Second City Politics Democratic Processes And Decision Making In Birmingham:

Second City Politics Kenneth Newton,1976 Crisis In Urban Government : A Study Of Decision-Making N. R Inamdar,1991 *Remaking the Union* Howard Elcock,Dr Michael Keating,2013-01-11 This volume addresses the issues arising from the recent devolution referenda by exploring the historical development of the proposals the importance of national and regional identities the changing policies of the political parties and the approaches of business and other major groups towards devolution It also looks at the impact on electoral reform coming from the proposal that proportional representation be used to elect the regional assemblies and how the new assemblies are to be financed Finally the book discusses the implications of a devolved British state where different countries and regions achieve different levels of autonomy at different paces *Fractured Cities* Brian D. Jacobs,2003-09-02 Anglo American cities face economic decline social polarisation and racial conflict Their fate is increasingly decided by the global actions of transnational corporations and market forces Community groups find it difficult to gain access to the political system Ethnic minorities strive for empowerment while indebted city governments battle to maintain basic services Such is the urban crisis of the 1990s *Fractured Cities* describes the political economy of urban change and explores the future of the city **Critical Citizens** Pippa Norris,1999 *Critical Citizens* is a study on attitudes towards nation governance political institutions and political leadership The contributors argue that the crisis in global democracy has been greatly exaggerated in recent years

Political Participation and Democracy in Britain Geraint Parry,George Moyser,Neil Day,1992-01-16 The results of a survey on the level and patterns of political involvement in Britain *Corruption in Urban Politics and Society, Britain 1780-1950* John Smith,2017-05-15 Despite much recent interest in the area of urban governance little work has been done on the changing ethical standards of urban leaderships governing institutions or the policing of public life Yet the issue of ethical standards in public life has become a central concern in contemporary public discourse with issues of public probity moral order and personal standards re emerging as central features of political debate This volume places these debates into their historical perspective by examining the linkages between processes of modernisation urbanisation and the ethical standards of governance and public life It considers how ethical debates arise as a result of differential access to positions of authority and from competition for public resources The contributions are drawn from a wide range of scholarly and disciplinary backgrounds and provide a broad analysis of the phenomenon of corruption assessing how debates about corruption arose the narratives used to criticise established modes of public conduct and their consequences for urban leadership *Local Governance in Central and Eastern Europe* T. Lankina,A. Hudalla,H. Wollmann,2008-01-23 This book examines local government performance in key areas of social services and economic promotion in eight towns in the Czech Republic Hungary Poland and Russia It dispels the myth that socio economic givens or inter governmental systems are key determinants of local development *A Contrived Countryside* Keith Hoggart,2021-03-26 This book shows how governance

regimes before the 1970s suppressed rural prospects of housing improvement and created conditions for middle class capture Using original archival sources to reveal the intricacies of local and national policy processes weak rural housing performances are shown to owe more to national governance regimes than local under performance Looking behind the scenes at policy processes highlights neglected principles in national governance and shows how investigating rural housing is fundamental to understanding the national scene With original insights and a new analytical perspective this volume offers evidence and conclusions that challenge mainstream assumptions in public policy housing rural studies and planning Size and Local Democracy Bas Denters, Michael Goldsmith, Andreas Ladner, Poul Erik Mouritzen, Lawrence E. Rose, 2014-09-26 How large should local governments be and what are the implications of changing the scale of local governments for the quality of local democracy These questions have stood at the centre of debates among scholars and public sector reformers alike from The Progressive Pilgrim Alan Burnett, 2025-06-10 The Progressive Pilgrim is wide ranging in its scope It is both a guide and a gazetteer and a research and resources digest It covers radical people and places as well as political action and activities in the past as well as the present Dr Alan Burnett says My main motivation with this book is to share my version of progressive radicalism my admiration for radical men and women past and present my knowledge of the geography of Britain where radical action has taken place my enthusiasm for research that can assist in progressive campaigning and policymaking and some of the films songs and books that I love My hope is that reading this book will foster a sense of pride in what has been achieved by British progressives radicals and a determination to continue a tradition that will make Britain a better country in which to be born grow up be educated live work play retire die and leave for those coming after us

Farewell to the Party Model? Marion Reiser, Everhard Holtmann, 2008-05-14 Marion Reiser Everhard Holtmann Local independent lists as political actors are a common phenomenon on the local level in many European countries in established Western democracies as well as in the new democracies in Central and Eastern Europe In some West European countries these non partisan groups have been an established and stable element in the local political system for decades They call themselves as protectors of a harmonious factual political style In their opinion good local politics is not compatible with party politics so they consequently perceive themselves as non parties During the last two decades presence and success of local lists have steadily increased in these countries Furthermore during the last years local lists emerged also in countries which had been formerly fully party politicised on the local level Explanations offered for these developments are often based on the observation of a general decline of trust in established parties and politicians Hence it has been argued that the disenchantment with political parties is a fertile ground for local lists For the Central and East European countries this argument can be played only to a certain extent Local lists established themselves in the early 1990s as important actors on the local level especially due to a lack of party organisation in the process of democratic consolidation **Spatial Policy in a Divided Nation** Richard T. Harrison, Mark Hart, 2002-09 This re evaluation of the role of regional policy in the UK has

