The Portrayal of Christ in the Syriac Commentary on the Diatessaron Christian Lange, Christian M. W. Lange, 2005 For a long time the Diatessaron has drawn the interest of modern scholars Some of the problems related to the Syriac Harmony of the Gospels have been solved Others still remain in dispute The Syriac Commentary on the Diatessaron attributed to Ephraem 306-373 is one of the most important witnesses to the wording of the Harmony Unfortunately most of the surviving Syriac folios of the text have been discovered only recently Consequently no detailed study on the Commentary has been undertaken yet It is the aim of this study to present this scholarly demand This Oxford dissertation deals with the questions of the difficult process of the Commentary's transmission and analyses both the Trinitarian and Christological understanding of its author By way of a comparison with the genuine Ephraem this study argues that the Commentary in its present form is a compilation from the hand of one of his disciples However it serves as an important source on the theological discussions in the Edessa of the late fourth and early fifth centuries

A Second Classroom Torin M. Finser, 2014-08-26 What does a healthy successful school look like Is it all about measurable outcomes test scores and pass/fail grades set by the government Can learning be quantified in short-term measurements or does real learning take years to manifest in a career or biography All seem to agree that a healthy school is also a community and that community depends on the quality of relationships chiefly the relationships among students teachers and parents This book

features a comprehensive examination of the parent teacher relationship in all its dimensions from parent evenings and conferences to communication conflict and the life cycle of parent involvement in their school In between the chapters on practical advice are sections that consider the issues from a deeper spiritual dimension This book is intended to stimulate conversation self reflection and relational practices that awaken community life in and around our schools *The Second Coming of Christ* Sherburne Povah Tregelles Prideaux,1916 *The Preacher in Print. Elliott,2022-06-24 This book explores the issue of ecclesiastical authority in Romanesque sculpture on the portals and other sculpted gateways of churches in the north Italian region of Lombardy Gillian B Elliott examines the liturgical connection between the ciborium over the altar the most sacred threshold inside the church and the sculpted portals that appeared on church exteriors in medieval Lombardy In cities such as Milan Civate Como and Pavia the liturgy of Saint Ambrose was practiced as an alternative to the Roman liturgy and the churches were constructed to respond to the needs of Ambrosian liturgy Not only do the Romanesque churches in these places correspond stylistically and iconographically but they were also linked politically in an era of intense struggle for ultimate regional authority The book considers liturgical and artistic links between interior church furnishings and exterior church sculptural programs and also applies new spatial methodologies to the interior and exterior of churches in Lombardy The book will be of interest to scholars working in art history medieval studies architectural history and religious studies A Commentary, on the First, Second, and Third Epistles of St. John. By Thomas Hawkins. [With the Text.] ,1808 **Blake Newsletter** ,1974 **The Architectural Review** ,1901 Art in Renaissance Italy John T. Paoletti,Gary M. Radke,2005 Art in Renaissance Italy sets the art of that time in its context exploring why it was created and in particular looking at who commissioned the palaces and cathedrals the paintings and the sculptures *Music in the Age of Chaucer* Nigel Wilkins,1995 Survey of the relationship

between music and literature in 14c France Italy and Britain with appendix of all songs attributed to Chaucer An absorbing survey He is an expert on the French song of the period consequently his wider view of Chaucer's musical background is well worth reading and he has much to say about Italy and England The music is first rate and early music performers will find these songs a welcome addition to their repertory EARLY MUSIC Although Chaucer himself was never described as a musician a number of his poems are based on French models which belong to a well established musical tradition and there are also many references to musical activities in his larger works This is the starting point for Dr Wilkins's book which explores both the wider question of the relationship between music and literature in the fourteenth century and the specific area of Chaucer's songs He surveys the musical and literary scene in France Italy and Britain during Chaucer's lifetime with special emphasis on composers such as Machaut and Landini and on the differences in national styles The performance of music and the instruments used are also fully explored The discussion of Chaucer's musical background is illustrated in the accompanying settings presented with words by Chaucer ten ballades three complaintes or chants royaux and one rondeau Fully illustrated with black and white photographs and musical examples New edition first published 1979 1980
