The Church and Politics in Chile Brian H. Smith, 1992 **Politics, Religion, and Society in Latin America** Daniel H. Levine, 2012 Long assumed to be an unchanging and unquestioned bulwark of established power and privilege religion in Latin America has diversified and flourished while taking on new social and political roles in more open societies How did this change occur Why did churches in the region embrace new ideas about rights sponsor social movements and become advocates for democracy Are further changes on the horizon Daniel Levine explores these issues uniquely situating the Latin American experience in a rich theoretical and comparative context

The Catholic Church and Politics in Nicaragua and Costa Rica Philip J. Williams, 2010-11-23 Unlike most recent studies of the Catholic Church in Latin America Philip J Williams analyzes the Church in two very dissimilar political contexts Nicaragua and Costa Rica Despite the obvious differences Williams argues that in both cases the Church has responded to social change in remarkably similar fashion The efforts of progressive clergy to promote change in both countries have been largely blocked by Church hierarchy fearful that such change will threaten the Church's influence in society

Church and Politics in Latin America Dermot Keogh, 1990-06-18 Complex and profound changes have been taking place in the Latin American Catholic Church in the 20th century which have often been misunderstood and misrepresented This is a collection of essays written by scholars working in the fields of history political science sociology law and theology

Religion and Politics: New Developments Worldwide Roy C.

Amore,2019-09-17 Religion and Politics New Developments Worldwide features ten articles about recent developments in the interaction of Religion and Politics in various countries of Asia Africa Europe and both North and South America Most articles focus on one country and including China South Korea India Nigeria Malaysia France and Cuba Others address issues across regions such as Latin America Southeast Asia or the Middle East The fifteen contributors are scholars from diverse disciplines as well as diverse regions of Asia Europe Africa and the Americas Subjects include the Indian government s favoritism for Hinduism over rival religions the way the Sikhs of India avoid the religion politics divide the way the Western media fails to fully understand the Chinese government s policies on religious minorities the aftermath of the Charlie Hebdo demonstrations in France religious attitudes toward tax politics in South Korea as well as among Christians compared to Muslims how to lessen the radicalization of Muslims in Southeast Asia whether Nigeria should encourage its Muslims to be active in the Organisation of Islamic Cooperation the spiritual role played by the permaculture movement in Cuba and how the former tendency of scholars to polarize religion and politics is no longer viable especially in Latin America *Politics And Social Change In Latin America* Howard J. Wiarda,2019-07-11 Since the appearance of the first edition of this text in 1974 the book has stimulated an ongoing debate about the nature of the Latin American development process Although the essays discuss a wide range of historical economic political and social issues they are unified in arguing that the Latin American experience of development is subject to special imperatives of analysis and interpretation not generally offered in the Western literature on development and social change Arguing that West ern models are often inappropriate when applied to Latin America the authors explore alternative approaches to understanding the Latin American pattern of development and change The third edition retains classic essays from earlier editions but has been extensively revised to take account of the dramatic changes in the region over the last ten years Looking particularly at the challenges presented by redemocratization and the new pluralism the book raises the question of whether a distinct tradition still remains New readings discuss the implications of U S foreign policy in Latin America the changing role of the church the process of democratization and human rights issues and speculate on the permanence of Latin America s more pluralistic political structures *The Church and Labour in Colombia* Kenneth Medhurst,1984 Study of relationships between the Catholic Church and trade unionism in Colombia with particular reference to the period after 1946 describes the political development context incl The political system and the evolution of Church attitudes towards social problems and political problems reviews the development of the labour movement and activities of the Union de Trabajadores de Colombia UTC trade union federation comments on the social role and social status of the Colombian Catholic Church References statistical tables **“Ye Shall Know Them by Their Fruits”** Jason García Portilla,2021-12-11 Why are historically Catholic countries and regions generally more corrupt and less competitive than historically Protestant ones How has institutionalization of religion influenced the prosperity of countries in Europe and the Americas This open access book addresses these critical

questions by elucidating the hegemonic and emancipatory religious factors leading to these dissimilarities between countries. The book features up to date mixed methods from interdisciplinary research contributing to existing studies in the sociology of religion field by demonstrating for the first time the effect of the mutually reinforcing configuration of multiple prosperity triggers religion politics environment. It demonstrates the differences in the institutionalization of Roman Catholicism and Protestantism by applying quantitative and qualitative methods and by performing a qualitative comparative analysis (QCA) of 65 countries. The author also provides a comprehensive survey and results of empirical research on different theories of development focusing on the influence of religion.

Religion and Politics in Comparative Perspective Ted Gerard Jelen, Clyde Wilcox, 2002-04-01 Religion is resurgent across the globe. In many countries religion is a powerful source of political mobilization and in some a potent social cleavage. In some religion reinforces the state; in others it provides the space for resistance. This book contains a series of detailed studies examining religion and politics in specific countries or regions. The cases include countries with one dominant religious tradition and others with two or more competing traditions. They include Catholicism, Protestantism, Islam, Hinduism, Shinto, and Buddhism. They include states where religion and politics are closely linked and others with at least a low wall of separation between church and state. The cases are organized by the type of religious marketplace but allow many other comparisons as well. We develop some generalizations from the cases and hope that they will be a fertile source of theorizing for others.

The Costa Rican Catholic Church, Social Justice, and the Rights of Workers, 1979-1996 Dana Sawchuk, 2006-01-01 Provides a new understanding of the relationship between Church and State in 20th century Costa Rica. Understanding the relationship between religion and social justice in Costa Rica involves piecing together the complex interrelationships between Church and State, between priests, popes, politics, and the people. This book does just that. Dana Sawchuk chronicles the fortunes of the country's two competing forms of labour organizations during the 1980s and demonstrates how different factions within the Church came to support either the union movement or Costa Rica's home grown Solidarity movement. Challenging the conventional understanding of Costa Rica as a wholly peaceful and prosperous nation and traditional interpretations of Catholic Social Teaching, this book introduces readers to a Church largely unknown outside Costa Rica. Sawchuk has carefully analyzed material from a multitude of sources: interviews, newspapers, books, and articles as well as official Church documents, editorials, and statements by Church representatives to provide a firmly rooted socio-economic history of the experiences of workers and the Catholic Church's responses to workers in Costa Rica.
