Audio-visuals Relating to Animal Care, Use, and Welfare Jean A. Larson, 2000 *Videos of African and African-related Performance* Carol Lems-Dworkin, 1996 **Mastered by the Clock** Mark M. Smith, 2000-11-09 Mastered by the Clock is the first work to explore the evolution of clock based time consciousness in the American South Challenging traditional assumptions about the plantation economy's reliance on a premodern nature based conception of time Mark M Smith shows how and why southerners particularly masters and their slaves came to view the clock as a legitimate arbiter of time Drawing on an extraordinary range of eighteenth and nineteenth century archival sources Smith demonstrates that white southern slaveholders began to incorporate this new sense of time in the 1830s Influenced by colonial merchants fascination with time thrift by a long held familiarity with urban public time by the transport and market revolution in the South and by their own qualified embrace of modernity slaveowners began to purchase timepieces in growing numbers adopting a clock based conception of time and attempting in turn to instill a similar consciousness in their slaves But forbidden to own watches themselves slaves did not internalize this idea to the same degree as their masters and slaveholders found themselves dependent as much on the whip as on the clock when enforcing slaves obedience to time Ironically Smith shows freedom largely consolidated the dependence of masters as well as freedpeople on the clock Audio-visuals Relating to Animal Care, Use, and Welfare D'Anna J. B. Jensen, 1993 **Bringing the Body to the Stage and Screen** Annette Lust, 2012 As stage and screen artists explore new means to enhance their craft a new wave of interest in expressive movement and physical improvisation has developed And in order to bring authenticity and believability to a character it has become increasingly vital for actors to be aware of movement and physical acting Stage and screen artists must now call upon physical presence movement on stage non verbal interactions and gestures to fully convey themselves In *Bringing the Body to the Stage and Screen* Annette Lust provides stage and screen artists with a program of physical and related expressive exercises that can empower their art with more creativity In this book Lust provides a general introduction to movement including definitions and differences between movement on the stage and screen how to conduct a class or learn on one's own and choosing a movement style Throughout the book and in the appendixes Lust incorporates learning programs that cover the use of basic physical and expressive exercises for the entire body In addition she provides original solo and group pantomimes improvisational exercises examples of plays fiction poetry and songs that may be interpreted with movement a list of training centers in America and Europe and an extensive bibliography and videography With 15 interviews and essays by prominent stage and screen actors mimes clowns dancers and puppeteers who describe the importance of movement in their art and illustrated with dozens of photos of renowned world companies and artists *Bringing the Body to the Stage and Screen* will be a valuable resource for theater teachers and students as well as anyone engaged in the performing arts
