Shaftesbury (3rd earl), 1969      **Second Characters; Or the Language of Forms** Anthony Ashley Cooper Shaftesbury, 2015-07-06 Excerpt from *Second Characters Or the Language of Forms* Edited by Benjamin Rand. The Third Earl of Shaftesbury is best known to the world as the author of the *Characteristics*. Another work by him was discovered by the present editor in the Record Office in London and printed in 1900 with the title of *Philosophical Regimen*. At that time a manuscript volume was also found among the Shaftesbury Papers containing the plan and fourth treatise of a work intended as a complement to the *Characteristics* which was entitled *Second Characters*. This volume was mostly written in 1712. It appears that owing to declining health Shaftesbury had been compelled to leave England and spend the last year and a half of his life in Italy. On the 3rd of July 1711 he sailed from Dover and proceeding slowly through Paris Turin and Rome arrived November 15th 1711 in Naples. In this city he resided seeking in vain through the aid of a mild climate to recover his gradually failing strength until his death February 15th 1713. In spite of his contest with disease and brief as was the period that remained to him of allotted life his last months spent in Naples were nevertheless replete with large literary activity. Not only did he then complete for the press a second edition of the *Characteristics* but he likewise carried forward the preparation for intended publication of an entirely new work. Ashley Cooper Shaftesbury (comte de)),1914      *Probability and Literary Form* Douglas Lane Patey,1984-04-12 This highly original and penetrating study explores fundamental intellectual predispositions and concepts which underpin the literature and thought of the Augustan period in England By examining in particular Augustan notions of probability and the way they provided a framework for thinking about and organising experience Dr Patey reconstructs a characteristically eighteenth century theory of literature which offers a much more satisfactory account of the work of Pope Johnson Fielding and others than the Romantic literary categories already in existence The scope of this study is encyclopaedic and it will be an essential reference work for all scholars of eighteenth century English literature and intellectual history as well as historians of ideas
