Terrorist Financing Nicholas Ridley, Nick Ridley, 2012-01-01 In recent years a great deal has been written about terrorism and how best to inhibit and undermine terrorist's aspirations Much of this literature tends to be one dimensional reflecting the experience of the author Dr Ridley having had a long and diverse career in intelligence and in particular financial analysis has succeeded in going far beyond description of a series of war stories to providing not only a starting account of the range and character of modern terrorism but also a knowledgeable analysis of the measures adopted around the world to combat the threat Of critical importance in the minds of many has been the adoption of techniques in the main from the war against drugs facilitating the identification and disruption of finance While emphasising the value of financial intelligence Dr Ridley now as a scholar dispassionately questions how successful this strategy has been and where it might take us Such issues need to be aired and resolved if we are not to undermine the very values which we seek to protect Barry Rider University of Cambridge UK This is hugely important and highly relevant contribution by a world

expert which adds to our knowledge of terrorist funding It will make practitioners and academics alike not to mention politicians who should be seeking their advice stop and think John Grieve Portsmouth University UK and former UK National Co ordinator for Counter Terrorism Dr Ridley has authored an excellent analytical comprehensive and solutions oriented book addressing the complexities of terror financing and the challenges in combating this menace Dr Ridley s unique insight arising from substantial academic and professional experiences on combating terror financing lends substantial credibility to the volume Dean C Alexander Western Illinois University US This authoritative book provides a holistic overview of terrorist groups and finances including consideration of the necessity and differing financial needs of different groups For over a decade international efforts by law enforcement government and financial regulatory authorities have been deployed in combatting terrorist financing in good faith and with dedication beyond reproach This book surveys the methods of financing of numerous terrorist groups and organisations including the Chinese and Asian dimension and considers why ultimately international efforts to combat the financing of terror are failing Nick Ridley expertly illustrates the scale of the problem by first outlining the strategies of anti terrorist financing the pre and post 9 11 differences in scope and extent of terrorist attacks the financial support and the national and international efforts to implement and carry out countermeasures He then goes on to set out a detailed analysis of the apparent failure of such counter measures to date Including operational case studies and details from the authors own experience studies and access to law enforcement and private sector sources this book will prove insightful for undergraduate and postgraduate students studying criminology history and law disciplines Those in the legal profession will also find plenty of useful information in this topical compendium Whither Southeast Asia Terrorism? Arabinda Acharya, 2014-12-30 More than 11 years after the 9 11 attacks and 10 years after the October 2002 Bali bombings the need for a comprehensive assessment of what the countries in Southeast Asia have achieved is overdue We need to consider whether the strategies against both the domestic and transnational terrorist and extremist threat have been appropriate and have yielded desired results The aim of this book is to make a comprehensive assessment of the threats of terrorism and extremism in the region and of the policies and practices adopted by the regional countries to counter the same It is also necessary to evaluate if the region has become a safer place after the decade long fight Most importantly it is time to ask if we need a rethink or develop a new strategy to contain and manage the threats of terrorism and extremism

