analysis of various characteristics within individuals towards a greater consideration of individuals dynamic interactions with diverse contexts This revisit of the bestselling The Psychology of the Language Learner reflects on these developments by challenging some of the assumptions upon which the original text was based maintaining the familiar structure of the original while situating the discussion within a very different theoretical framework Written in a lively accessible style the book considers how the field has evolved and maintains a keen eye on the future suggesting exciting new directions for the psychology of SLA The Psychology of the Language Learner Revisited will appeal to students and researchers in a wide range of disciplines including applied linguistics second language acquisition modern languages and psychology A Cognitive Approach to Language Learning Peter Skehan,1998 This book is intended for teachers and students of applied linguistics

Fossilized Second Language Grammars Florencia Franceschina,2005-12-22 This monograph is a theoretical and empirical investigation into the mechanisms and causes of successful and unsuccessful adult second language acquisition Couched within a generative framework the study explores how a learner s first language and the age at which they acquire their second language may contribute to the L2 knowledge that they can ultimately attain The empirical study focuses on a group of very advanced L2 speakers and through a series of tests aims to discover what underpins their near mastery of grammatical gender and other grammatical properties The book explores an account of persistent selective divergence based on the idea that child and adult learners are fundamentally similar except that in adults the L1 plays the role of a fairly rigid filter of the linguistic input The impossibility of representing the new target language other than by using the building blocks of the previously established L1 is argued to be the main reason why near but not totally native like language representations are formed and become established in adult L2 learners **New Perspectives on Individual Differences in Language**

Learning and Teaching Mirosław Pawlak,2012-04-05 The volume constitutes an attempt to capture the intricate relationship between individual learner differences and other variables which are of interest to theorists researchers and practitioners representing such diverse branches of applied linguistics as psycholinguistics sociolinguistics pragmatics or language teaching methodology It brings together contributions by Polish and international authors including leading experts in the field touching upon changing perspectives on individual variation cognitive affective and social variables learning deficits as well as their impact on learning and teaching It offers a multifaceted perspective on these problems and shows how theory and research can be translated into classroom practice **The Routledge Handbook of Chinese Second**
