The Exercise of the Spirit and the Building of God Witness Lee, 2024-01-17 In the New Testament age God is doing a specific work in His Son and through the Holy Spirit He is entering into people that they may be filled with the element of God and He is bringing these people who are filled with His element into Himself This is the mingling of God with man this is the building of God The believers who have been mingled with God are built up together in Him The builded church is not composed of only human beings Rather the building of the church is accomplished by building God into man When God is in all of us and we are in God we are one Body This is the way that we are built together This building depends

on the New Testament priests These priests are not a special class of believers but rather the believers who are in spirit and can be built together in God In order for the church to be built up it is necessary for every believer to enter into the Holy of Holies and carry out their priestly service that is to pray in their spirit Only by praying in our spirit can we become living stones that are being built together 1 Pet 2 5 The present need is for the believers to be built together in spirit to become a living spiritual temple as the Body of Christ for Him to obtain rest to be expressed and to be glorified The Hope of the Christian Rev. Norman Holmes,2021 The Bible tells us that every overcoming Christian will become conformed to the image of Christ But what does this mean And how can we prepare ourselves for an abundant fulfillment of our Christian hope In this book Rev Norman Holmes will answer these questions and much more What is the eternal goal for every believer How should we prepare ourselves for a glorious future Developing spiritual discernment How to hit the mark of the high calling of God

Brain, Consciousness, and God Daniel A. Helminiak,2015-07-16 Brain Consciousness and God is a constructive critique of neuroscientific research on human consciousness and religious experience An adequate epistemology a theory of knowledge is needed to address this topic but today there exists no consensus on what human knowing means especially regarding nonmaterial realities Daniel A Helminiak turns to twentieth century theologian and philosopher Bernard Lonergan s breakthrough analysis of human consciousness and its implications for epistemology and philosophy of science Lucidly summarizing Lonergan s key ideas Helminiak applies them to questions about science psychology and religion Along with Lonergan eminent theorists in consciousness studies and neuroscience get deserved detailed attention Helminiak demonstrates the reality of the immaterial mind and addressing the Cartesian mind body problem explains how body and mind could make up one being a person Human consciousness is presented not only as awareness of objects but also as self presence the self conscious experience of human subjectivity a spiritual reality Lonergan s analyses allow us to say exactly what spiritual means and it need have nothing to do with God *Fellowship Concerning the Urgent Need of the Vital*
