War history cannot be told without considering migration from and into the countries of the region This volume comes at a timely moment and provides a uniquely comprehensive account full with useful information for further research It will be a must read both for migration studies scholars and for area specialists Ulf Brunnbauer Leibniz Institute for East and Southeast European Studies Regensburg Germany The Handbook is a gift to students of migration on three counts It gathers the expertise of scholars fluent in the languages and familiar with the archives of Eastern and Central Europe Thus it brings the multi layered and complex histories of movement beyond the flat descriptor of Soviet bloc or Eastern European migrations The Handbook is both rich and lucid presenting in depth materials on the European twentieth century on one hand and organizing each chapter in a similar way offering the reader transparently comparable histories From Estonia south to Albania and from the USSR west to the GDR each chapter elucidates a complex migration history distinguished by national politics ethnic composition and economics moving from the cataclysmic impacts of World War II to the international migrations and politics of Cold War movement as well as the politics of Cold War emigrants themselves Each chapter ends with an epilogue on post 1989 international migrations and a valuable addendum on published and archival sources Finally the Handbook models the kind of high quality work produced by international scholarly cooperation at its best Leslie Page Moch Michigan State University Table of contents Introduction Anna Mazurkiewicz Albania Agata Domachowska Baltic States Estonia Latvia and Lithuania Pauli Heikkil Bulgaria Detelina Dineva Czechoslovakia Michael Cude and Ellen Paul Germany Bethany Hicks Hungary Katalin K d r Lynn Poland S awomir ukasiewicz Romania Beatrice Scutaru Ukraine Anna Fi USSR Alexey Antoshin Yugoslavia Brigitte Le Normand *The Medieval Networks in East Central Europe* Balazs Nagy,András Vadas,Felicitas Schmieder,2018-11-09 Medieval Networks in East Central Europe explores the economic

cultural and religious forms of contact between East Central Europe and the surrounding world in the eight to the fifteenth century The sixteen chapters are grouped into four thematic parts the first deals with the problem of the region as a zone between major power centers the second provides case studies on the economic and cultural implications of religious ties the third addresses the problem of trade during the state formation process in the region and the final part looks at the inter and intraregional trade in the Late Middle Ages Supported by an extensive range of images tables and maps Medieval Networks in East Central Europe demonstrates and explores the huge significance and international influence that East Central Europe held during the medieval period and is essential reading for scholars and students wishing to understand the integral role that this region played within the processes of the Global Middle Ages Central Europe Lonnie Johnson,1996-10-31

Throughout the Cold War era the Iron Curtain divided Central Europe into a Communist East and a democratic West and we grew accustomed to looking at this part of the world in bipolar ideological terms Yet many people living on both sides of the Iron Curtain considered themselves Central Europeans and the idea of Central Europe was one of the driving forces behind the revolutionary year of 1989 as well as the deterioration of Yugoslavia and its ensuing wars Central Europe provides a broad overview and comparative analysis of key events in a historical region that encompasses contemporary Germany Poland the Czech Republic Slovakia Austria Hungary Slovenia and Croatia Starting with the initial conversion of the pagan peoples of the region to Christianity around 1000 A D and concluding with the revolutions of 1989 and the problems of post Communist states today it illuminates the distinctive nature and peculiarities of the historical development of this region as a cohesive whole Lonnie R Johnson introduces readers to Central Europe s heritage of diversity the interplay of its cultures and the origins of its malicious ethnic and national conflicts History in Central Europe he shows has been epic and tragic Throughout the ages small nations struggled valiantly against a series of imperial powers Ottoman Turkey Habsburg Austria imperial Germany czarist Russia Nazi Germany and the Soviet Union and they lost regularly Johnson s account is present minded in the best sense in describing actual historical events he illustrates the ways they have been remembered and how they contribute to the national assumptions that still drive European politics today Indeed the constant interplay of reality and myth the processes of myth making and remembrance animates much of this history Since the fall of the Iron Curtain in 1989 the unanticipated problems of transforming post Communist states into democracies with market economies the wars in the former Yugoslavia and the challenges of European integration have all made Central Europe the most dynamic and troubled region in Europe In Central Europe Johnson combines a vivid and panoramic narrative of events a nuanced analysis of social economic and political developments and a thoughtful portrait of those myths and memories that have lives of their own and consequences for all of Europe Cultural Change in East-Central European and Eurasian Spaces Susan C. Pearce,Eugenia Sojka,2021-03-05 This book weaves together research on cultural change in Central Europe and Eurasia notably Bosnia and Herzegovina Kazakhstan Latvia Poland Russia and Ukraine Examining massive cultural shifts in erstwhile

