Philosophy of Religion Tim Bayne, 2018-02-13 What is the philosophy of religion How can we distinguish it from theology

on the one hand and the psychology sociology of religious belief on the other What does it mean to describe God as eternal And should religious people want there to be good arguments for the existence of God or is religious belief only authentic in the absence of these good arguments In this Very Short Introduction Tim Bayne introduces the field of philosophy of religion and engages with some of the most burning questions that philosophers discuss Considering how religion should be defined and whether we even need to be able to define it in order to engage in the philosophy of religion he goes on to discuss whether the existence of God matters Exploring the problem of evil Bayne also debates the connection between faith and reason and the related question of what role reason should play in religious contexts Shedding light on the relationship between science and religion Bayne finishes by considering the topics of reincarnation and the afterlife ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Outlines of the Philosophy of Religion Hermann Lotze, 2016-07-08 An excerpt from the INTRODUCTION 1 If religion were a normal product of the human reason alone then philosophy would be the sole legitimate organ for determining and interpreting its content If on the contrary it sprung from revelation then reason alone would not be able it is true to have discovered it but after it were in existence it would still be necessary to show that its content is the adequate fulfillment for those religious needs which our reason is compelled to cherish but would not be able of itself to satisfy Even in this case therefore philosophy would have a work to accomplish by way of such authenticating The assertion that the content of religion is a mystery is not convincing There can be many facts of religion of such sort that the possibility of their coming to pass may not admit of rational apprehension and yet we should not without exception take offence at this But a mystery the significance of which were not at least susceptible of definition would be a mere curiosity devoid of all connection with our religious needs and on this account an unworthy object of revelation Finally if religion were a morbid product of the human spirit philosophy even in that case would find occupation It would have to investigate psychologically and historically the conditions of the origin of this delusion as well as the conditions of avoiding it in the future The principal object of the following reflections is connected with the first point of view above suggested that is we seek to ascertain how much of the content of religion may be discovered proved or at least confirmed agreeably to reason The two other points of view we subordinate to this 2 It is customary to demand faith in contrast with knowledge as the proper organ for the truths of religion Such an assertion finds its most exact expression in the intimation that in fact even scientific cognition always rests ultimately upon faith that is to say upon an immediate act of trust in certain absolutely simple and self evident truths which are neither in need of any proof nor capable of it An important distinction is overlooked in the above mentioned view All such ultimate self evident propositions upon which our knowledge is founded are general judgments which do not tell us that anything whatever is or

takes place but which only declare what would exist or would have to take place in case definite conditions occur or more concisely they all merely express certain general rules which we are obliged to follow in the combination of the content of our ideas On the contrary those propositions upon which the most special interest of religion depends for example that God is that He has created the world that the soul survives death etc are all of them declarative judgments which assert a definite particular fact With respect to the before mentioned general propositions it may be understood that they are capable of being objects of our immediate insight or evidence for they are nothing but expressions of the forms of activity in which our reason according to its own nature must be exercised

Religion and Philosophy Martin Warner,1992-04-24 In this lively collection ten philosophers tackle the notoriously elusive issues raised by religious discourse in a series of linked debates The debates focus on reason and faith the logic of mysticism the meaning of the word God language Biblical interpretation and worship and religion and ethics Through contemporary philosophical analysis it is possible to shed new light on the status and language of religion and in many ways the contributors to *Religion and Philosophy* break new ground in this perennially controversial field

A Philosophy of Religion Edgar Sheffield Brightman,1969-12-04 *Feminist Philosophy of Religion* Pamela Sue Anderson,Beverley Clack,2004 *Feminist Philosophy of Religion* Critical Readings brings together key new writings in this growing field

Experience, Explanation and Faith Anthony O'Hear,2013-05-02 In this book Anthony O'Hear examines the reasons that are given for religious faith His approach is firmly within the classical tradition of natural theology but an underlying theme is the differences between the personal Creator of the Bible or the Koran and a God conceived of as the indeterminate ground of everything determinate Drawing on several religious traditions and on the resources of contemporary philosophy specific chapters analyse the nature of religious faith and of religious experience They examine connections between religion and morality and religion and human knowledge the cosmological teleological and ontological arguments process thought and the problem that evil presents for religion The final chapter returns to the inherently dogmatic nature of religious faith and concludes that rational people should look beyond religion for the fulfilment of their spiritual needs

Oxford Studies in Philosophy of Religion Jonathan Kvanvig,2008-05-15 This volume offers a snapshot of the state of the art in this longstanding area of philosophy which has seen an explosive growth of interest over the past half century The essays are broad ranging and as a whole are not specific to any particular creed

The Philosophy of Religion George Galloway,1956 **Faith and Philosophical Analysis** Dr Christopher J Insole,Dr Harriet A Harris,2013-05-28 What tensions arise between philosophy of religion and theology What strengths and weaknesses of analytical methods emerge in relation to strongly confessional philosophical theologies or to Continental philosophies Faith and Philosophical Analysis evaluates how well philosophy of religion serves in understanding religious faith Figures who rarely share the space of the same book leading exponents of analytic philosophy of religion and those who question its legacy are drawn together in this book with their disagreements harnessed to positive effect Figures such as Richard

Swinburne and Basil Mitchell reflect on their life long projects from a perspective which has not previously been seen in print. A wide range of approaches found in contemporary philosophy of religion are explored including reformed epistemology, traditional metaphysical theory building, feminist methodologies, Wittgensteinian approaches and American pragmatism. Considering the trends in philosophy of religion as they are interacting across continents, looking particularly at philosophical influences in North America, Britain and Continental Europe, this book will appeal to students, scholars and general readers with an interest in philosophy of religion, theology or analytical philosophy.
