Critical Readings in Teacher Education, 2008-01-01 Like other fields of study teacher education defines itself both by what it includes and by what it excludes Teacher educators and researchers have spent a great deal of time seeking and attempting to eradicate the flaws in existing structures and practices but significantly less time learning to perceive the absences The premise of this book is that until we can identify and begin to address what is absent teacher education will be constrained by a perennial recycling of concerns that have characterized so much of research policy and practice to date If teacher education is to have a different future we need to ask different and difficult questions This book with contributions from theorists in Australia Canada and the United States addresses the challenges we face in establishing a more hopeful future for teacher education The authors provocative contributions identify what is missing in teacher education while providing critical counterpoints to existing frames of reference in the field In writing against the grain they open up new conceptual spaces and exciting trajectories for a different teacher education **Language Teacher Identities** Matthew Clarke, 2008 This book explores the development of the first cohort of students to complete a new Bachelor of Education in

**Carry On, Teachers!** Susan Ellsmore, 2005 In the world of screen culture teachers are unfailingly represented as charismatic figures able to tackle the deprivations their students face and to form special relationships with them that none of their staff colleagues can But how realistic are such representations and more importantly what do real world teachers think about their reel world counterparts This book takes a closer look at the charismatic teacher as portrayed in films such as *Blackboard Jungle* *To Sir With Love* and *Dead Poets Society* and in television series such as *Teachers* It considers the eccentric resilient or romantic but always charismatic teacher in inner city schools private or public schools and contrasts them with the views of practising teachers *Carry on Teachers* will be essential to media and cultural studies courses but is designed as much for teachers and those coming into the profession