Editor of Journal of Terrorism and Political Violence This stimulating collection of essays underlines how Southeast Asia has again as at the height of the Cold War been pushed towards the top of the list of world conflict zones by the collision between long standing regional problems and more recent external frictions Anyone needing to learn more about the relationship between the war on terror and Southeast Asia particularly regarding terrorism in Thailand Indonesia and the Philippines will need to consult this work Brian P Farrell National University of Singapore and author of The Defence and Fall of Singapore 1940 1942 This book is an excellent addition to the literature on political violence in Southeast Asia providing a wealth of detail on terrorism guerilla insurgency and the use of terror and repression by governments The book is especially valuable for the broad coverage of many different groups not just Islamic ones inclusion of the activities of governments and a variety of opinions and views on terrorism and political violence This book should be one of the essential resources for academics policymakers or anyone else interested in terrorism insurgency and political violence in the region It is an extremely valuable tool for one and all James M Lutz Indiana University Purdue University US and co author of Global Terrorism with Brenda Lutz This is an excellent volume which is very well conceived and balanced in its treatment of the problem of terrorism and insurgency in Southeast Asia This volume will greatly advance our empirical understanding of conflict and violence in this pivotal region The book contains many insightful contributions and overall the Handbook will serve as a standard reference on the subject matter for years to come M L R Smith King s College University of London UK This timely and significant book seeks to explain the deep seated complexities of terrorism and insurgency in Southeast Asia In the aftermath of 9 11 this region has been designated by the United States to be the second front in the war on terrorism Yet despite the emergence of this new global terrorism the authors argue that armed rebellion in Southeast Asia is a phenomenon that predates Al Qaeda and the global Jihadist movement and that much can be learned from the motivations behind it Written by a group of leading Western and emerging Southeast Asian scholars this extensive volume demonstrates the difficulty and diversity of rebellion in Southeast Asia and explores its intricate historical political social and economic roots The book will serve as an excellent reference and educational text providing an empirical and regional guide to the complex problem of insurgency in Southeast Asia It will also contribute to a more educated understanding that could provide the basis for appropriate counter terrorism strategies in this important part of the world Comprehensive and engaging this volume will find widespread appeal amongst researchers students and policymakers interested in terrorism international relations and Asian studies and will also be an invaluable tool for studies into political violence and security *The Talibanization of Southeast Asia* Bilveer Singh, 2007-10-30 Long before the terrorist attacks of September 11 2001 awakened the United States and the Western world to the heightened level of the terrorist threat Southeast Asia had been dealing with this threat The bombing in Bali that killed 202 people many of them Australian tourists was by no means the region s first experience with Islamic extremism which can be traced back to the 1940s and the Darul Islam struggle The most recent group to emerge is Al Jama ah Al

Islamiyah AJAI the most potent Islamic terrorist organization to date in the region and the group behind the Bali bombing Understanding the process of Talibanization in Southeast Asia which was once an oasis of moderate Islam in the modern world is a key to unraveling the mystery of the increased radicalization in the region Essentially this involved the establishment of a political system that was more Islamic in character either nationally or within a specific territory of a national state This book analyzes the increasing Talibanization of Southeast Asia a relatively new phenomenon that involves the adoption of Islamist doctrines ideologies and values that are largely militant in character and that for some groups includes the adoption of violence to achieve their goals This has succeeded in posing one of the most serious security challenges to the region since the end of the Cold War Jihadists are operating in small and localized cells even though the broad goals remain the same namely to spread sharia establish an Islamic state and bring down secular regimes As most governments do not have the credibility or the expertise to diminish the threat posed by Islamist extremism Wahhabism and Salafism Southeast Asia is in danger of being Talibanized in the near future *Islamist Terrorism and Militancy in Indonesia* Kumar Ramakrishna, 2014-10-19 Drawing upon insights from the natural and social sciences this book puts forth a provocative new argument that the violent Islamist threat in Indonesia today derives its stubborn resilience from being in essence a complex adaptive and self organizing system or what some specialists might even call a super organism The book challenges the popular assumption that ideology is the root cause that explains why Indonesian Islamists radicalize into violent extremism In addition it addresses why despite years of intense security force pressure seemingly disparate militant cells keep popping up like the proverbial hydra and in the apparent absence of a centralized coordinating body nevertheless appear to display an organic interconnectivity with one another Going beyond standard ideological mantras the book argues that fresh inter disciplinary thinking is needed to cope with the constantly mutating violent Islamist challenge in Indonesia and puts forth a comprehensive strategy for doing so It will be of interest to academics and students of terrorism religion and violence in the Southeast Asian region **Targeting Terrorist Financing** Arabinda Acharya, 2009-09-11 This book examines the dynamics of terrorist financing including a discussion about the importance of money from both the terrorist and the counter terrorist perspective Targeting Terrorist Financing argues that it is not the institutions that have failed the war on terrorist financing rather it is the states that have failed the institutions The measures contemplated by the world community to interdict terrorists and their financial infrastructures are sufficient to debilitate the terrorists both militarily and financially However what has been increasingly lacking is political will among the states and this has overwhelmed the spirit of cooperation in this very critical front against terrorism This volume assesses the need for international cooperation and the role of institutions and regimes in targeting terrorist financing After the 9 11 attacks there was an expression of global willingness to target terrorism generally and terrorist financing in particular The institutional mechanisms that grew out of this are explored in detail here with a critical examination of the progress made by the international community The

