Lifework Moran Sheleg, 2024-07-23 Following the critical scepticism surrounding the notion of the self as a singular entity during the 1960s many artists and writers sought to test the apparent problem posed by autobiography as both a traditional genre and as a way of working Considering the consequent emergence of autotheory Lifework traces this shift in artistic and literary production during the

late twentieth century and beyond examining a set of diverse practices that mine the line between what it is to make art and what it is to live life The book s chapters connect a variety of artistic strategies that cut across medium geography and time uncovering how the historical marginalisation of first person experience has taken on larger social cultural and political implications in the contemporary moment and how the work of living might still relate to the work of art About the Rose Elizabeth Ferrell,2022-02-22 A remarkable portrait of a web of artistic connections traced outward from Jay DeFeo s uniquely generative work of art Through deep archival research and nuanced analysis Elizabeth Ferrell examines the creative exchange that developed with and around The Rose a monumental painting on which the San Francisco artist Jay DeFeo 1929 1989 worked almost exclusively from 1958 to 1966 From its early state to its dramatic removal from DeFeo s studio the painting was a locus of activity among Fillmore District artists Wallace Berman Bruce Conner Wally Hedrick and Michael McClure each took up The Rose in their photographs films paintings and poetry which DeFeo then built upon in turn The resulting works established a dialogue between artists rather than seamless cooperation Illustrated with archival photographs and personal correspondence in addition to the artworks Ferrell s book traces how The Rose became a stage for experimentation with authorship and community defying traditional definitions of collaboration and creating alternatives to Cold War America s political and artistic binaries *Reciprocal Relationships and Well-being* Maritta Törrönen,Carol Munn-Giddings,Laura Tarkiainen,2017-12-14 A sense of participation and opportunities to share and participate in activities or groups that are important to them are crucial factors in human wellbeing This book provides a robust empirical and theoretical analysis of reciprocity and its implications for social work and social policy practices by discussing how ideas of reciprocity can be understood and applied to welfare policy and social care practices as well as how the act of reciprocity supports the wellbeing of citizens Contributions from Finland Germany Russia the UK the USA and Canada illuminate the ways in which socio political contexts influence the power relations between citizens practitioners and the state and the potential or otherwise for reciprocity to flourish It will be essential reading for social care practitioners researchers and educationalists as well as postgraduate students in social work and related social care and community oriented professions and social policy makers Creative Ethical Practice in Counselling & Psychotherapy Patti Owens,Bee Springwood,Michael Wilson,2012-04-04 This book considers the necessary structures and processes that must inform creative humanistic practice for it to be a safe ethical therapeutic framework Packed with reflective exercises summaries case examples and step by step guidance this book takes the reader from establishing the therapeutic relationship to worst case scenarios like complaints procedures and legal action **The Relationship Between the Library and the Public Schools** Arthur Elmore Bostwick,1914 Chi and Creativity Elise Dirlam Ching,Kaleo Ching,2014-01-14 Most people tend to idealize artists writers and others of the creative class as uniquely gifted But the capacity to create is part of being human whether that means writing making art cooking gardening sewing dancing acting singing or virtually any activity In Chi and Creativity Kaleo

Ching and Elise Dirlam Ching show readers how to use a wide range of strategies to harness the energy of chi to uncover and cultivate that often elusive inner artist Based on their popular workshops the authors offer an integrative process to generate the joy wonder and sense of well being necessary for artistic self expression Specific exercises draw on everything from acupuncture and breathing techniques to Chi Kung movement and meditation Through Chi Awareness the body mind emotions and spirit come into greater harmony Through guided imagery they dialogue Through journaling they speak Through art they join in creative expression of the inner discoveries along the path to greater balance and integration Chi and Creativity is the authors way of sharing this magical transformative process and can be used by anyone who wants to add fuel to their creative fires

The Genocide Paradox Anne O'Byrne, 2023-04-25 We regard genocidal violence as worse than other sorts of violence perhaps the worst there is But what does this say about what we value about the genos on which nations are said to be founded This is an urgent question for democracies We value the mode of being in time that anchors us in the past and in the future that is among those who have been and those who might yet be If the genos is a group constituted by this generational time the demos was invented as the anti genos with no criterion of inheritance and instead only occurring according to the interruption of revolutionary time Insofar as the demos persists we experience it as a sort of genos for example the democratic nation state As a result democracies are caught in a bind disavowing genos thinking while cherishing the temporal forms of genos life they abhor genocidal violence but perpetuate and disguise it This is the genocide paradox O Byrne traces the problem through our commitment to existential categories from Aristotle to the life taxonomies of Linneaus and Darwin through anthropologies of kinship that tether us to the social world the shortfalls of ethical theory into the history of democratic theory and the defensive tactics used by real existing democracies when it came to defining genocide for the U N Genocide Convention She argues that although models of democracy all make room for contestation they fail to grasp its generational structure or acknowledge the generational content of our lives They cultivate ignorance of the contingency and precarity of the relations that create and sustain us The danger of doing so is immense It leaves us unprepared for confronting democracy's deficits and its struggle to entertain multiple temporalities In addition it leaves us unprepared for understanding the relation between demos and violence and the ability of good enough citizens to tolerate the slow burning destruction of marginalized peoples What will it take to envision an anti genocidal democracy

Levine, 2009-09-15 Stephen K Levine's book explores the nature of traumatic experience and the therapeutic role of the arts and arts therapies in responding to it It suggests that by re imagining painful and tragic experiences through art making we may release their fixity and negative hold on our lives and resist the temptation to assume the role of the victim
