**Production, 1500-1625** Micheline White, 2016-05-13 Contributing to the growing interest in early modern women and religion this essay collection advances scholarship by introducing readers to recently recovered or little studied texts and by offering new paradigms for the analysis of women's religious literary activities Contributors underscore the fact that women had complex multi dimensional relationships to the religio political order acting as activists for specific causes but also departing from confessional norms in creative ways and engaging in intra as well as extra confessional conflict The volume thus includes essays that reflect on the complex dynamics of religious culture itself and that illuminate the importance of women's engagement with Catholicism throughout the period The collection also highlights the vitality of neglected intertextual genres such as prayers meditations and translations and it focuses attention on diverse forms of textual production such as literary writing patronage epistolary exchanges public reading and epitaphs Collectively *English Women Religion and Textual Production 1500 1625* offers a comprehensive treatment of the historical literary and methodological issues preoccupying scholars of women and religious writing *Women, Reading, and the Cultural Politics of Early Modern England* Edith Snook, 2017-07-05 A study of the representation of reading in early modern Englishwomen's writing this book

exists at the intersection of textual criticism and cultural history. It looks at depictions of reading in women's printed devotional works, maternal advice books, poetry and fiction, as well as manuscripts for evidence of ways in which women conceived of reading in sixteenth and early seventeenth century England. Among the authors and texts considered are Katherine Parr's *Lamentation of a Sinner*, Anne Askew's *The Examinations of Anne Askew*, Dorothy Leigh's *The Mothers Blessing*, Elizabeth Grymston's *Miscelanea Meditations Memoratives*, Aemelia Lanyer's *Salve Deus Rex Judaeorum*, and Mary Wroth's *The First Part of the Countess of Montgomery's Urania*. Attentive to contiguities between representations of reading in print and reading practices found in manuscript culture, this book also examines a commonplace book belonging to Anne Cornwallis Folger (Folger MS V a 89) and a Passion poem presented by Elizabeth Middleton to Sarah Edmondes Bod (MS Don e 17). Edith Snook here makes an original contribution to the ongoing scholarly project of historicizing reading by foregrounding female writers of the early modern period. She explores how women's representations of reading negotiate the dynamic relationship between the public and private spheres and investigates how women might have been affected by changing ideas about literacy, as well as how they sought to effect change in devotional and literary reading practices. Finally, because the activity of reading is a site of cultural conflict over gender, social and educational status, and the religious or national affiliation of readers, Snook brings to light how these women, when they write about reading, are engaged in structuring the cultural politics of early modern England.

**Shakespeare and Religious Change** K. Graham, P. Collington, 2009-07-16 This balanced and innovative collection explores the relationship of Shakespeare's plays to the changing face of early modern religion, considering the connections between Shakespeare's theatre and the religious past, the religious identities of the present, and the deep cultural changes that would shape the future of religion in the modern world.

**The Oxford Handbook of the Age of Shakespeare** R. Malcolm Smuts, 2016-06-30 The Oxford Handbook of the Age of Shakespeare presents a broad sampling of current historical scholarship on the period of Shakespeare's career that will assist and stimulate scholars of his poems and plays. Rather than merely attempting to summarize the historical background to Shakespeare, individual chapters seek to exemplify a wide variety of perspectives and methodologies currently used in historical research on the early modern period that can inform close analysis of literature. Different sections examine political history at both the national and local levels, relationships between intellectual culture and the early modern political imagination, relevant aspects of religious and social history, and facets of the histories of architecture, the visual arts, and music. Topics treated include the emergence of an early modern public sphere and its relationship to drama during Shakespeare's lifetime; the role of historical narratives in shaping the period's views on the workings of politics; attitudes about the role of emotion in social life; cultures of honour and shame; and the rituals and literary forms through which they found expression, crime and murder, and visual expressions of ideas of moral disorder and natural monstrosity in printed images, as well as garden architecture.

