Second Language Acquisition Barbara Snyder, 1986 **Resources in Education**, 1998 **Intensive vs. Extensive Approaches in Foreign Language Teaching** Carmen Neagu, 2023-01-22 The purpose of this theoretical and experimental paper is to clarify the influence of an extensive learning program on high school students language comprehension and attitude towards reading The experiment was administered throughout a school semester with a control group following the intensive approach and an experimental group subject to the extensive approach The intervention of the experiment was represented by the two teaching approaches extensive vs intensive whereas the measured outcome consisted in the learners changes in language proficiency and attitude towards reading Since both intensive and extensive approaches are necessary in order to prepare students for college tasks the senior high school period is an ideal moment to start introducing extensive language programs as a means of achieving and not substituting the communicative competence Furthermore the reading habit will outlast and accompany students as a lifelong second nature New Perspectives and New Directions in Foreign Language Education Diane W. Birckbichler, 1990 The five essays in this volume address broad trends and issues in foreign language education Bandwagons Revisited A Perspective on Movements in Foreign Language Education Frank M Grittner suggests that the bandwagons flourish because of lack of standardization and centralized authority in American education Characteristics and results of popular methods and movements are discussed In Language Instruction in the U S Policy and Planning June K Phillips opposing views and philosophies affecting public language policy are discussed and problems in explicit and implicit language policy are examined Sketching the Crisis and Exploring Different Perspectives in Foreign Language Curriculum Dale L Lange looks at internal problems in foreign language education including relationships with other fields simplistic application of theory to practice the role of metatheory the cyclical nature of the field internal professional debates and stresses under which foreign language professionals operate The student and his relationship to the foreign learning process is the subject of From Student to Learner Style Process and Strategy Vicki Galloway Angela Labarca Finally Reforming Foreign and Second Language Teacher Education Gilbert A Jarvis Sheryl V Taylor focuses on the need for improved teacher education in the face of current professional realities and new conceptualizations of the teacher s role MSE
