World War II in 50 Posters Ann P. Linder, 2026-03-30 Despite the increasing influence of film and radio before and during the Second World War poster propaganda retained its ability to persuade and its favored position as an influential tool of combatant nations With colorful images and forceful messages the governments of the U S and Europe including distant colonies and occupied territories attempted to manipulate public opinion to achieve their aim victory By its nature war propaganda is profoundly national and emotional Its appeal may be

blunt or subtle but it must be carefully targeted to its specific audience to be effective To trace the inner workings of poster propaganda across the cultures of the World War II combatants Dr Ann Linder has grouped the posters into thematic chapters working through the details of each poster peeling back its layers of historical and social reference its store of values and common memories until she brings the reader with her into an understanding of what its wartime viewers saw and felt in their own time and place Her analysis is complemented by a full page color reproduction of each poster which precedes her lucid and approachable explication of the interaction of image and text that controls the effect the poster had on its targeted audience Many of the themes are familiar national values industrial production espionage and food supplies among others but each government approaches the theme through its own values artistic styles and vision of itself The posters are carefully ordered to highlight the varied approaches of the combatant nations to similar problems Each poster serves as a window into the past Through analyses of the military social cultural and artistic history behind each poster its full historical context can be seen and its influence assessed The vivid imagery of the posters brings the scenes to life for the reader drawing the reader into an earlier time while still maintaining historical distance The detailed knowledge embedded in Dr Linder s thoughtful commentary draws together the many strands that are woven into war propaganda The Fundamentals of Illustration Second Edition Lawrence Zeegen,2012-10-10 A fresh introduction to the important elements of the discipline that takes the reader step by step through the key processes themes and applications in illustration

Encyclopedia of War and American Society Peter Karsten,2006 Publisher description The Fate of the New Man Claire McCallum,2018-07-03 Between 1945 and 1965 the catastrophe of war and the social and political changes it brought in its wake had a major impact on the construction of the Soviet masculine ideal Drawing upon a wide range of visual material The Fate of the New Man traces the dramatic changes in the representation of the Soviet man in the postwar period It focuses on the two identities that came to dominate such depictions in the two decades after the end of the war the Soviet man s previous role as a soldier and his new role in the home once the war was over In this compelling study Claire McCallum focuses on the reconceptualization of military heroism after the war the representation of contentious subjects such as the war damaged body and bereavement and postwar changes to the depiction of the Soviet man as father McCallum shows that it was the Second World War rather than the process of de Stalinization that had the greatest impact on the masculine ideal proving that even under the constraints of Socialist Realism the physical and emotional devastation caused by the war was too great to go unacknowledged The Fate of the New Man makes an important contribution to Soviet masculinity studies McCallum s research also contributes to broader debates surrounding the impact of Stalin s death on Soviet society and on the nature of the subsequent Thaw as well as to those concerning the relationship between Soviet culture and the realities of Soviet life This fascinating study will appeal to scholars and students of Soviet history masculinity studies and visual culture studies *The SAGE Encyclopedia of War: Social Science Perspectives* Paul Joseph,2016-10-11
