Reincarnation The View From Eternity:

Reincarnation O. T. Bonnett, 2005 The Universe is a continuum of intelligent consciousness and we are inseparable from it The only boundaries are artificial placed there by people who fail to grasp the wholeness of it all For any person to continue living bound by a focused narrow belief system is a tragedy of great proportion It is time to exercise our intellectual muscles for a change and take responsibility for our lives Covered in this book The Universe as a Sentient and Spiritual Being The Multidimensional Spirit The Nature of Mattergy A New View of Evolution Multiple Incarnations Spirit of Man Plants and Animals and their Connections to the Universe Parallel Pulse Dimensions A medical doctor of 40 years explores the nature of reincarnation and mans role in the universe *Modern Truths* Ekacco Bhikkhu, 2014-11-15 Author s Note Modern Truths contains sixteen talks on the Noble Truths plus a talk on how to decide what is and is not a teaching of The Buddha The talks were prepared upon the request of devotees at a temple in Penang Malaysia All except the talk on the Path factor Right View and that on the Path factor Right Intention were also delivered Again upon request all except the talk on the four Noble Truths A Modern Opportunity p 1ff and the one on Right Intention Beauty Is in the Eye of the Blind p 263 were published in Penang in two separate books 1 Modern Birth Ageing and Death p 17ff 5 1 talks One talk on the Noble Truth of Suffering four on the Noble Truth of the Origin of Suffering and as an appendix one on Right View the first factor of the Noble Eightfold Path the Noble Truth of the Path Leading to the Cessation of Suffering As an appendix also a talk entitled Is this the Dhamma Vinaya 2 Modern Happiness Very Difficult to See p 117f 7 1 talks Seven talks on the Noble Truth of the Cessation of Suffering and as an appendix one on the Noble Truth of the Path Leading to the Cessation of Suffering the Noble Eightfold Path Upon the request of devotees at a temple in Singapore all seventeen talks 2 6 8 and their appendices are herewith published together Since the talk on the Noble Eightfold Path the talk on Right View and the talk on Right Intention were intended as the first three of a series discussing the Noble Truth of the Path leading to the Cessation of Suffering they have here been put separately under The Path Leading to Modern Happiness Very Difficult to See p 225ff The talk on how to decide what is and is not a teaching of The Buddha has been put at the end as it is not directly related to any of the four Noble Truths but is directly related to one s study and understanding of The Buddha s Teachings as a whole Inconsistencies in translation etc between one talk and another have been left as they are Ekacco Bhikkhu From a book published by Pa Auk Meditation Centre a Centre of Therav da Buddhist Tradition The Theosophical Society Jeffrey D. Lavoie, 2012 This peer reviewed study represents a culmination of years of research into the history of the Theosophical Society In this unique project which combines biographies with source analyses Jeffrey D Lavoie records a detailed history of the early Theosophical Society and examines its relationship with the modern Spiritualist movement between the years 1875 1891 Special attention has been paid to some of the neglected figures associated with these organizations including Arthur Lillie the Gnostic occultist and early critic of the Theosophical Society the Davenport Brothers the Spiritualist mediums who

