Description in English Latin America and the Caribbean International Relations in the 21st Century Summit Diplomacy and Spaces of Regional and Global Agreement Faced with a new global context that has multiple actors but no effective multilateralism the multilateral system is now in crisis This is largely due to the economic and financial crisis underway since 2008 to the United States paying less attention to Latin America and other regions of the world and its unilateral inertia and to the deadlock in the United Nations system and the reduced legitimacy of emerging institutions which are unable to achieve global governability In the West profound and important changes are being witnessed such as the

deepening of relations between Latin America particularly South America and the Asia Pacific region and China's consolidation as a significant strategic trading partner for Latin America supplanting other partners like the European Union. In addition, the revolutions and transformations occurring in Arab countries and the changes taking place in Africa are reorienting priorities and trends in Europe that no doubt affect Latin America. This publication brings together the main ideas presented by prominent academics with regard to these global changes and the different visions of hegemonic countries within and beyond the region and to summit diplomacies such as that of APEC, CELAC, the Americas and the EU as well as the ideas presented in relation to emerging transnational issues such as climate change, security, governance, governability and integration. In turn, the issues of security and defense are analyzed in relation to the new challenges of the 21st century and the relevant actors within hemispheric foreign policy including Canada, the United States, Mexico and Brazil. Lastly, this work contains a reflection on this view of the changes that continue to take place within the International System.

Handbook of Central American Governance Diego Sanchez-Ancochea, Salvador Martí i Puig, 2013-12-17

Central America constitutes a fascinating case study of the challenges, opportunities and characteristics of the process of transformation in today's global economy. Comprised of a politically diverse range of societies, this region has long been of interest to students of economic development and political change. The Handbook of Central American Governance aims to describe and explain the manifold processes that are taking place in Central America that are altering patterns of social, political and economic governance with particular focus on the impact of globalization and democratization. Containing sections on topics such as state and democracy, key political and social actors, inequality and social policy and international relations, in addition to in-depth studies on five key countries: Costa Rica, Nicaragua, El Salvador, Honduras and Guatemala, this text is composed of contributions from some of the leading scholars in the field. No other single volume studies the current characteristics of the region from a political, economic and social perspective or reviews recent research in such detail. As such, this handbook is of value to academics, students and researchers as well as to policy makers and those with an interest in governance and political processes.

International Relations in Europe Knud Erik Jørgensen, Tonny Brems Knudsen, 2006-04-18

A new and illuminating critical examination of international relations in Europe. This new volume presents all of the state-of-the-art thinking focusing particularly on international relations theory and theoretical debates in Western and Central European countries. The contributors seek to strengthen knowledge about different ways of cultivating the discipline to intensify pan-European communication concerning IR theory to contribute to improving the quality of theorizing and finally to consider future directions for the discipline in Europe. The main issues addressed include the historical development of the discipline, factors driving IR theorizing, the institutional and cultural context of theorizing, homegrown theory building vs theory import.

patterns of traditional and new discourse and the diversity of disciplinary traditions Política exterior y desafíos regionales en el siglo XXI: integración física, productiva y recursos estratégicos Wanderley dos Reis Nascimento Júnior, Alina Ribeiro, Natália Noschese Fingerhann, Heitor Erthal, Guilherme Augusto Guimarães Ferreira, Fabio Sánchez, Luis Padilla Vassaux, Jonatan Badillo Reguera, Paulo Cesar Dos Santos Martins, Edson Dos Santos Jr., 2025-05-26 El propósito del tomo 21 se centra en abordar en primera instancia aspectos clave de la política exterior en los casos de actores regionales y subregionales. Dado el rol que desempeñan dichos Estados puede determinar e incidir frente a intereses objetivos estratégicos para la integración. Mediante la propuesta de modelos de análisis en el tomo se determinan variables importantes que permitan trascender la variable ideológica para explicar la crisis estructural de la noción de regionalismo y la práctica de la integración regional. Al respecto, dentro de la agenda de integración regional, los objetivos estratégicos pasan por las demandas internas y sus intereses nacionales que requieren paz y desarrollo, una mayor integración productiva y física, así como por la seguridad de recursos estratégicos entre otros. En este sentido, la integración regional debe ir más allá de ser un compromiso ideacional institucionalizado en las constituciones de los países latinoamericanos como un fin en sí mismo para contribuir al bienestar de sus sociedades de manera significativa como un medio para prosperar en todas las dimensiones. Para ello se requiere una revitalización de la práctica de la integración y la cooperación intrarregional a partir de elementos clave de la noción de regionalismo a partir de la cual se reconozcan las particularidades y las heterogeneidades existentes tanto coyunturales como estructurales en todos los niveles. Lo anterior demanda mayores discusiones y contribuciones que aborden aspectos como el liderazgo, el rol y la inserción internacional, el desarrollo productivo y la interconexión, el multilateralismo, la seguridad humana, entre otros.

Latin America in Global International Relations Amitav Acharya, Melisa Deciancio, Diana Tussie, 2021-07-29 Using decades of their own insight into teaching undergraduate International Relations IR courses, leading experts offer an introduction to IR thinking throughout history in Latin America, unfolding ideas, voices, concepts, and approaches from the region that can contribute to the broader Global IR discussion. The book highlights and discusses the growing possibility of a Latin American agency defined broadly to include both material and ideational elements in regional and international relations, covering areas where Latin America's contributions are especially visible and relevant, such as regionalism, international law, security management, and Latin America's relations with the outside world. This is not about exclusively Latin American solutions to Latin American problems but rather about contributions in which Latin Americans define the terms for understanding the issues and set the terms for the nature and scope of outside involvement. Written with verve and clarity, *Latin America in Global International Relations* exposes readers to the relevance of redefining and broadening IR theory. It will serve as a guide for instructors in structuring their courses and in identifying the place of Latin America in the discipline.