state communist nations since 1989 the authors analyze how the region is moving in both freeing and restrictive directions They map out these directions in such arenas as LGBTQ protest cultures new Russian fiction Polish memory of Jewish heritage ethnic nationalisms revival of minority cultures and loss of state support for museums From a comparison of gender constructions in 30 national constitutions to an exploration of a cross national artistic collaborative this insightful book illuminates how the region s denizens are swimming in changing tides of transnational cultures resulting in new hybridities and innovations Arguing for a decolonization of the region and for the significance of culture the book appeals to a wide interdisciplinary readership interested in cultural change post communist societies and globalization *Fragmentation in East Central Europe* Klaus Richter,2020 WWI led to a radical reshaping of Europe s political borders and the emergence of a series of smaller states from the ruins of larger empires This study examines how four East Central European states Poland Lithuania Latvia and Estonia dealt with the breakdown of commerce and mobility caused by new borders high tariffs and trade wars Domains and Divisions of European History Johann P. Arnason,Jóhann Páll Árnason,Natalie Doyle,2010-01-01 The patterns of unity and division that define Europe as a historical region have been discussed in many seminal works but the complex set of questions behind its domains and divisions merits a more sustained debate The disappearance of the cold war the enlargement of the European Union and core issues of historical sociology all require an exploration of the structures and boundaries of historical formations as well as the question of European unity This volume tackles the topic of the divisions that have shaped European history head on as leading scholars in the field negotiate such issues as regional identity geographical boundaries divisional labeling and post cold war European unity **Museums and Centers of Contemporary Art in Central Europe after 1989** Katarzyna Jagodzińska,2019-07-02 Museums and Centers of Contemporary Art in Central Europe is a comprehensive study of the ecosystem of art museums and centers in the Czech Republic Hungary Poland and Slovakia Focusing on institutions founded after 1989 the book analyses a thirty year boom in art exhibition space in these regions as well as a range of socio political influences and curatorial debates that had a significant impact upon their development Tracing the inspiration for the increase in art institutions and the models upon which these new spaces were based Jagodzińska offers a unique insight into the history of museums in Central Europe Providing analysis of a range of issues including private and public patronage architecture and changing visions of national museums of art the book situates these newly founded institutions within their historical political and museological contexts Considering whether and in what ways they can be said to have a shared regional identity that is distinct from institutions elsewhere this valuable contribution paints a picture of the region in its entirety from the perspective of new institutions of art Offering the first comprehensive study on the topic Museums and Centers of Contemporary Art in Central Europe should be of great interest to academics researchers and postgraduate students engaged in the study of museums art history and architecture **East Central Europe** Wojciech Roszkowski,2015-01-01 What is East Central Europe Can it be defined with

any precision The question of definition is a difficult one as is usually the case concerning borderlands whose historical developments show little continuity and an uncertain identity born of the conflict between aspirations and reality It is in East Central Europe that no peace settlement is ever final no frontiers are secure and each generation must begin its work anew Is there any chance that this definition will become out of date

Medieval East Central Europe in a Comparative

Perspective Gerhard Jaritz, Katalin Szende, 2016-05-12 Medieval East Central Europe in a Comparative Perspective draws together the new perspectives concerning the relevance of East Central Europe for current historiography by placing the region in various comparative contexts The chapters compare conditions within East Central Europe as well as between East Central Europe the rest of the continent and beyond Including 15 original chapters from an interdisciplinary team of contributors this collection begins by posing the question What is East Central Europe with three specialists offering different interpretations and presenting new conclusions The book is then grouped into five parts which examine political practice religion urban experience and art and literature The contributors question and explain the reasons for similarities and differences in governance and strategies for handling allies enemies or subjects in particular ways They point out themes and structures from town planning to religious orders that did not function according to political boundaries and for which the inclusion of East Central European territories was systemic The volume offers a new interpretation of medieval East Central Europe beyond its traditional limits in space and time and beyond the established conceptual schemes It will be essential reading for students and scholars of medieval East Central Europe