developed many of the standard elements which became associated with modern Spiritualism Alfred Wallace the prominent scientist Spiritualist and supposed member of the Theosophical Society and many others This work will appeal to a wide array of readers including those interested in modern religious movements Western Esotericism South Asian history and Victorian studies *Clearing a Way* Trevor Griffiths,2024-01-26 How to make better life enhancing choices when environments crumble and population shifts disrupt our ways of living Dr Griffiths takes a deep look at how our brains trick us into seeing the surface of things so that we lose sight of the deep relatedness on which our survival as groups will increasingly depend Many astonishing insights follow Body mind dualism dissolves as the ecological person moves with others in a renewed group approach to thriving Dilemmas in the standard quantum view of matter and spirituality resolve so that groups of people are empowered by the same fusion energy burning in stars to renew their power of creative choice Human inner heart is restored over mind to its central place as personal values reshape the future **Reincarnation and the Law of Karma: A Study of the Old-New World-Doctrine of Rebirth, and Spiritual Cause and Effect** William Walker Atkinson,2008-01-01 *Reincarnation* Elizabeth Clare Prophet,Erin L. Prophet,1997 A long time ago Christians believed in reincarnation This groundbreaking work makes the case that Jesus taught reincarnation Elizabeth Clare Prophet traces the history of reincarnation in Christianity from Jesus and early Christians through Church councils and the persecution of so called heretics Using the latest scholarship and evidence from the Dead Sea Scrolls and Gnostic texts she also argues persuasively that Jesus was a mystic who taught that our destiny is to unite with the God within Your view of Jesus and of Christianity will never be the same **Reincarnation and the Law of Karma** William Walker Atkinson,1908 By Reincarnation we mean the repeated incarnation or embodiment in flesh of the soul or immaterial part of man s nature The term Metempsychosis is frequently employed in the same sense the definition of the latter term being The passage of the soul as an immortal essence at the death of the body into another living body The term Transmigration of Souls is sometimes employed the term being used in the sense of passing from one body into another But the term Transmigration is often used in connection with the belief of certain undeveloped races who held that the soul of men sometimes passed into the bodies of the lower animals as a punishment for their sins committed during the human life But this belief is held in disrepute by the adherents of Reincarnation or Metempsychosis and has no connection with their philosophy or beliefs the ideas having sprung from an entirely different source and having nothing in common There are many forms of belief many degrees of doctrine regarding Reincarnation as we shall see as we proceed but there is a fundamental and basic principle underlying all of the various shades of opinion and divisions of the schools This fundamental belief may be expressed as the doctrine that there is in man an immaterial Something called the soul spirit inner self or many other names which does not perish at the death or disintegration of the body but which persists as an entity and after a shorter or longer interval of rest reincarnates or is re born into a new body that of an unborn infant from whence it proceeds to live a new life in the body more or less

unconscious of its past existences but containing within itself the essence or results of its past lives which experiences go to make up its new character or personality It is usually held that the rebirth is governed by the law of attraction under one name or another and which law operates in accordance with strict justice in the direction of attracting the reincarnating soul to a body and conditions in accordance with the tendencies of the past life the parents also attracting to them a soul bound to them by some ties in the past the law being universal uniform and equitable to all concerned in the matter This is a general statement of the doctrine as it is generally held by the most intelligent of its adherents

Reincarnation in Clement of Alexandria Sami Yli-Karjanmaa, 2025-06-19 International scholarly consensus holds that despite his obvious Platonic affinities Clement of Alexandria ca 150 215 CE rejected the doctrine of reincarnation This study finds that this consensus does not do justice to what Clement actually writes In his most explicit statement Clement singles out reincarnation as the example he wants to give of the finest doctrines of the best philosophers Though most of Clement s other writing is more subtle than that endorsement is still the most plausible explanation of what he says The tenet clearly esoteric for Clement is in harmony with his anthropology ethics and his synergistic soteriology that includes the crucial role of Jesus

Artificial Intelligence, Reincarnation, and Resurrection Ernest M. Valea, 2021-04-29 This book explores old and new hopes that have emerged in the human quest to defeat death On the one hand it answers questions such as Are we just physical machines of great complexity with the brain as the hardware on which consciousness operates as its software If so can we speculate on ways in which the mind could be uploaded to a machine and no longer suffer the frailty of this biological body And could an android robot or a mindfile in a computer simulation be conscious On the other hand the book examines the hope of survival through reincarnation according to the teachings of Eastern religions and New Age thought All these topics are discussed from the perspectives of Christian theology and the philosophy of mind This dual investigation will help Christians formulate a coherent response to old and new challenges to their faith

Gay Perspective Edwin Clark Johnson, Toby Johnson, 2008 In this companion volume to his critically acclaimed Lambda Literary Award winning book *Gay Spirituality* Toby Johnson further explicates his visionary stance that gay people s nature as outsiders gives them a uniquely powerful perspective on the