*Form and Reform in Renaissance England* Barbara Kiefer Lewalski, 2000 Written by scholars on both sides of the Atlantic, they reexamine the

categories which have shaped recent studies of early modern culture and literature such as what constitutes the category of author or reader what demarcates a particular literary form and how its discursive shape might influence and in turn be influenced by contemporary political practices

Shakespeare and the Cultures of Performance Paul Yachnin, Patricia Badir, 2017-05-15 Theatrical performance suggest the contributors to this volume can be an unpredictable individual experience as well as a communal institutional or cultural event The essays collected here use the tools of theatre history in their investigation into the phenomenology of the performance experience yet they are also careful to consider the social ideological and institutional contingencies that determine the production and reception of the living spectacle Thus contributors combine a formalist interest in the affective and aesthetic dimensions of language and spectacle with an investment in the material cultures that both produced and received Shakespeare's plays Six of the chapters focus on early modern cultures of performance looking specifically at such

topics as the performance of rusticity the culture of credit contract and performance the cultivation of Englishness religious ritual and mourning and memory Building upon and interrelating with the preceding essays the last three chapters deal with Shakespeare and performance culture in modernity They focus on themes including literary and theatrical performance anxiety cultural iconicity and the performance of Shakespearean lateness This collection strives to bring better understanding to Shakespeare's imaginative investment in the relationship between theatrical production and the emotional intellectual and cultural effects of performance broadly defined in social terms *Paratexts of the English Bible, 1525-1611*

Debora Shuger, 2022 Studies paratexts found in sixteenth century English bibles from prefaces dedications and annotations to prayers diagrams and woodcuts to shed light on the materiality of surviving bibles and on their publication histories but also on Reformation theology and the history of the English church **Writing and Religion in England, 1558-1689**

Anthony W. Johnson, 2016-02-17 The fruit of intensive collaboration among leading international specialists on the literature religion and culture of early modern England this volume examines the relationship between writing and religion in England from 1558 the year of the Elizabethan Settlement up until the Act of Toleration of 1689 Throughout these studies religious writing is broadly taken as being communicational in the etymological sense that is as a medium which played a significant role in the creation or consolidation of communities Some texts shaped or reinforced one particular kind of religious identity whereas others fostered communities which cut across the religious borderlines which prevailed in other areas of social interaction For a number of the scholars writing here such communal differences correlate with different ways of drawing on the resources of cultural memory The denominational spectrum covered ranges from several varieties of Dissent through via media Anglicanism to Laudianism and Roman Catholicism and there are also glances towards heresy and the mid seventeenth century's new atheism With respect to the range of different genres examined the volume spans the gamut from poetry fictional prose drama court masque sermons devotional works theological treatises confessions of faith church constitutions tracts and letters to history writing and translation Arranged in roughly chronological order **Writing and Religion in England 1558-1689** presents chapters which explore religious writing within the wider contexts of culture ideas attitudes and law as well as studies which concentrate more on the texts and readerships of particular writers Several contributors embrace an inter arts orientation relating writing to liturgical ceremony painting music and architecture while others opt for a stronger sociological slant explicitly emphasizing the role of women writers and of writers from different sub cultural backgrounds **Political Culture, the State, and the Problem of Religious War in Britain and Ireland, 1578-1625**

R. Malcolm Smuts, 2023-01-24 In the period between 1575 and 1625 civic peace in England Scotland and Ireland was persistently threatened by various kinds of religiously inspired violence involving conspiracies rebellions and foreign invasions Religious divisions divided local communities in all three kingdoms but they also impacted relations between the nations and in the broader European continent The challenges posed by actual or potential religious violence gave rise to

complex responses including efforts to impose religious uniformity through preaching campaigns and regulation of national churches an expanded use of the press as a medium of religious and political propaganda improved government surveillance the selective incarceration of English Scottish and Irish Catholics and a variety of diplomatic and military initiatives undertaken not only by royal governments but also by private individuals The result was the development of more robust and resilient although still vulnerable states in all three kingdoms and after the dynastic union of Britain in 1603 an effort to create a single state incorporating all of them R Malcolm Smuts traces the story of how this happened by moving beyond frameworks of national and institutional history to understand the ebb and flow of events and processes of religious and political change across frontiers The study pays close attention to interactions between the political cultural intellectual ecclesiastical military and diplomatic dimensions of its subject A final chapter explores how and why provisional solutions to the problem of violent religiously inflected conflict collapsed in the reign of Charles I

