Family Relationships in Contemporary Crime Fiction Bill Phillips, 2019-04-23. Behind every crime novel, there is a family. The author's the hero's or the heroine's and that of the villains themselves. Some families organise themselves into crime syndicates controlling drugs, prostitution, and illegal gambling. Others are simply dysfunctional, tearing themselves apart: fathers against sons, mothers against daughters, sisters against brothers, husbands against wives. Not everyone escapes alive. However, families do not exist in a vacuum. They are an important part of our society, for many, one of its most essential building blocks. That being said, society itself can impinge disastrously on personal relationships. War, that greatest of crimes, leaves children bereft of parents. Generations of children are stolen by cynical, racist administrators in supposedly civilised countries. Religion requires its followers to flourish and multiply while abandoning all, including family, for their faith. All of these issues and more

are explored in this collection of essays about crime fiction and the family *Social Work with Children and Families* Martin Brett Davies, 2012-03-20 Social workers are constantly making decisions under pressure How do policy law research and theory influence what they do This important book provides the answers with a crystal clear map of the field of social work with children and families Focused on four major themes family support work child protection adoption and fostering and residential child care and reveals in detail all the challenges that social workers face every day Edited by the highly respected Martin Davies this authoritative and illuminating book argues that the skill of the social worker can have life enhancing consequences for some of the most vulnerable people in society It is an essential investment for students educators and practitioners alike