nature of God and religion By living outside gender norms gay people are more open to seeing across boundaries of gender and gain access to a less dualistic outlook on the nature of life Once again Johnson approaches this potentially controversial subject matter with erudition empathy and visionary speculation and gives meaning to gay consciousness beyond superficial issues of sexual behavior [A Theosophist's Point of View](#) James Albert Clark,1901 *The Eternal Embrace* Pasquale De Marco,2025-05-09 In *The Eternal Embrace* Pasquale De Marco invites us on a profound journey of self discovery and exploration of the eternal nature of our existence Through a series of thought provoking chapters this book delves into the depths of the human soul the mysteries of the universe and the interconnectedness of all living things With insights drawn from ancient wisdom personal experiences and scientific discoveries *The Eternal Embrace* challenges our assumptions about life and death the nature of reality and the power of the human spirit It is a book that will stay with you long after you finish reading it inspiring you to live a life that is both meaningful and eternal Whether you are seeking spiritual enlightenment personal growth or a deeper understanding of the world around you *The Eternal Embrace* will resonate with your soul It is an exploration of the eternal truths that connect us all reminding us that we are part of something greater than ourselves Pasquale De Marco writes with a rare combination of clarity and compassion making complex ideas accessible and relatable This book is not a dry academic treatise but a heartfelt and inspiring guide to living a life of purpose and fulfillment If you are ready to embark on a journey of self discovery and embrace the eternal nature of your existence then *The Eternal Embrace* is the perfect companion for you It is a book that will change your perspective on life and inspire you to live each day with intention and gratitude *The Eternal Embrace* is a timely and important work that offers a profound and transformative message for our modern age It is a book that will stay with you long after you finish reading it inspiring you to live a life that is both meaningful and eternal If you like this book write a review on google books **Wright Writes about Right and Rites** David Robert Wright,2019-04-23 *Wright Writes about Right and Rites* by David Robert Wright **Psychedelic Immortality: Nietzschean Perspectives on Reincarnation, Femtheogens, and Philosophy** Joseph I. Breidenstein Jr.,2025-09-02 Recent research has revealed a psychedelic inspiration for Nietzsche's philosophy and far from being a novelty in the history of philosophy there is significant evidence that several of the first western philosophers ingested psychedelics as well In his first book Joseph I Breidenstein Jr PhD maintained that western philosophy began as what we today would call a feminist religious reformation in the sense that many prominent presocratic philosophers were reviving a paleo neolithic goddess centered religiosity of rebirth within the largely patriarchal and death glorifying culture of archaic Greece And in this book Dr Breidenstein Jr proposes that the presocratics psychedelic reincarnationist feminine model of education and or worldview is better suited for democracy in the twenty first century than the economic model of education that takes the west's mainstream materialistic secular worldview for granted For several decades now researchers have acknowledged both that the empirical evidence for reincarnation is overwhelming and that psychedelics can evoke past life recollections but

explanations for either reincarnation or how psychedelics do this have yet to be offered By combining Nietzsche's philosophy with the work of other thinkers Psychedelic Immortality both provides explanations for each of these phenomena and explores how situating education and democracy within the context of reincarnation can incite a renaissance of American culture and politics For Nietzscheans and philosophers in particular this book illustrates the contemporary relevance of two neglected aspects of Nietzsche scholarship i.e psychedelics and reincarnation and for researchers in such fields as feminist philosophy of religion ecotheology philosophy of education social political philosophy and eastern philosophy it offers a more plausible and healthier worldview in which to explore possibilities in their respective fields that are diminished by the mainstream paradigm For spiritual seekers of all paths it offers a conception of philosophy as a practice of awakening goddess consciousness that unfolds over the course of successive lifetimes

A New Model of the Universe P.D.

Ouspensky,2023-01-29 In A New Model of the Universe written in 1914 and now published for the first time in French P.D Ouspensky describes his own quest for a form of truth concerning questions as fundamental as the place of man in the universe the unknown the invisible world starting from the idea always that true civilization only exists in esotericism and that modern Western civilization suffers from a profound barbarism due to the absence of esoteric thought Calling on Christianity Judaism Eastern philosophies the symbolism of the Tarot experimental mysticism the study of dreams hypnotism yoga but also the sciences and in particular ancient physics and modern the author attempts to answer the following questions what form does the world have Is the world a chaos or a system Does the universe exist by accident or was it created according to a plan A new model of the Universe responds to a growing need in late 20th century man to question his origins and the meaning of his existence by having recourse to ancient beliefs and traditions

The Nature of Creation Mark Harris,2014-09-19 It is generally assumed that science and religion are at war Many now claim that science has made religious belief redundant others have turned to a literalist interpretation of biblical creation to reject or revise science others try to resolve Darwin with Genesis The Nature of Creation addresses this complex debate by engaging with both modern science and biblical scholarship together Creation is central to Christian theology and the Bible and has become the chosen battleground for scientists atheists and creationists alike The Nature of Creation presents a sustained historical investigation of what the creation texts of the Bible have to say and how this relates to modern scientific ideas of beginnings The book aims to demonstrate what science and religion can share and how they differ and ought to differ
