Gays and Grays Donal Godfrey, 2007-07-20 *Gays and Grays* tells the story of a unique Catholic parish Most Holy Redeemer Parish in San Francisco is in the center of the world s first gay neighborhood The Castro This parish was the center of the hostility to the arriving gay population in the 1970s but paradoxically was itself transformed into a welcoming parish The old time parishioners the gray bonded with the new comers the gay particularly in a joint compassionate response to the crisis of AIDS A charismatic pastor FR Tony McGuire also played a key role in the transformation of this interesting parish Most Holy Redeemer was changed from a dying parish to a vital place where gay and straight people together created something new Father Donal Godfrey shows how this parish became prophetic and compassionate through conflict and compromise at times

despite opposition from many sources including the institutionalized homophobia of the church and society. Rather than becoming embittered, the parish opened up to be a place of healing and indeed sanctuary for many. This book tells this fascinating story and why it is significant beyond the scope of San Francisco. Most Holy Redeemer is a place which has remained within the institution while at the same time challenging it with grace and humor. This accessible and moving book is appropriate for all levels of students of congregational studies, Sociology of Religion, Gay or Queer Studies, and Religion courses.

Encyclopedia of Gay Histories and Cultures George Haggerty, 2013-11-05. First Published in 2000. A rich heritage that needs to be documented. Beginning in 1869 when the study of homosexuality can be said to have begun with the establishment of sexology, this encyclopedia offers accounts of the most important international developments in an area that now occupies a critical place in many fields of academic endeavors. It covers a long history and a dynamic and ever-changing present while opening up the academic profession to new scholarship and new ways of thinking. A groundbreaking new approach. While gays and lesbians have shared many aspects of life, their histories and cultures developed in profoundly different ways. To reflect this crucial fact, the encyclopedia has been prepared in two separate volumes, assuring that both histories receive full unbiased attention and that a broad range of human experience is covered. Written for and by a wide range of people. Intended as a reference for students and scholars in all fields as well as for the general public, the encyclopedia is written in user-friendly language. At the same time, it maintains a high level of scholarship that incorporates both passion and objectivity. It is written by some of the most famous names in the field as well as new scholars whose research continues to advance gender studies into the future.

Telling Time Lisa Frieden, 2020-06-01. Telling Time is a scholarly book that explores how novelists wrote about AIDS during the first decade of the epidemic when HIV and AIDS were considered death sentences and most often associated with homosexuality and the gay community. The book explores the different narrative strategies used by novelists to represent the temporality of AIDS, looking at Paul Reed's *Facing It*, a Novel of AIDS; David Feinberg's *Eighty Sixed* and *Spontaneous Combustion*; and Paul Monette's *Afterlife* and *Halfway Home*, and how a few novels did manage to resist the apocalyptic dominant rhetoric of AIDS. The book also discusses the difficulties of publishing AIDS novels by people of color and such writers as E. Lynn Harris and Steve Corbin. Telling Time includes a comprehensive annotated bibliography of all American AIDS novels published from 1982-1992 as a reference guide for further reading.

Living with HIV and Dying with AIDS Lesley Doyal,2016-05-13 There is now a vast literature on HIV and AIDS but much of it is based on traditional biomedical or epidemiological approaches Hence it tells us very little about the experiences of the millions of people whose living and dying constitute the reality of this devastating pandemic Doyal brings together findings from a wide range of empirical studies spanning the social sciences to explore experiences of HIV positive people across the world This will illustrate how the disease is physically manifested and psychologically internalised by individuals in diverse ways depending on the biological social cultural and economic circumstances in which they find themselves A proper understanding of these commonalities and differences will be essential if future strategies are to be effective in mitigating the effects of HIV and AIDS Doyal shows that such initiatives will also require a better appreciation of the needs and rights of

those affected within the wider context of global inequalities and injustices Finally she outlines approaches to address these challenges This book will appeal to everyone involved in struggles to improve the well being of those with HIV and AIDS While academically rigorous it is written in an accessible manner that transcends specific disciplines and through its extensive bibliography provides diverse source material for future teaching learning and research *The Emerging Network* Michael York,1995 The 1980s saw the emergence of New Age and neo paganism as major new religious movements In the first book length study of these movements Michael York describes their rituals and beliefs and examines the similarities differences and relationships between them He profiles particular groups including the Church Universal Triumphant Nordic pagans and the Covenant of Unitarian Pagans and questions the adequacy of existing sociological categories for describing these largely amorphous phenomena *The New Age Primer* Virgil Armstrong,Lynn Buess,Glenn Phillips,Dorothy Roeder,Robert Shapiro,Ruth Ryden,Pete Sanders, Jr.,Eileen Nauman,1997-06-01 Welcome to the New Age It is here Now Everywhere From the way medicine treats the body mind and spirit to quantum physics and the films you see you are noticing a changing reality Whether you are a newcomer to this age or an adept you will find this overview fascinating informative and empowering It is a textbook designed to clarify concepts once considered alien to Western thinking As a guidebook to expand your reality it can change your ideas about time space matter and even who you are Homosexuality and Medicine, Health, and Science Wayne R.