impact of these measures is considered with respect to changes in the nature of the terrorist threat money confiscated adoption of international conventions and global standards by states and levels of compliance among others This book will be of great interest to students of terrorism international organisations international security and IR in general Arabinda Acharya is Research Fellow Manager of Strategic Projects and Head of the Terrorist Financing Response Project at the International Centre for Political Violence and Terrorism Research in the S Rajaratnam School of International Studies Nanyang Technological University Singapore

The Sulu Arms Market Lino Miani, 2011 Situated in a remote area long a historical buffer zone between competing political entities the Sulu Arms Market is an illicit market of a typical form in that it is both a source and a destination for less than legal guns What makes the Sulu market unique is its longevity which is measured in centuries In modern times guns from the area supply conflicts and crime from Japan to Sri Lanka to Papua New Guinea and beyond and in turn the world pours guns and ammunition into Mindanao the Maluku Molucca Islands and to a lesser extent Malaysia and the rest of the Philippines Like most black arms pipelines the Sulu Arms Market is intertwined with piracy terrorism and the traffic of other illicit commodities Criminal gangs communists Moro independence groups and Islamic militants are all major players in the market making it a security problem for at least five member states of the Association of Southeast Asian Nations ASEAN

Extremist Islam Kumar Ramakrishna, 2022 Since the Bali terrorist attacks in 2002 law enforcement agencies have rigorously combatted terrorist networks in Southeast Asia yet groups motivated by violent extremist interpretations of Islam remain resilient and dangerous This book shines a light on specific beliefs behaviors and policies that impact these challenges ultimately offering cutting edge effective tools for response The book begins by challenging misguided and controversial notions that depict Islam as an inherently violent religion arguing that the theological ideological amalgam of what has been called Salafabism is the more useful lens for recognizing closed minded extremist currents The book carefully distinguishes this Salafabist extremist mindset from relatively open minded Salafabist radicalism paying due attention to nonviolent extremists and the ways they can contribute to rather than reduce violent terrorist activity in the region Using poignant case studies from Malaysia Singapore the Philippines and Indonesia the book

clarifies a bewildering range of terminology associated with Islamist violence and explains how imprecise and oversimplified narratives are destructive to progress and worse empowering to terrorist organizations These chapters build up to research informed policies and rhetorical recommendations for improved outcomes With its novel insights into the root causes of extremist terrorism in Southeast Asia the ineffective policies that prohibit progress and promote unrest in this region and the avenues for positive change this book offers a comprehensive strategy for fostering theologically sound yet culturally authentic counterterrorist measures that defend the complex richly textured tapestry of culture in Southeast Asia

Tan, 2012-01-26 Islamic schools especially madrasahs have been viewed as sites of indoctrination for Muslim students and militants Some educators and parents in the United States have also regarded introductory courses on Islam in some public schools as indoctrinatory But what do we mean by indoctrination And is Islamic education indoctrinatory This book critically discusses the concept of indoctrination in the context of Islamic education It explains that indoctrination occurs when a person holds to a type of beliefs known as control beliefs that result in ideological totalism Using Indonesia as an illustrative case study the book expounds on the conditions for an indoctrinatory tradition to exist and thrive Examples include the Islamic school co founded by Abu Bakar Ba asyir and the militant organisation Jemaah Islamiyah The book further proposes ways to counter and avoid indoctrination through formal non formal and informal education It argues for the creation and promotion of educative traditions that are underpinned by religious pluralism strong rationality and strong autonomy Examples of such educative Muslim traditions in Indonesia will be highlighted Combining philosophical inquiry with empirical research this book is a timely contribution to the study of contemporary and often controversial issues in Islamic education *Terrorism in the Twenty-First Century* Cynthia C.