**Staging England in the Elizabethan History Play** Ralf Hertel, 2016-04-01 Applying current political theory on nationhood as well as methods established by recent performance studies this study sheds new light on the role the public theatre played in the rise of English national identity around 1600 It situates selected history plays by Shakespeare and Marlowe in the context of non fictional texts such as historiographies chorographies political treatises or dictionary entries and cultural artefacts such as maps or portraits and thus highlights the circulation and mutation of national thought in late sixteenth century culture At the same time it goes beyond a New Historicist approach by foregrounding the performative surplus of the theatre event that is so essential for the shaping of collective identity How this study crucially asks does the performative art of theatre contribute to the dynamics of the formation of national identity Although theories about the nature of nationalism vary a majority of theorists agree that notions of a shared territory and history as well as questions of religion class and gender play crucial roles in the shaping of national identity These factors inform the structure of this book and each is examined individually In contrast to existing publications this inquiry does not take for granted a pre existing national identity that simply manifested itself in the literary works of the period nor does it proceed from preconceived notions of the playwrights political views Instead it understands the early modern stage as an essentially contested space in which conflicting political positions are played off against each other and it inquires into how the imaginative work of negotiating these stances eventually contributed to a rising national self awareness in the spectators

**Religion and the Formation of Early Modern Identities in The Island Princess and The Jew of Malta: The Significance of Christianity in the Early Modern Period** Milena Bubenechik, 2015-02-01 This study depicts the significance of Christian and non Christian relations in the formation of early modern identities in John Fletcher s The Island Princess and Christopher Marlowe s The Jew of Malta Christian and non Christian relations are explicitly demonstrated in the Elizabethan and Jacobean plays due to their incorporated issue of religion The plays are set in the early modern period during which many changes occur The

significance of Christian and non Christian relations increase as the age of colonisation advances and more territorial expansion and long distance trade are undertaken The encounter with different cultures and faiths awakes European consciousness to the existence of great non Christian societies This knowledge in turn evokes apprehension of the existing attitudes and beliefs in Christian Europe Notions of race and religion begin to shift Non European peoples commence to be perceived as rivals to Christianity Marlowe s and Fletcher s plays depict the anxieties towards the Other where religion becomes the central issue of distinction Marlowe s tragedy The Jew of Malta deals with Judaism and Catholicism and their mutual hostility Fletcher s tragi comedy The Island Princess deals with the pagan princess s conversion to Christianity This study explores various aspects influenced and sustained by Christianity Christian beliefs form a foundation for early modern European society The emerging identities are indispensably intertwined with Christianity and Christian attitudes of that time Notions of race and gender cannot be easily defined without religion This study explores the changes in the development of racial thinking and its religious underpinning Christianity inevitably influences different spheres of social life and conduct because of its popularity during this time period Religion empowers European nations to endorse their values in foreign territories and advocates the spread of Christianity in the world The Island Princess for example explores underlying Christian values which set the heroine s conversion in the centre of the play The Jew of Malta on the other hand explores the notion that Christians are not flawless Not only does it reveal the condemned character traits of the Jews but it also ridicules the Christians The study investigates the emergence of Christians repulsive attitudes towards the Jews the relationship to the Turks and it explores Marlowe s criticism of the      *Habits of Thought in the English Renaissance* Debora K. Shuger, Renaissance Society of America, 1997-01-01 By examining orthodox methods of thought in the Renaissance the author tries to reconstruct a picture of the dominant culture of the period in England between 1580 and 1630
