LeRoy Miller, Stanley James Grenz, 1998-08-01

Beginning with the tatters of Europe after World War I the authors deftly survey a myriad of Christian theologians These theologians have responded creatively to the steep challenges to faith in this tumultuous century from Karl Barths No to Reinhold Niebuhr s Christian realism from Dietrich Bonhoeffer s religionless Christianity to Rosemary Radford Ruether s feminist liberation theology Easily accessible to both the theological student and the inquiring lay reader this succinct and reliable guide opens doors to some of the most profound religious insights of our time *Reinhold Niebuhr* Bob E. Patterson, 2017-01-25 Reinhold Niebuhr 1892 1971 arguably the most influential American theologian since Jonathan Edwards was the one American who found a comfortable place in a modern Pantheon comprised mainly of Europeans His doctrine of sin as pride has become a modern classic and he helped many to see how anxiety is the matrix for both inordinate self assertion and sensuality Not only a brilliant and articulate thinker Niebuhr was also a deeply compassionate sensitive human being and an ardent champion of social justice He remains a model for us today as he teaches us how to communicate the gospel in a secular age The Makers of the Modern Theological Mind series remains a must read for anyone eager to understand these theologians and their impact on today s church **Introduction to Modern Theology** John E.

Wilson, 2007-06-04 Surveying important nineteenth and early twentieth century theologians primarily in the German tradition John Wilson provides a thorough introduction to modern theology and those whose work within it helped initiate a new era in Christian theology Beginning with Immanuel Kant and moving into the present time Wilson describes the formative theological work of a number of theologians such as Friedrich Schleiermacher Albrecht Ritschl Karl Barth and Emil Brunner In doing so he follows the trajectories of their thought to the present day which have had profound influence on contemporary theologians such as Reinhold Niebuhr and H Richard Niebuhr Martin Luther King Jr Wolfhart Pannenberg and Karl Rahner **The Church in the Modern Age** Jeremy Morris, 2007-03-28

Given the diversity and complexity of developments in the twentieth century a history of the Christian Church in the modern period is in some ways the most challenging volume of all to write But Jeremy Morris succeeds in presenting a coherent account of the Church He emphasises the changing relationship of Western churches to the many forms of Christianity in other parts of the world while also departing from the Eurocentric worldview of previous histories His volume offers three major perspectives The first is political in which the history of the modern Church is assessed through a prism of international conflicts and international

relations The second perspective is regional in which coverage is given not only to Europe and the Americas but to Christianity in Africa the Middle East Asia the Pacific Rim and Australasia The author s third major perspective is institutional in which he discusses particular Christian traditions and their relationships with each other with other faiths and with wider cultures An epilogue evaluates the future and prospects for Christianity in the new millennium **The End of Liberal Theology** Peter Toon,2010-10-01 Modern theology is a maze of conflicting beliefs In fact the shape of contemporary theology has changed so much in this century and especially since the 1960s that it s hard to make sense of it all Of not only what the various belief systems mean but how we came to be where we are within those systems In *The End of Liberal Theology* respected theological lecturer and author Peter Toon introduces evangelicals to modern forms of doctrine and theology both Protestant and Roman Catholic He does so by discussing the basics of orthodoxy by speaking to the various points of accommodation that have resulted in new forms of theology and by dissecting liberalism and its effect on evangelicalism This book is thus a family tree of modern theology showing how the various contemporary forms and those that preceded them are related to each other With its comprehensive analysis *The End of Liberal Theology* is destined to be a yardstick by which critical evaluations of current doctrines both old and new liberal and conservative will be made
