Secret Doctrine Synthesis Of Science Religion Volume1:

The Secret Doctrine, Vol. 1 H. P. Blavatsky, 2015-06-16 Excerpt from The Secret Doctrine Vol 1 The Synthesis of Science Religion and Philosophy The author the writer rather feels it necessary to apologize for the long delay which has occurred in the appearance of this work It has been occasioned by ill health and the magnitude of the undertaking Even the two volumes now issued do not complete the scheme nor do these treat exhaustively of the subjects dealt with in them A large quantity of material has already been prepared dealing with the history of Occultism as contained in the lives of the great Adepts of the Aryan Race and showing the bearing of Occult Philosophy upon the conduct of life as it is and as it ought to be Should the present volumes meet with a favourable reception no effort will be spared to carry out the scheme of the work in its entirety This scheme it must be added was not in contemplation when the preparation of the work was first announced As originally announced it was intended that The Secret Doctrine should be an amended and enlarged version of Isis Unveiled It was however soon found that the explanations which could be added to those already put before the world in the last named and other works dealing with Esoteric Science were such as to require a different method of treatment and consequently the present volumes do not contain in all twenty pages extracted from Isis Unveiled About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy (Complete) Helena Petrovna Blavatsky, 2020-09-28 Since the appearance of Theosophical literature in England it has become customary to call its teachings Esoteric Buddhism And having become a habit as an old proverb based on daily experience has it Error runs down an inclined plane while Truth has to laboriously climb its way up hill Old truisms are often the wisest The human mind can hardly remain entirely free from bias and decisive opinions are often formed before a thorough examination of a subject from all its aspects has been made This is said with reference to the prevailing double mistake a of limiting Theosophy to Buddhism and b of confounding the tenets of the religious philosophy preached by Gautama the Buddha with the doctrines broadly outlined in Esoteric Buddhism Any thing more erroneous than this could hardly be imagined It has enabled our enemies to find an effective weapon against Theosophy because as an eminent P li scholar very pointedly expressed it there was in the volume named neither Esotericism nor Buddhism The esoteric truths presented in Mr Sinnett s work ceased to be esoteric from the moment they were made public nor did the book contain the religion of Buddha but simply a few tenets from a hitherto hidden teaching which are now explained and supplemented by many more in the present volumes And even the latter though giving out many fundamental

tenets from the Secret Doctrine of the East raise but a small corner of the dark veil For no one not even the greatest living Adept would be permitted to or could even if he would give out promiscuously to a mocking unbelieving world that which has been so effectually concealed from it for long ons and ages Esoteric Buddhism was an excellent work with a very unfortunate title though it meant no more than does the title of this work The Secret Doctrine It proved unfortunate because people are always in the habit of judging things by their appearance rather than by their meaning and because the error has now become so universal that even most of the Fellows of the Theosophical Society have fallen victims to the same misconception From the first however protests were raised by Brahmans and others against the title and in justice to myself I must add that Esoteric Buddhism was presented to me as a completed volume and that I was entirely unaware of the manner in which the author intended to spell the word Budh ism

The Secret Doctrine Helena Petrovna Blavatsky,1970 [The Secret Doctrine](#) H.P. Blavatsky,2016-10-25 Madame Blavatsky s Victorian era masterpiece is now scaled down to its essentials providing the most readable accessible experience ever of one of history s seminal occult works The Secret Doctrine Helena Petrovna Blavatsky s masterwork on the origin and evolution of the universe and humanity itself is arguably the most famous and perhaps the most influential occult book ever written Published since 1888 only in expensive two volume editions of some 1 400 pages it has long eluded the grasp of modern readers until now This single volume edition abridged and annotated by historian and Theosophical scholar Michael Gomes places the ideas of The Secret Doctrine within reach of all who are curious In particular Gomes provides a critical sounding of the book s famous stanzas on the genesis of life and the cosmos mysterious passages that Blavatsky said originated from a primeval source and which form the heart of The Secret Doctrine Gomes scrupulously scales down the book s key writings on symbolism to their essentials and offers notes and a glossary to illuminate arcane references His historical and literary introduction casts new light on some of the book s sources and on the career of its brilliant and elusive author one of the most intriguing personages of the nineteenth century At once compact and representative of the work as a whole this new edition of The Secret Doctrine brings unprecedented accessibility to the key esoteric classic of the modern era

The Secret Doctrine (Vol. 1-3) Helena Blavatsky,2023-12-03 Helena Blavatsky s monumental work The Secret Doctrine Volumes 1 3 serves as an intricate tapestry

weaving together elements of theology philosophy and science integrating esoteric traditions with a profound exploration of the cosmos and human evolution Written in a dense yet poetic literary style the text is structured around the dual doctrines of the universal and the individual rooted deeply in theosophical thought Blavatsky draws upon a wide array of religious and philosophical sources including Eastern and Western esotericism to expound upon the idea of a hidden knowledge that transcends the physical realm presenting her insights as both a critique of materialism and an invitation to spiritual awakening Helena Blavatsky a seminal figure in the Theosophical Society was profoundly influenced by her travels to India and her studies of ancient wisdom traditions Her quest for universal truths led her to challenge prevailing scientific and religious dogmas of the 19th century positioning her as a pioneer of modern spirituality and a bridge between Eastern spirituality and Western thought The Secret Doctrine is a must read for anyone intrigued by metaphysics spirituality and the quest for knowledge that transcends conventional wisdom Blavatsky's comprehensive examination of the world's mystical traditions invites readers to explore the depths of their own consciousness and the interconnectedness of all existence