been accompanied by a much closer identification of regional policy with national economic policymaking This book drawing upon the contributions of a large number of experts in the field in the UK sets the debate on the future of spatial policy explicitly within the context of the economics and politics of the North South divide Recent policy debates in the United Kingdom have highlighted two major issues which will shape future policy developments and their impact in the 1990s the persistence of pronounced regional economic and social imbalances and the shift away from traditional perceptions of the role of regional policy with a new emphasis on inner city as opposed to regional problems In this collection by leading researchers in the field the role of regional policy in the UK is re evaluated against a background of renewed debate on the economic disparities inherent in the north south divide and an assessment of the implications for future policy

Local Government in Britain Since Reorganisation Alan Alexander, 2024-10-01 Originally published in 1982 this book was the first comprehensive critical assessment of the outcome of the controversial reorganisation of British local government outside London which took place between 1973 and 1975 The book deals with the new systems in England Wales and Scotland drawing upon the results of almost 100 in depth interviews with leading members and officers from Shetland to Cornwall from major cities to rural districts Liaison between the tiers the effects of corporate management the spread of the office of chief executive the increasing levels of partisanship and the changing face of central local relations are examined on the basis of close observation and practical experience rather than theoretical preconceptions

Private Groups and Public Life Jan W. van Deth, 2003-12-16 This book focuses on the changing relationship between social and political involvement in Western Europe Empirical case studies examine how new social movements interact with conventional political structures as individuals and groups experiment with new forms of political expression The results indicate not a declining but a changing democratic culture

The Oxford Handbook of Urban Politics Karen Mossberger, Susan E. Clarke, Peter John, 2015-02-15 The Oxford Handbook of Urban Politics is an authoritative volume on an established subject in political science and the academy more generally urban politics and urban studies The editors are all recognized experts and are well connected to the leading scholars in urban politics The handbook covers the major themes that animate the subfield the politics of space and place power and governance urban policy urban social organization citizenship and democratic governance representation and institutions approaches and methodology and the future of urban politics Given the caliber of the editors and proposed contributors the volume sets the intellectual agenda for years to come

Leading the Localities Colin Copus, 2013-02-28 This book now available in paperback is the result of national research conducted amongst England's directly elected mayors and the councillors that serve alongside them It is the first such major publication to assess the impact on local politics of this new office and fills a gap in our understanding of how the Local Government Act 2000 has influenced local governance The book also draws from a range of research that has focused on elected mayors in England and overseas to set out how the powers roles and responsibilities of mayors and mayoral councils would need to change if

English local politics is to fundamentally reconnect with citizens It not only explores how English elected mayors are currently operating but how the office could develop and as such is a major contribution to the debate about the governance of the English localities *Making Better Places* Patsy Healey, 2017-08-24 A major new introduction to planning by one of the leading figures in the field This text goes beyond description of planning's central ideas and practices to stress the importance of its potential to improve the quality of life in the 21st century **Urban Regeneration, Community Power and the (In)Significance of 'Race'** Paul J. Maginn, 2017-11-30 The concepts of community consultation and participation have come to dominate academic and policy debate about urban regeneration partnerships However there has been relatively little discussion about the nature of community power within regeneration partnerships Adopting an ethnographic approach in the study of community participation and power and the significance of race in three ethnically diverse neighbourhoods in London this book highlights that there has been a pluralistic turn in British urban regeneration policy Local communities often portrayed as the least powerful partner within partnerships are shown to use various strategies to influence decision making thus giving rise to a new typology of pluralism pragmatic hyper and paternalistic Furthermore the significance of race and racism within community forums and regeneration partnerships is challenged The playful use of the term In Significance in the title is linked to the argument that although racism exists race does not always matter **Urban Democracy** Oscar W. Gabriel, Vincent Hoffmann-Martinot, Hank V. Savitch, 2012-12-06 Among social scientists consensus exists on urbanization as an indispensable aspect of social modernization During the last century the process of industrialization was accompanied by a huge wave of migration from rural to urban areas The formation of big cities in turn made up the base for an increase of mass education as well as the spread of mass media The changes induced by urbanization did not only have a strong impact on the structure of the society but also did deeply change the way of social life By the end of the 21st century again a close link seems to exist between the socio economic transformation of the Western world on the one hand and a new stage in the process of urbanization on the other hand The service economy having replaced industrial production as the most important domain of economic life essentially needs the social and cultural infrastructure provided by urban or even metropolitan areas Due to the development of fast and highly efficient systems of mass transportation processes of social cultural and economic exchanges between the different parts of the world but primarily between metropolitan areas The development of new media of communication has facilitated the exchange of information of any kind not only within a society but moreover between societies separated by a large territorial distance from each other
