**Traditional Religion and Culture in a New Era** Reimon Bachika, 2017-12-04 Where will postmodern culture lead us in the twenty first century Will it destroy traditional cultures together with the old established religions that were its foundation These questions and the new concerns they evoke are explored in this important collection of original essays Contributors challenge entrenched assumptions about what many social scientists consider irreversible cultural trends These include cultural differentiation emphasis on individual identity movement toward religion as a private act rather than a community commitment and above all emphasis on the relativity of all knowledge and values The volume asserts three lines of argument in opposition to these trends The first is the teleological significance of traditional religions and archaic knowledge History can be said to have no goal but the same must not follow for human culture One can conceive individually of a hundred goals to live for However the quality of life cannot be that diverse Taken to the extreme cultural particularity and philosophical nihilism are insults to the life that emerged on our planet eons ago Second this volume emphasizes moral concern and the importance of universal values Ideas of human well being have been formulated from ancient times Religious beliefs invariably contain statements of value in the form of commandments and exhortations that express fundamental goals for a quality of life Third the nature of religion and spirituality is discussed Religion today has become controversial socially and marginal sociologically The role of religion in society is sometimes problematic or abused but it is also underestimated and misunderstood The authors suggest that contemporary religion might best be viewed as non ideological spiritual culture This in turn looks to a future in which religion and culture coalesce This volume includes an international cast of scholars from Japan the United States Canada the United Kingdom Germany Greece Italy New Zealand and Belgium All have engaged in research outside their own countries Taken as a whole this volume addresses issues of interest to those in the fields of futures studies religion and philosophy and in particular those concerned with human agency personal responsibility and public choice Religion, Culture, and Politics in the Twentieth-century United States Mark Hulsether, 2007 Key players and themes in US religion before the twentieth century Changes in the religious landscape in the early twentieth century Religion and social conflict in the early twentieth century Shifts in the religious landscape from World War II to the present Religion

and evolving social conflicts from World War II to the present Cultural aspects of religion from World War II to the present Conclusion consensus pluralism and hegemony in US religion      **Media, Religion and Culture** Jeffrey H. Mahan, James H. Thrall, 2025-09-10 Media Religion and Culture An Introduction explores the religious content of media texts and the reception of those texts by religious consumers who appropriate and reuse them in their own religious work This thoroughly updates new edition offers a comprehensive introduction to the contemporary field of religion media and culture      **Religion and Culture** Annemarie de Waal Malefijt, 1968 A comprehensive anthropological study of religion traces the history of the discipline discusses the archeological discoveries that have shed light on the development of religious consciousness and examines the various manifestations functions and changes of religious customs and beliefs      Religion and Spirituality Across Cultures Chu Kim-Prieto, 2014-08-07 This book presents an integrated review and critical analysis of the recent research in the positive psychology of religion with focus on the positive psychology of religion across different cultures and religions The book provides a review of the literature on different contributions of religion and spirituality to positive functioning and well being and reviews religions across the world including Christianity Islam Buddhism Judaism Sikhism Native American religions and Hinduism It fills a unique place in the market s increasing interest and demand in the psychology of religion as well as positive psychology While the target audience is researchers scholars and students in psychology cross cultural studies religious studies and social sciences it will be useful for anyone interested in better understanding the contributions of religion and culture in subjective well being      **The Understanding of Culture and Religion** Alan Shariff, 2018-12-06 Culture is a word most of us believe we understand very well We ve heard this word used many times in our lives and we have used it many times in conversations about ourselves our way of life or when we are talking about other people s way of life We also use the word culture whenever we are talking about people from other countries and other religions However I believe that most people today misuse and misunderstand this word culture Culture is the root word of cultivate and when I say this the meaning of culture should become a little clearer Because most of us understand the word cultivate to have something to do with growing something The true definition of culture is growth and development That which helps us to grow and develop as a person family or society is our culture based on this meaning If this is true then anything or any way of life that does not serve to bring about growth and development can t be considered as culture What we mistake for culture in our conversations today should be classified as people s traditions customs rituals and even superstitions that different societies have adopted over many generations for various reasons Just because a community of people is practicing something in their daily lives does not mean that this is something that is serving their growth and development as a people To begin to understand the problems we are facing in our individual lives and our societies today we must start studying the difference between culture traditions customs rituals and superstitions versus religion We must learn the difference between that which is helping us from that which is hurting us and why Based on this

meaning of the word culture I believe that the belief in one God and religion has served humanity the most in our growth and development throughout history But if this is true then we must ask ourselves why is our society so dark and evil today Notably with so many people still claiming to be religious people around the world Christians and Muslims make up approximately 55 percent of the world's population and all religions make up nearly 90 percent of the world's population One of the reasons I believe God's knowledge is not shining in our world today is that each religion is claiming that their belief is the only way to be blessed by God Because each religion is claiming that the other religions are wrong I think that this has created confusion in our society concerning religion Each of us who believe in God was born into this world knowing nothing and all of us had to accept that which was told to us by our parents and community as the truth However God has given each of us the ability to study and grow in knowledge Eventually we should develop an understanding that will provide us with the ability to distinguish right from wrong and truth from lies for ourselves I believe that each new generation that inherits God's books must reinterpret them to be able to judge for themselves what is the truth from God Also we need to decide for ourselves whether today's religions are misrepresenting these books original message and intentions On the Day of Judgment the answer that you were just following what was passed down to you won't be an excuse with God If you were born into your religion what makes your belief any different from all the other religions that also say that their faith is the right way and that yours is the wrong way If you believe in God and His promise I encourage you to investigate for yourself what God wants you to really believe say and do to be blessed by Him I want to share with you my understanding of culture religion and the real purpose of life that God has blessed me to understand This understanding I believe will help you to see why we are having so many problems in our societies and religions of today Also what it is going to take for our world to get back on the right track
