*The Internet of Things* Mercedes Bunz, Graham Meikle, 2017-11-27 More objects and devices are connected to digital networks than ever before Things from your phone to your car from the heating to the lights in your house have gathered the ability to sense their environments and create information about what is happening Things have become media able to both generate and communicate information This has become known as the internet of things In this accessible introduction Graham Meikle and Mercedes Bunz observe

its promises of convenience and the breaking of new frontiers in communication They also raise urgent questions regarding ubiquitous surveillance and information security as well as the transformation of intimate personal information into commercial data Discussing the internet of things from a media and communication perspective this book is an important resource for courses analysing the internet and society and essential reading for anyone who wants to better understand the rapidly changing roles of our networked lives

**The Connected Home: The Future of Domestic Life** Richard Harper, 2012-01-11 The title of this new book The Connected Home reflects the move away from the idea that smart homes would alter the lives of those living in them by providing technologies to take over tasks that were previously the responsibility of the householder such as managing entertainment education and even eating Up until around 10 years ago this view was commonplace but time has shown that the technologies to support a smart home have not developed in such a way as to support this premise Instead what people do in their homes has moved the concept of a smart home into that of the connected home The rise of on line games technologies video connections via Skype social networking internet browsing etc are now an integral part of the home environment and have had a significant effect on the home The contributors to this exciting new book consider and discuss the effects and ramifications of the connected home from a variety of viewpoints an examination of the take up of personal computers and the Internet in domestic situations an analysis of the changing intersection of technology and human habits in the connected home the impact of gaming texting e book readers tablets and other devices and their effect on the social conditions of a household the relationship between digital messaging applications and real geography and an overview of how sensing technologies for the smart home might evolve lightweight medical technologies for example The book culminates by addressing unfinished ambitions from the smart home agenda the factors that have prevented their realisation and addresses the need for extending research into the area

**A Guide to Military History on the Internet** Simon Fowler, 2007-11-13 There are thousands of websites devoted to all aspects of military history from ancient Greece to the modern Gulf This unique book helps you find the ones that will help with your research whether you are checking out a soldier ancestor or an airman or researching a naval campaign It also features sites that are entertaining or controversial Sections cover the British armed services and their long military history but the author also describes in detail websites that focus on American and Canadian forces A Guide to Military History on the Internet is a companion volume to Pen Sword s best selling Tracing Your Army Ancestors by the same author

**Consumer Management in the Internet Age** Joshua Sperber, 2019-02-27 Consumer Management in the Internet Age How Customers Became Managers in the Modern Workplace analyzes online consumer management a practice in which customers monitor report on and sometimes unwittingly discipline workers through writing and posting online reviews Based on case studies of the websites Yelp and Rate My Professors RMP Joshua Sperber analyzes how online reviewing a popular contemporary hobby tells us much about the collapse of the barriers separating work and leisure as well as our need for collective purpose and

community wherever we can find it This book explores the economic implications of online reviews as reviews provide both valuable free content for websites and surveillance of respectively restaurant servers and college instructors     *Choice of Law in Copyright and Related Rights* Mireille M. M. van Eechoud,2003-01-01 Nobody denies that the traditional territorial approach to copyright and other intellectual property rights has come under pressure Yet it persists Faced with the need to determine the applicable law in cross border cases lawyers everywhere wrestle with the implications of the territorial nature of copyright and related rights In this book Mireille van Eechoud clears the way to the formulation of conflict rules that reflect the purpose of copyright law to protect creators and stimulate the production and use of information without reverting to old fashioned notions of territoriality She shows how the applicable law can be determined for four distinct legal avenues of intellectual property law Which exclusive rights exist in an intellectual creation and for how long Who is considered to own such right How can these rights be transferred and What continues infringement of copyright and related rights Mireille van Eechoud shows how when each of these questions is approached in the light of the different allocation principles used in modern choice of law a new clarity begins to emerge that promises in time to build a set of conflict rules well suited to the unprecedented copyright and related rights issues that we find so difficult to resolve today Her in depth analysis draws in the classis multilateral conventions and treaties underlying policies technological and economic developments utilitarian grounds versus justice considerations and issues of infringement in the digital environment
